ACID IN STOMACH SOURS THE FOOD

SAYS EXCESS OF HYDROCHLORIC ACID IS CAUSE OF INDIGESTION.

A well known authority states that stomach trouble and indigestion is nearly always due to acidity—acid stomach—and not, as most folks believe, from a lack of digestive juices. He states that an excess of hydrochloric acid in the stomach retards digestion and starts food fermentation, then our meals sour like garbage in a can, forming acid fluids and gases which inflate the stomach like a toy balloon. We then get that heavy, lumpy feeling in the chest, we eructate sour food, belch gas, or have heartburn, flatulence, water-brash, or nausea.

He tells us to lay aside all digestive aids and instead, get from any pharmacy four ounces of Jad Salts and take a tablespoonful in a glass of water before breakfast while it is effervescing, and furthermore, to continue this for one week. While relief follows the first dose, it is important to neutralize the acidity, to remove the gas-making mass, start the liver, stimulate the kidneys and thus promote a free flow of pure digestive juices.

Jad Salts is inexpensive and is made from the acid of grapes and lemon juice, combined with lithia and sodium phosphate. This harmless salt is used by thousands of people for stomach trouble with excellent results.

FLOW OF GEMS FROM BRITAIN IS STEADY

Pinch of War Causes Many Families to Dispose of Their Jewels.

LONDON, May 8.—Despite the submarine campaign, the exports of precious stones from Great Britain to the United States in the last four months are valued at \$7,948,333 against \$7,232,826 for the same months last year, according to United States consular figures. Diamonds and pearls, it is believed, formed the principal items. The steady flow of jewels to America has been most marked the past year, indicating that many families are disposing of their jewels to meet the exigencies of war.

VASSAR'S FIRST WAR BRIDE WILL RETURN TO STUDIES

POUGHKEEPSIE, May 8.—Vassar's first "war bride" will be Miss Doris Eno Drummer of Hamburg, N. Y., a senior who will be married tomorrow afternoon at her home to George May, a prominent business man of Hamburg, who, as a member of the Officers' Reserve corps, has been called into active service. Miss Drummer received a telegram early this morning informing her that her fiancé had been called to the colors and she immediately obtained from the faculty in a special meeting ten days' leave of absence with permission to return after her wedding tour and complete her college course. Amid the congratulations of her classmates she left for her home at noon after announcing that she would be married tomorrow.

It is the first time in the history of Vassar college that a student has been permitted to leave to be married and to return to finish her course.

LADIES DARKEN YOUR GRAY HAIR

USE GRANDMA'S SAGE TEA AND SULPHUR RECIPE AND NOBODY WILL KNOW.

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and attractive. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brushing at home is messy and out of date. Nowadays, by asking at any drug store for a 50 cent bottle of "Wyeth's Sage and Sulphur Compound," you will get this famous old preparation, improved by the addition of other ingredients, which can be depended upon to restore natural color and beauty to the hair. A well known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two it becomes beautifully dark and glossy.

SECRETARY M'ADOO HANDING THE ALLIES \$200,000,000 CHECK

Less than a week after congress had passed an act appropriating \$700,000,000 for the war, and a few days after the arrival of the British commission, the American government handed to representatives of the allies a check for \$200,000,000 as the first war loan. This photograph shows Secretary of the Treasury William G. McAdoo signing the treasury warrant in the presence of Lord Curzon, governor of the Bank of England, and other members of the British commission and British officials.

CALIFORNIA CATTLE REACH ORE.

PORTLAND, Ore., May 14.—It was a very firm livestock market in general that started the week's trading at North Portland on Monday, and the general trend continued favorable throughout the six days. Fractional decreases in offerings of swine as compared with the previous week was shown, and this was reflected in the early trading, sales being made as high as \$15.35 at the start. Later there were some concessions indicated in values, and the market closed at practically the same figure as the closing of last week.

General hog range: Best heavy \$15.65@15.75 Best light 15.50@15.60 Rough heavy 15.00@15.25 Pigs 14.00@14.25 Stockers 13.00@14.25

Cattle Run Is Heavier. With rather liberal shipments of grasser stuff from California and good supplies from Montana, there was an increase in arrivals of cattle in the North Portland yards during the week. The first real grassers of the season were marketed at North Portland during the week, although some stock that had been fed on grass for awhile had been previously marketed here.

In general the market for cattle was firmer and higher at the start of the week, with the closing of the trade noted was the lack of appreciation among killers for dairy stuff. This was due to the fact that the grass stock from the south was taking its place, and heretofore dairy stuff had been selling higher in proportion to quality than even the better class offerings.

General cattle market range: Prime light beef steers \$11.00@11.25 Prime heavy beef steers 10.00@10.50 Choice beef cows 8.25@8.35 Post heifers 9.00@9.00 Ordinary to good cows 6.00@6.25 Prime heavy butcher bulls 4.00@4.25 Light bulls 3.00@3.00 Calves 4.00@4.25 Stocker-feeder steers 4.00@4.25 Stocker-feeder cows 3.00@3.25 Mutton Market Nominal.
