OUTLOOK GRAVE SAYS HOOVER

Submarine destruction has been steadily increasing for six weeks. The situation is one of extreme gravity, make sure of that.

This was the warning of Herbert C. Hoover, who is to be America's food dictator, on his arrival in the United States from France.

Declaring that deaths in the industrial districts of Belgium had been "multiplied by three" on account of submarine operations during March and April, Mr. Hoover said the U-boats were the one big menace which must be eliminated in order to win the war.

The committee had prepared for Mr. Burns a splendid map of the townships of this section which would be handled by the railroad which amounted to more than 20,000 tons. Mr. Burns was not very encouraging for a road in here this year on account of the war and the high cost of labor and steel but said he would take the matter up with the proper officials.

No Boy Can Defeat the Purpose of "Woolly Boy" Clothes

Their object is to wear long and serviceably, (they've been so tailored and reinforced). No boy, however "rough and tumble" he may be can defeat their purpose.

They're mighty manly high waisted effects in pinch-backs, belters and patch pocket styles. They'll make a lad walk with his chest out and his head up.

Sky-blue and true-blue, with stars to gleam aright The gloried guidon of the day; a shelter through the night."

"Your flag and my flag! And oh, how much it holds— Your land and my land— Secure within its folds! Your heart and my heart Beat quicker at the sight; Sun-kissed and wind tossed— Red and blue and white.

The one flag—the great flag—the flag for me and you— Glorified all else besides—the red and white and blue."

LIVE NEWS OF THE NORTHWEST

VICTORIA, B. C. May 9.—An investigation under the direction of Justice Gregory of charges made in the legislature by J. S. Cooper, member of parliament from Vancouver, that Attorney-General Macdonald received \$25,000 from the Canadian Northern Railway on the eve of the last provincial election, is under way today. Cooper charged that \$25,000 was placed in the vault of the Hotel Vancouver on the eve of election and that Macdonald called the next morning and took it out. Cooper tried a few days ago to have the charge amended to make the amount \$15,000 but the government refused to grant his request.

BAKER, Ore., May 9.—"Over county today has no fear of a famine shortage because the rain are a fine to war. A movement is on foot here to get the women and girls of the county to take an active part in planting and harvesting the crops. So enter modern Maude Muller, who will not only rake the hay, but will mow, run hay bunks and do other work ordinarily considered a man's job. "Girls make mighty good help on a farm, especially those from the country," said Archie Murray, Burnt river rancher, who suggested the scheme. "They can do some work better than men or boys. I think if we can get them in the fields it will be a great help, at least more so than some of the boys who want to hide somewhere and smoke a cigarette."

PORTLAND, Ore., May 9.—"And speaking of nerve, what'd you think of this? One or two men limned open a window in the home of District Attorney Walter Evans carefully went through the house, found \$200 worth of jewelry and a quart of alcohol."

WOMEN OF OREGON!

Women Everywhere Endorse this "Favorite"

Lents, Oregon.—"In my younger days I was greatly troubled with gas on my stomach; it gave me lots of trouble. I began using Dr. Pierce's medicine and received such relief that I can recommend them to others."

"I have raised a large family and am a great grandmother and have always insisted that my daughters-in-law use Dr. Pierce's Favorite Prescription when expecting to become a mother."—Mrs. B. F. SHELLEY, 5411 9th Street, S. E.

Thousands of women who are now blessed with robust health cannot understand why thousands of other women continue to worry and suffer from ailments peculiar to women when they can obtain for a trifling sum Dr. Pierce's Favorite Prescription, which will surely and quickly banish all pain, distress and misery and restore the womanly functions to perfect health.

Young mothers who presorty the charms of face and figure in spite of an increasing family and the care of growing children are always to be envied. and safely departed. The best men in the police detective bureau and the sheriff's office were assigned to the case, but the naughty burglar didn't leave even a finger print, and the police today had about decided to give up the hunt. "It's a mighty good thing for that guy that he got away," observed one detective today who had been working on the case. "Believe me, if we had caught him, he would have been prosecuted."

SPOKANE, Wash., May 9.—The one topic for baseball fans here today is the trouble between the Great Falls and Spokane teams of the Northwestern league. It came to a head the other day when Empire Walter Eckman planted a hearty, left-hand, direct-from-the-shoulder blow on the chin of Herbert Hester, manager of the Great Falls club, sending him to the ground for the count. The trouble started when the empire called a ball on the Great Falls team for delaying the game. "Make it two balls," shouted Hester in a much-peevish tone. "All right, two balls," replied Eckman, always willing to please. And the fight started.

OLYMPIA, Wash., May 9.—The state of Washington is prepared to observe Sunday, May 13, as "Army and Navy Y. M. C. A." day. Acting Governor Louis F. Hart issued a statement calling upon the people of Washington to aid the association in raising its \$2,000,000 fund to carry on its work among sailors and soldiers during the present war.

SALEM, May 9.—State Superintendent of Public Instruction J. A. Churchill realizes the seriousness of the farm labor shortage, a judging from letters he has sent to school superintendents and principals throughout the state. He is urging all school boys who have had farm experience or who are qualified to do farm work to enlist in the labor reserve corps.

PORTLAND, May 9.—Between a wife and a home—and a baby—and war, Ernest Bruger picked war. (May 1) the child was born to Bruger's playmate, a girl even younger than he. For several days her parents pleaded with him to marry her. Then he disappeared. Deputy District Attorney Deich learned of the kid's disappearance and started a search of all the local recruiting stations. Bruger was found, attired as a sailor and waiting to be sent to San Francisco. He was arrested on a serious charge and a conference followed at the public headquarters attended by the girl's parents, the boy's parents and representatives of the district attorney's office. The meeting lasted two hours and then they came out. The girl-mother smiled happily, and the boy's face was carnate. "Everybody else appeared happy. He has decided to get married," exclaimed Deich. And they were.

MAKE FOOD WASTE PENALIZABLE

England May Provide for State Purchase of Liquor Trade.

LONDON, May 9.—An order will be issued in the near future providing that the waste of any kind of food shall be a punishable offense. Captain Charles Bathurst, parliamentary secretary of the food controller's department, made this announcement today in the house of commons. Persistence in the house of the work of the liquor control board, which is to open tomorrow, is awaited with considerable interest. The Pall Mall Gazette says it is rumored in quarters generally well informed that the government contemplates introducing a measure for state purchase of liquor trade.

The Times this morning claims it has authority for stating that the government has adopted in principle the policy of state purchase of the liquor trade.
