DR. HENRY ENTHUSES CROWDS ON STREET

(By Rev. R. E. Gornall.)
The crowd increases at the corner of W. Alta and Main to hear Dr. Henry's patriotic addresses. The speech last night was spiced with gripping anecdote and rich with patriotic thrillers. Spontaneous applause burst forth frequently. It was amusing to see one prominent Pendletonian in the crowd. As Dr. Henry pillied up one fact after another in one of his climaxes, the man's emotions were demanding an outlet. His eyes just danced, then his facial muscles grew tense. He spit on his hands, rubbed the palms together and spread his arms apart ready to give bolterous approval. Hear Dr. Henry tonight at the same place at 7:15.
Other special attractions kept some people away from the meeting at Hap-
Canyon but the service was an exceptionally good one. Dr. Henry gave a very logical and impressive sermon on the text, "It is appointed unto man once for all to die, but after that the judgment." The act that from 15,000 to 25,000 men disavory day without the privileges of meditation or prayer, has precipitated the question upon the Christian world, where do they go, Paradise, Purgatory or Perdition? Many are answering this question for themselves by saying there must be another chance for them after death. The fact is that God gives to every man, not an equal chance, but a fair chance to repent. If a fair chance is granted then he is responsible. Home made speculations, theories and philosophies will not create a future probation. These men discard the Bible, which is the only source which gives us any information concerning our future. The scriptural emphasis is "Now is the day of salvation." Is this appeal of Christ sincere? Future probation violates this essential commandment. Unbelievers died without giving expressions to such a hope of a future opportunity.
Will a future opportunity be helpful to man? Every man enters the next world as he leaves this. If since he came into this world in innocence, and failed to religiously make good, is it reasonable to expect that a future chance would be profitable? Is it easier to make a saint out of a blackleg than a pure babe? With destructive habits weakened, hardened heart and conscience, would future probation give him a better chance than he had had here?
Again, youth is the time for repentance—usually the only time. That's the natural time to believe, when choices which make character are effective. Only one out of 10,000 become Christians after they are 40, and only two of the same number after they are 60. You want more time. The Anteluvians lived to 900 years old, but that did not profit them religiously—they became giants of debauchery.
Yes, but we shall be reformed by suffering. Why does that not work here? Why have we changed our principles of penology? Because suffering does not reform. Seventy-five per cent of criminals are under 25. The vast majority of these are "repeaters." Suffering did not redeem them. Ah, this is a fictitious guess, contrary to history and experience. Can hell be a birthplace of hope? Do we send men to the cholera hospital for their health? Now is the time for Christian life and service. Every man has five colored stars which he faces, an eternity to which he must go. The real proof of a man's wisdom is that he fears God!
Dr. Henry will speak at 2:00 upon the "Face of sin," and at 7:30 on "The Biggest Fool in Pendleton." Only a few more days left.

AMUSEMENTS

What the press agents say about Pendleton's present and coming attractions.
Tense Dramatic Feature Coming to the Arcade Friday-Saturday.
Hope, hope that crystallizes all emotions, the predominant keynote throughout the play, "Idle Wives." It portrays the great suffering drama of life for those who are too busy to see it otherwise in a most startling and sincere way. Its characters are all humanity pictured, as they come without touching up or bias, and it hits all with such a convincing appeal that few who see it can go away without the feeling that no matter what condition confronts them, there is still hope.
The play was produced by Lois Weber from the famous novel by James Oppenheim and just completed a sensational run at the Maxine Elliott Theatre of New York City.
"Idle Wives" will play two days at The Arcade Theatre.

Whooping Cough.
One of the most successful preparations in use for this disease is Chamberlain's Cough Remedy. S. W. McClinton, Blandon Springs, Ala., writes: "Our baby had whooping cough as bad as most any baby could have it. I gave him Chamberlain's Cough Remedy and it soon got him well. Obtainable everywhere.—Adv."

EUGENE FARMER HAS NEW WAR DISCOVERY
Fecularly Shaped Stick Could Be Used as Bomb Thrower.
EUGENE, Ore., May 8.—Stroud Long, a farmer living near Eugene, while throwing a peculiarly shaped stick at his turkeys, observed that it traveled in a perfectly straight line. He patented another like it, equipping it with a spring propeller and directed it at his house, which it missed and was lost to sight.
Mr. Long is satisfied that he has discovered a secret which will be of great value to the army in throwing bombs by hand or in carrying explosives in large quantities to a desired point through the air. The larger device would have to be supplied with power mechanism, he states. It would be a sort of airplane without driver from which bombs would be released by time device, the course and distance to be determined by reckonings made by the operators before releasing the carrier. He has turned his secret over to the war department and has received a letter stating that it is a valuable idea.

BANK OF ENGLAND LINKED WITH U. S.
Deal Fixed for Houses on Both Sides to Act Together.
NEW YORK, May 8.—Negotiations for establishing relations between the Bank of England and the federal reserve bank of New York, which were begun by the governors of the respective institutions some months ago have been completed. It was announced tonight.

GIVING SWEATERS TO HIGH SCHOOL TEAMS IS BARRED
No more sweaters will be given to members of any high school athletic team, according to a new ruling of the State Athletic Association, of which the Pendleton high school is a member.
The rule, adopted last December at a meeting of the state school superintendent but now ratified by a majority of the high schools concerned, specifies that "any student who receives from any source a sweater or any other article of intrinsic value as a reward shall be ineligible." Formal notification of the adoption of the rule has been received by principal Paul of the local high school from A. C. Hampton, formerly principal here and J. E. Elton, of the Astoria high school.
This year approximately \$200 was spent for sweaters for different high school athletic teams. It this amount had not been spent there would be a surplus instead of a deficit in the school treasury.

The banks will mutually act as each other's agents in the two countries.
The relationship established primarily for the purpose of affording greater stability to rates of exchange by maintaining with each other mutual accounts of deposit and by representing each other in the purchase of bills.
The plan will create machinery, which is expected to operate in normal times, today eliminating or reducing the extensive shipments of gold between nations to settle international balances.

SHEEP HEADS SUFFER FROM LATE SPRING STORMS IN WYOMING
CHEYENNE, Wyo., May 5.—The late spring snow storms following the heaviest winter and deepest snows that Wyoming has known in years, have been taking toll of sheep heads all over the state. The storm which started on April 25 and lasted until Wednesday, was especially severe. A sheepman in the Wamsutter country yesterday says that he counted 400 dead woolled sheep within five or six miles of Wamsutter. Large growers have been losing sheep by the hundreds. Shearing is being held back on account of the storms.
