CHICAGO MEAT KING IS IN FAVOR OF MEATLESS DAYS

So serious does J. Ogden Armour, the great packer of Chicago, think the food situation in the United States since we have entered the war, that he had this to say on the subject: "As a measure of conservation, or example, I should advise the institution by government edict, if necessary, of meatless days, one or two of them a week, such as they now have in Europe. This is a strange doctrine for a meat packer to preach, but I believe that either by law or voluntarily people will be obliged to stop eating so much meat during the summer months, especially if they expect to have a sufficient supply next fall and winter."

SECRETARY BAKER HAS NEW AID WITH SALARY \$1 MONTH

Dean of Columbia University Had Other Services to Government Free.
WASHINGTON, April 24.—Secretary Baker today announced the appointment of Frederick P. Keppel, dean of Columbia University, as an assistant secretary of war, with the indefinite assignment of advising and helping the secretary in any way possible. His salary is to be \$1 a month. Keppel is a republican, a lawyer, and is widely known in college circles. He recently volunteered to serve in any capacity for the war without pay. The small salary was provided because of a legal prohibition against employment of federal officials without pay.

Keppel, who is to assume his new duties at once, is secretary and editor of the American Association for International Conciliation and a cheerleader in the Legion of Honor of France. He is 42 years old and lives in New York.

DR. HENRY PREACHES A MASTERLY SERMON BEFORE BIG CROWD

Second of Series of Revival Meetings Is An Impressive One; Evangelist Displays a Wonderful Breadth of Vision.

(By R. E. G.)
The second of the series of revival meetings was an impressive one. Dr. Henry is of the progressive revelation type—that is his breadth of vision, his effective mental grip upon his theme and the passion of his soul increasingly becomes evident. The chorus choir under the Evwins is a great blessing to the campaign. These young people are thoroughly enthused in their spiritual advancement of the community in which they labor.

The following is a synopsis of Dr. Henry's sermon on "The High Cost of Loving." Text Matthew 23:23: "Loving is life; and every man's life is great just in proportion to the number of bright and beautiful and worthy things that he loves. Love costs. It is an interchanges of gifts, labor and life itself. God is love and his love cost the gift of his son to secure the salvation of man."
The sermon text strikingly illustrated what it cost Christ to open up a new and loving way from Earth to

Government Calls for Subscriptions to War Loan

Pendleton banks have been authorized by the government to receive subscriptions to the War Loan.

WE have today subscribed for a portion of Two hundred Million Treasury Certificates bearing 3% payable July 1st. Should payment for Government War Bonds be called prior to July 1st these certificates may be exchanged for War Bonds.

Every loyal citizen can "do his bit" by subscribing for such sum as his resources warrant. We will gladly include your subscription with our own, free of expense to you, making delivery when ready without any profit or commission to us. Advise us promptly, either in person or by letter, the amount you wish to subscribe.

It has been estimated that Oregon should subscribe for five million. Umatilla County should take its share—estimated to \$250,000.

Every loyal American should participate in the United States Government war loan, thereby helping to bring the war to speedy conclusion. Money cannot remain neutral while our Government has need of it. It is the duty of every citizen to assist in making the first loan an overwhelming success. Over subscription will have a great moral effect and serve to shorten the war.

We shall consider it a privilege to keep the public advised of details as definitely arranged.

Heaven. This is one of the great texts of the Bible and indicates the blood-red path over which Christ traveled all the way from the manger to the throne. We can appreciate the significance of this wonderful word of God only as we think of the great servant, the great service which he rendered, the great cost involved and the great substitutionary sacrifice including life itself, which he gladly paid that we might not perish, but have everlasting life.

"Try to imagine how impoverished the Bible would be without this textual truth. The character of the One who became the servant of all would have been diminished in utility. For it was Christ that made the greatest sacrifice and performed the greatest service for the lowly or earth, Christ's service in his passion for the lost was that of the bond-slave. His ministry led on to ransoming the lost at the cost of his own blood. All the suffering of Christ was that of the substitute. He suffered, the just for the unjust, that He might bring us to God. Him, who knew no sin, was made to be sin on our behalf that we might become the righteousness of God in Him. He took our place. He took the sting out of death as a mother takes the bee sting from the hand of her child. This great truth of substitution makes it possible for everyone to enjoy salvation. Your sin was laid on Christ, so that you need not suffer its baneful consequences, if you but believe on Him. This Dr. Henry stated was the very core of the gospel.

The message was delivered with great force, and showed Dr. Henry to be a man of great spiritual vitality.

Tonight the theme will be, "The Church That Lost Its Christ." Every

DON'T NEGLECT KIDNEYS

SWAMP-ROOT, DR. KILMER'S PRESCRIPTION, OVERCOMES KIDNEY TROUBLE.

It is now conceded by physicians that the kidneys should have more attention as they control the other organs to a remarkable degree and do a tremendous amount of work in removing the poisons and waste matter from the system by filtering the blood.

The kidneys should receive some assistance when needed. We take less exercise, drink less water and often eat more rich, heavy food, thereby forcing the kidneys to do more work than nature intended. Evidence of kidney trouble, such as lame back, annoying bladder troubles, smarting or burning, brick-dust or sediment, sallow complexion, rheumatism, may be weak or irregular heart action, warns you that your kidneys require help immediately to avoid more serious trouble.

An ideal herbal compound that has had most remarkable success as a kidney remedy is Dr. Kilmer's Swamp-Root. There is nothing else like it. It is Dr. Kilmer's prescription used in private practice and it is sure to benefit you. Get a bottle from your druggist.

However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention the Pendleton Daily East Oregonian.
