LIVE NEWS OF THE NORTHWEST

ASTORIA, Ore., March 27.—There's much joy in the hearts of clams along the Oregon and Washington coast today and incidentally that joy will be reflected in the hearts of many thousands who sojourn annually on the beaches. The cause of all this joy is the storms which have been raging during the winter along the coast. Clams according to their closest students, thrive best when the storm rages hardest—at least do those clams along the Oregon and Washington coasts. Great beds of kelp parallel the coast, 200 miles from land. Clams subsist on seaweed and kelp is one of their favorite articles of diet. If there were no seaweeds, there would be no clams. Kelp drifts to the beach at all seasons of the year, but the storms of the last few months have brought in great quantities. The breakers along the coast line in many places are black with kelp. Hence, lots of good, fat clams.

TACOMA, Wash., March 27.—The cheering news that she had been fined only "one cent and costs" found Mrs. Laura Ellis in a dead faint in the courtroom of justice John Linch, before whom she was convicted of assaulting Nellie Langford.

PORTLAND, Ore., March 27.—Sermons and vampire pictures will vie for public interest at a local movie theater next Sunday and weekly thereafter. R. Lee Paget and 298 revolting members of the congregation of the old Taylor street Methodist church have leased the theater for divine services. Since the church split over a move to close the Taylor street building, meetings have been held in an upstairs hall. However, many of the aged insurrectionists had difficulty in climbing the stairs and the theater was leased. The party

PORTLAND, March 27.—A war census, aimed to determine the number of men available for military duty, the facilities for turning out materials needed if the United States should go to war will probably be taken in Oregon, Washington and Idaho. Arthur M. Churchill, who is now engaged in a similar mission in California, is expected to come north within a few days and begin the work. Advertisement for Chevrolet "Four-Ninety" Touring Car \$635. F. O. B. PENDLETON. The Chevrolet Four-Ninety Touring Car is a car of ideal economy. It gives you the most value for your money. The Chevrolet delivers the maximum power to the rear wheels. It accomplishes this feat through simplicity of mechanism. This compels directness of action. The result is more power and speed and less fuel and expense. The path of Chevrolet power is short and direct. The vaporized fuel enters directly into the valve-in-head motor. The impart of explosion strikes full against the piston head. It is an act of face-to-face co-operation. The fullness of the force is exerted immediately on the rear wheels. No friction of a second or horse-power is unduly spent. The Unit power plant type of construction does the business. And the result is, of course, that you ride faster and farther on one gallon of gasoline in this particular model. That is economy. And that is what you will find in the Chevrolet Four-Ninety.
