"Show Your Colors Hang Out the Flag"

IF YOU HAVEN'T A FLAG GET ONE QUICK

Your Flag and My Flag

By Wilbur D. Nesbit

"Your flag and my flag
And how it flies today
In your land and my land
And half a world away!
Rose-red and blood-red
The stripes for ever gleam;
Snow-white and soul-white—
The good forefather's dream.

Sky-blue and true-blue, with stars to gleam
The gloried guidon of the day; a shelter through
the night."

"Your flag and my flag!
And oh, how much it holds—
Your land and my land—
Secure within its folds!
Your heart and my heart
Beat quicker at the sight;
Sun-kissed and wind tossed—
Red and blue and white.

The one flag—the great flag—the flag for me
and you—
Glorified all else besides—the red and white
and blue."

Daily Chats With the Housewife

One way to reduce the cost of food for the family, says the specialists of the United States Department of Agriculture, is to use more corn meal, where this is low in price as compared with other cereals. Corn meal at present prices, when bought at retail stores, costs about half as much per pound as wheat flour, one-third as much as rolled oats, one-fourth as much as rolled wheat, and about half as much as broken rice. That is, it costs much less per pound than any of the other popular cereal foods, yet even the bolted corn meal usually sold, from which the germ of the grain has been removed to make the meal keep longer, has a food value which compares favorably with that of wheat flour. It does not supply quite so much protein or mineral matter for building the tissues of the body, but, on the other hand, it gives more fat and starch, pound for pound, and its value as fuel for the body is fully as high.

Old Fashioned Kind Good.
The old-fashioned unbolted corn meal made from the whole grain, which can often be obtained by the farmer who will take his grain to mill and can often be purchased in shops and markets, contains more of the tissue-building material and has what many consider even a better flavor than the bolted meal and is much liked for making some forms of corn bread.

A dish of mush and milk has made the greater part of many a supper on the farm, and children thrive on it, though they may rebel at cleaning the kettle and the "pudding spoon" afterwards, if the old-time methods of cooking it are followed. It is a simple dish to make—just 3½ cups of water and a teaspoon of salt in every cup of meal. The water can be put in cold and the vessel heated gradually. A double boiler is very convenient in cooking corn-meal mush, as well as all other cereals, and is easier to clean. The great secret of good mush in long slow cooking—the longer the better. A fireless cooker, in which the cooking can go on all day or all night, is very useful for this purpose.

Quick Action Possible.
For "quick action" in getting breakfast in the city flat, the corn meal and salt may be put in the double boiler, mixed with a little cold water, and then hot water may be added up to the required amount. If clean hot water is to be had from the spigot, a good corn-meal mush can be made in three-quarters of an hour. But corn meal can hardly be cooked properly in less time.

Corn-meal mush can be used in many other ways besides as a breakfast or supper dish. Fried mush, mush with fruit, and mush with cheese are in the list of recipes. Fish cakes with corn meal are good, and corn meal and meat of different kinds may be cooked together, "scrapple" being a favorite in some parts of the country.

AMERICANS TAKE OVER PATROL

Navy in Charge of Atlantic Coast Protection.

WASHINGTON, April 21.—It became officially known today that the American navy is "rapidly taking over the patrol which the British and French vessels established on the American coast."

Walla Walla and Pendleton Farmers buy Montana Lands

We sold better than \$400,000 of Montana lands to local parties last season.

WE OWN AND CONTROL 200,000 ACRES OF MONTANA'S BEST GRAIN, STOCK, and MIXED FARMS, located in the Helena, Billings and Fort Benton districts and in many small valleys adjoining.

All of our lands are located in proven grain producing districts, where crop failures are unknown.

We are pioneers in Montana and being familiar with the entire State, naturally selected the best agricultural lands in the best districts of the State.

We have raw land, partially or fully developed lands, ranging in price from \$10 to \$40 per acre, all located near good markets, transportation, schools, churches; and where yields and quality on all farm products cannot be excelled.

WE CAN GIVE YOU ANY KIND OF A RANCH YOU ARE LOOKING FOR, our prices are low, terms one-fourth cash, balance in five equal annual payments with interest at six per cent.

We invite you to call at our offices and obtain free booklets describing these lands and allow us to tell you of the splendid opportunities in this country where you can reap great profits in farming and land values are sure to advance. Talk with some of our recent purchasers who will tell you of our fertile and well laying lands. Our rainfall, growing seasons, big crops, and splendid markets, and many other advantages.

Some of our salesmen are MAKING TRIPS WEEKLY with parties who are buying these lands, several having already purchased this spring, so if you want a home, or an investment join us on our next trip.

OUR REPRESENTATIVES ARE FAMILIAR WITH THESE LANDS and can tell you all about them. Do not fail to see us before going to Montana, as we can save you money and assist you in locating to good advantage.

Phone, at our expense, write or call for further information.

CATERPILLAR HARVESTERS

Side-Hill

Self-Propelled

The CATERPILLAR HARVESTER is Benjamin Holt's latest achievement. It is the most wonderful harvester built, requiring no horses, no tractor to pull it and only 3 to 5 men to operate.

The 55 horse motor furnishes abundance of power to drive the separator and propel the machine. We have already sold 49 of these Caterpillar Harvesters for delivery in the Inland Empire. Seven of these Harvesters operated during 1916 in our territory and every one was a PRONOUNCED SUCCESS.

In handling bulk grain these machines allow the owner to use his horses to haul his grain to market AT ONCE.

As the output of these machines is limited, we urge you to place your order now for a CATERPILLAR HARVESTER that you may be sure you get one this year. The supply being small, first come will be first served.
