Clean-Up Days Are Coming.
Residents of Pendleton should utilize the next few days in cleaning their premises as Friday and Saturday of this week will be the annual Clean-Up Days. All trash and debris, properly sacked or boxed and placed along the street curb on those days will be hauled away by city teams without charge.

To Recessed 1500 Acres.
T. A. Lientallen, prominent Adams farmer, will probably have to recess 1500 acres of wheat because of freeze-outs, according to a report brought down this morning by J. C. Chesnut of that town. Many other farmers of the Adams vicinity will also have to recess, he says. C. W. Sreen of Milton, who is here today, states that re-seeding about Milton is quite general.

Must Recess Whole Farm.
Henry J. Taylor made a trip this morning out to his ranch north of Pendleton and returning home, stated that his investigation convinced him that he would have to recess every acre he has in wheat, as a result of the severe winter.

Safe-Blower an Old Timer.
Finger prints and photographs sent the local penitentiary by Sheriff T. Taylor of Pendleton, has revealed that Frank Mason, the Hermiston safe-blower recently arrested in Umatilla county, has served a sentence in the local prison for robbing a jewelry store in Colfax and also served time in the Rawlins, Wyoming and the Leavenworth, Kansas, prisons. He was known here as Jack Haviland and was released in 1911.—Walla Walla Union.

Invents Creel Harness.
W. D. Humphrey, one of Pendleton's foremost anglers, is the inventor of a reel harness which has been patented and which is gaining recognition all over the country. The harness not only has the usual shoulder straps but fits the basket in a way to reinforce it. It is adjustable to fit any sized basket. Mr. Humphrey devised the harness for his own use to save his basket, and it proved so satisfactory that he had it patented in 1913. However, he has made no extensive effort to exploit it until recently. Yesterday he shipped some of the harness as far east as New York and Philadelphia. He is having them made here but so great is the demand that he is now ten days behind in his orders. Sporting houses all over the west are writing in for the apparatus in their communities. A good many local sportsmen have used the harness for the past year or more and are enthusiastic in their praise of it. Today Mr. Humphrey is preparing a large shipment to fill an order from Salem.
