The one presenting the largest potato will receive a pass that will be good for admission at the theater on any Thursday or Friday for 15 weeks. The potatoes thus secured will be given to charity.

Blame for Death Not Placed.

The coroner's jury that investigated the death of Jim Lapos, the Greek section hand, yesterday did not attempt to place blame for the tragic accident. The verdict simply stated accidental death from the work train which ran over him. The investigation showed that the engine was running backward and that no person was riding on the tender to watch the track ahead. However, the jury was unable to determine whether this was a violation of any state or company requirements. The funeral of the victim of the accident was held at 10 this morning at the Brown chapel, Simson Emmanuel, a minister of the Greek orthodox church of Portland, conducted the services which were attended by many countrymen of the deceased.

As a result of the rain last night and this morning the river is rising again. At 1 o'clock today the standstill at the Main street bridge showed a depth of 4 1/2 feet, a six inch rise since yesterday evening. Over a third of an inch of rain has fallen in Pendleton during the present storm. The rain has been colder than the one last week and reports from the mountains state that snow fell in the mountains and foothills last night. PRESIDENT WILSON BEFORE CONGRESS

The J. C. Penneys Army of Regulars—

Is as solid as Gibraltar, and can be depended upon at any moment. We have established training camps in 175 live and prosperous towns in 22 of these United States. The enemy has tried to flank us several times but to no avail, as we go proudly marching on. This spring we have added 50 new energetic and ambitious recruits to our list and it is our intention of capturing TWELVE MILLION DOLLARS in 1917 out of the hands of our high priced and long profit enemy. We were able to get practically NINE MILLION DOLLARS of his money in 1916, why shouldn't we get THREE MILLION more this year with 50 more strong and powerful generals. Watch us capture every Fort that we are bombarding. Bulletins issued every day.
