### ARMY OFFERS CHANCE FOR NEW AVIATORS

Facts as to Requirements and Possibilities of This Line of Service.

The following information regarding service in the Aviation Section of the United States Army, with the following designations, are announced as aviation schools:

- Aviation Company "A" Signal Corps Station: Aviation School, San Diego, California.
- Aviation Company "B" Signal Corps Station: Aviation School, Mineola, L. I., New York.
- Aviation Company "C" Signal Corps Station: Aviation School, Chicago, Illinois.

### HAD TROUBLE FOUR OR FIVE YEARS?

No one appreciates good health like those who are ill. W. J. Furry, R. F. D. 2, Salem, Mo., writes: "I have been bothered with bladder trouble four or five years. It gave me a great deal of pain. I took different medicines, but nothing did me any good until I got Foley Kidney Pills." Many persons suffer from kidney and bladder trouble when they can be relieved. Backache, dizziness, rheumatic pains, stiff or sore joints and other symptoms yield to Foley Kidney Pills. Tallman & Co.

Aviation Company "D" Signal Corps Station: Aviation Depot, Fort Sam, Houston, Texas.  
Aviation Company "E" Signal Corps Station: Balloon School, Fort Omaha, Nebraska.  
The Signal Corps of the Army is divided into two parts—one part is charged with the duties pertaining to transmission of military information and the supply of the signal equipment, which is known as the Signal Corps proper, and the part concerned with providing the aviation service of the army which is known as the aviation Section. Any person possessing knowledge of the following may be enlisted directly for the Aviation Section: Aviators, machinists, balloonists, mechanics and chauffeurs until such time as all existing vacancies are filled.  
**Excellent Opportunities.**  
Probably no other branch of the government service gives men such opportunity for varied service in all parts of the world, as well as rapid promotion. It will be observed that the great number of non-commissioned officers offers the most excellent opportunity for promotion, in the cases of men of high character who show proficiency in special phases of the work to a responsible, well paying grade, and in addition a number of enlisted men have the rating of aviation mechanic, which rating is made after an examination before a board composed of three officers of experience in aviation service. Also,

each enlisted man while on duty that require him to participate regularly and frequently in aerial flights, or while holding the rating of aviation mechanic, shall receive an increase of 50 per cent in his pay.

**Spring.**  
Spring is looked upon by many as the most delightful season of the year, but this cannot be said of the rheumatic. The cold and damp weather brings on rheumatic pains which are anything but pleasant. They can be relieved, however, by applying Chamberlain's Liniment. Obtainable everywhere.—Adv.

### SNOW HINDERS LOGGING.

**HOOD RIVER, Ore., April 17.**—Disappointing scores of amateur sardiners who, stimulated by the Joint O-W-R & N, and Oregon agricultural college food preparedness campaign, had planned to spend the day in preparation of vacant lots, and members of Twelfth company, Coast Artillery Corps, who were scheduled to participate in a day of field maneuvers west of the city, wintry blasts prevail over the mid-Columbia.  
While a cold rain fell on the lower level, it has snowed throughout the day at Dee and in the upper valley.  
The snow is so heavy at the logging camp of Oregon Lumber Company, on the headwaters of the west fork of Hood River, that work is delayed.

### HERMISTON RECRUIT GIVEN BIG SEND OFF

LOGAN TODD ESCORTED TO TRAIN BY TEACHERS AND MEMBERS OF HIGH SCHOOL.

Pretty Operetta Is Presented by Students Friday Night and Much Enjoyed by Large Audience; Other News Notes of Interest.

(East Oregonian Special.)  
**HERMISTON, April 18.**—Amid the blare of trumpets and the rattle of the drum, young Logan Todd left this morning for Pendleton to join the navy. He is the first member of the Hermiston high school to enlist his services for the country, and imbued with the patriotism of the hour, the student body as well as professors and teachers, marched to the depot this morning to the accompaniment of the big high school drum to see him off.

Logan is the youngest son of Mr. and Mrs. R. C. Todd, and the second one of their sons to join the navy within the past ten days. James Todd having enlisted a few days ago. The latter served on the Mexican border with the Kentucky Headquarters Company, and was recently mustered out.  
Logan was a member of the junior class of the Hermiston high school, and very popular with his fellow students.

**High School Gives Play.**  
"The Windmills of Holland," an operetta in two parts, put on by the students of the Hermiston High School Friday night, was very much enjoyed by the large audience present, and was pronounced one of the best little attractions ever shown here. The leading parts were taken by George Prindle as "Mynheer Her-togenbosch"; Margaret Shotwell as "Vrouw Hertogenbosch"; his wife; Gladys and Althea Smith as "Hilda" and "Wilhelmina"; their daughters; Louis Garner as "Frans," rich farmer's son in love with Hilda; "Hans" student of music in love with Wilhelmina; Carroll Reeves; Esther Graham "Katrina," rich farmer's daughter; Durrell Murchie as "Bob Yankee," American traveling salesman. The chorus of farmers daughters was composed of Esther Graham, Nellie Davis, Marion Briggs, Janice Brigham, Bertha McKeen, Francis Hinkle, Viola Randall, Emily Shotwell, Dorothy Ross, Mildred Percy and Eleanor Cassery. Miss Georgia Skinner was the accompanist for the production, and the scenery was painted by George Prindle, star of the cast.

It was a pretty little play, and beautifully presented under the efficient direction of Miss Kate Barton, teacher of English and History in the high school.  
As an added attraction to the evening's entertainment, a concert was delightfully rendered by Mrs. Thomas Hawthorne and Miss Francis Walpole of Irrigon. Also a song by the Hermiston high school quartet and a Dutch Lullaby by Miss Francis Hinkle.  
Mr. and Mrs. De E. Martin of Irrigon were guests at the Newell home Saturday and Sunday.  
J. Herbert Brohm is spending a few days in Portland.  
Dr. F. E. Borden was a professional visitor here Monday.

M. C. Metz of Pendleton spent Tuesday in the city.  
Joe Dorsey, brother of Mrs. J. H. Young, left Monday for his home in Pendleton after assisting several weeks at the U. S. experiment farm. Mrs. Irvin Gardner and her mother, Mrs. H. C. Canfield, were in the city today from their home on Butter Creek.

### HOUSTON ASKS FOR MORE SPRING WHEAT Agriculture Secretary Fears Shortage From Winter Killing.

**WASHINGTON, April 17.**—Farmers of the spring wheat belt, particularly those of North Dakota, Minnesota, South Dakota, Washington, Montana and Idaho, were called upon by Secretary Houston today to plant more wheat immediately.  
A serious shortage is threatened by the unpromising condition of the winter wheat crop.  
Action at once is imperative, said the secretary, and the best opportunities will be found in the regions in which spring wheat already is produced extensively.

"Attempts to increase the acreage of spring wheat outside the present spring wheat belt, on the other hand, might prove less successful because of a lack of familiarity by farmers with the crop," continued the statement, "and especially because of the difficulty of obtaining harvesting machinery and the added likelihood of labor suffering for a lack of labor at harvest time. A concentration of large crop production will make possible the more efficient utilization of labor, whether the laborers assemble individually or under a directing agency."  
"The bulk of the spring wheat of the United States is grown in five states: North Dakota, Minnesota, South Dakota, Washington and Montana. While production is relatively small in the remaining states, a number of communities exist in each of these states in which the growing of spring wheat is well established. Such communities, like those in the principal spring wheat growing states, offer good fields for the extension of the spring wheat acreage."  
"Seeding is already under way throughout the greater portion of the spring wheat belt, but in many sections it should be possible to increase appreciably the area seeded to wheat during the next few weeks. Where such increase would interfere with the conduct of an established industry, such as dairying, it would, of course, be inadvisable."

**Safe Medicine for Children.**  
"Is it safe" is the first question to be considered when buying cough medicine for children. Chamberlain's Cough Remedy has long been a favorite with mothers of young children as it contains no opium or other narcotic, and may be given to a child as confidently as to an adult. It is pleasant to take, too, which is of great importance when a medicine must be given to young children. This remedy is most effective in relieving coughs, colds and croup. Obtainable everywhere.—Adv.

Many a man's failure is due to his having wasted his time envying the success of his neighbor's strenuous efforts.

# Heap big mileage! Built In!

If you could dissect a SAVAGE you'd realize that "Heap big mileage" is built into it during every minute of its manufacture.

Highest grade rubber and fabric, perfectly balanced design, most careful workmanship, full size.

A tough road-gripping tread—neither so heavy as to produce stiffness, nor so light as to give insufficient protection to the carcass. Cushion of high-grade resilient rubber—absorbs the road shocks. Sidewall specially shaped to distribute flexing—will not crack. And the carcass—finest Sea Island cotton, long fibre, tough, triple tested, built up layer by layer into the strongest carcass that can be made.

High mileage, low cost per mile. Sold from factory to you through our own distributors. Watch for the red Savage sign.
