**IT WORKS WELL**

**A Combination That is Doing an Immense Amount of Good This Spring.**  
A superlative blood-purifying medicine like Hood's Sarsaparilla, taken before meals, combined with a superlative iron tonic like Peptonin Pills, taken after meals—makes the ideal course of Spring Medicine.  
No other medicines possess such curative properties as these two great restoratives working together.  
They reach the impure, impoverished, poisoned, devitalized blood, and the worn, run-down, overworked, exhausted system. They awaken the appetite, aid digestion, purify and vitalize the blood, give renewed strength to the whole body, produce sound, natural sleep, and a complete restoration to good health—the greatest of all earthly blessings. It is said that \$2 invested in these two medicines will bring better results than \$4 spent in other treatment.  
It will be wise to get Hood's Sarsaparilla and Peptonin Pills today.

**INSULTED WILSON; IS JAILED.**

Guardsmen said Adheres to Oath of Allegiance.  
**LEAVENWORTH, Kan., March 27.** Paul Scharfenberg, the Minnesota national guardsman recently convicted by a court martial in Texas of having used insulting language regarding the president, was brought to Fort Leavenworth today to begin serving a five-year sentence.  
Scharfenberg declared he still adheres to the oath of allegiance he took last summer when he enlisted and that he is ready to fight for the United States against Germany or any other country.

**MUST RESEED MUCH LAND ON PROJECT**

**HEAVY WIND STORM BLOWS STRAW FROM ALFALFA FIELDS, LEAVING SEED BARED.**

**How is Worst in History Declare Many of the Early Settlers Around Hermiston; Alfalfa Hay Bringing \$16 to \$24 a Ton at Present.**

(East Oregonian Special.)  
**HERMISTON, March 27.**—The recent wind storm which raged over this country for seven days did considerable damage to the alfalfa just seeded to alfalfa and to those being prepared for seeding. In the 75-acre field of Col. J. F. McNaught, the seed had just begun to sprout when the wind came on, and in riding over this field now, the colonel finds many places where the straw has been blown away along with a great deal of the soil, leaving the seed, with their tiny sprouts, uprooted and withering. A great deal of this will have to be reseeded.  
What is true of the McNaught field is also true of the others, and it means that a great portion of the 100 acres of new alfalfa being put in this season on the project will have to be re-seeded, and the ground that has been prepared for seeding will all have to be gone over again to get it in shape. According to the early settlers here, this wind storm is the worst in the history of the project.  
Twenty-five cars of alfalfa hay were shipped out of here during the past week. Most of this was shipped into the Twin Falls country, where stockmen are facing the most serious feed shortage experienced in years. A great many orders are also being filled for points around Baker City where the conditions are not much better. This hay is bringing all the way from \$16 to \$24 per ton f. o. b. here. Carl McNaught is the heaviest individual shipper. Harry Glese, George Handler and P. P. Sullivan are also shipping out quite a number of cars.  
Harry H. Crawford of Salt Lake City is here looking after his land interests.

John H. Young, Hermiston postmaster, is a court suit visitor today. Miss Virginia Todd of Pendleton, spent Sunday with her parents, Mr. and Mrs. R. C. Todd.  
Mrs. W. T. Lambert, teacher in the public schools of Umatilla, is a visitor here today.  
Mr. and Mrs. J. D. Watson and children, Clarice and John D. Jr., were Echo visitors Sunday.  
Mrs. A. S. Johnson arrived home today from Portland where she has been visiting for several weeks.  
A. P. Garner is home from a several months' stay in Kansas City.

**GRANDMOTHER'S BOTANIC MEDICINE.**

In every pioneer home the botanic recipes of our grandmothers for the treatment of disease were wonderfully dependable. Every fall she gathered her various herbs: thoroughwort, chamomile, sage, pennyroyal, wormwood, rue, etc. It is interesting to note that Lydia E. Pinkham's Vegetable Compound, the most successful remedy for female ills we have, was originally prepared for home use from one of these botanic recipes, and the demand for this famous medicine has grown until over 250,000 pounds of roots and herbs are used annually in its preparation. It will well repay any woman who suffers from female ills to give this famous medicine a trial.—Adv.

**LATEST PHOTOGRAPH OF OIL KING ON LINKS.**

**JOHN D. ROCKEFELLER**  
Nicholas Romanoff, late czar, may be in search of a steady job just now and other crowned heads of Europe may be worrying about the steadiness of their positions, but John D. Rockefeller, American Oil King, is quite secure in his. So certain is he that no revolution can depose him that even in these troublous and uncertain days he finds time to play his favorite game—golf. The picture was made just as Mr. Rockefeller had made a particularly fine shot on the links at Daytona, Fla.  
Courage is responsible for fewer attempts at performing dangerous feats than lack of common sense.

**The Name of Nash Backs the Improved Jeffery Six**

Here is the Jeffery Six, by all odds the best car ever built in the giant Jeffery plant. For two generations the Jeffery trademark stood for accuracy and precision.

And now this car with the Jeffery reputation behind it has been still further refined and improved. Now it is built, backed and guaranteed by the Nash Motors Company, an organization of automobile experts headed by C. W. Nash.

Mr. Nash and his associates soon recognized the superior value of Jeffery Six. After severest tests they pronounced it one of the best cars they had ever known. But they saw how with slight refinements they could make it a still better car.

No change was radical. There was no need for that. But with those few Nash refinements Jeffery Six is a car no prospective buyer can afford to overlook. Jeffery Six has 53 horsepower. It combines speed, comfort and beauty in generous margin.

Best of all it is Nash refined and Nash backed. The price remains unchanged, \$1465.
