The Prices on Our Staple Merchandise

Are still within the law of reason. The market is raising almost every day on Muslins, Sheetings, Pillow Cases, Spreads, Calicoes, Gingham and Percales and it surely benefits all who need anything in the domestic line to lay in a supply at the prices quoted below. We know each year about how much of the staple articles our 175 stores will need, therefore we place a blanket order for that amount. We benefit by this, inasmuch as we gain concessions and discounts that the small merchant who buys from hand to mouth cannot obtain.

ASKS VOLUNTEERS TO JOIN FRENCH ARMY

NEW YORK, May 16.—General Petain, new commander of the French armies, appeals for American volunteers to go abroad immediately in an interview with Whitney Warren, noted architect, published by the New York Times. These volunteers will be first organized with the French units, but still respecting the autonomy of America," Petain said. "It is understood it's a moral necessity that they fight under their own flag, but there is also the necessity for a period of transition or instruction, when quicker and better results could be obtained by the above methods."

Petain shows the volunteer units will later be used as skeleton organizations of bigger American armies. He expressed confidence in American ability for the "Herculean" effort of raising and equipping a big army for selective service. He said this huge army must be trained both at home and behind the lines.

VOLUNTARY CENSORSHIP WILL BE GIVEN A FAIR TRIAL

WASHINGTON, May 17.—It is learned that whether the administration presses for a censorship law depends upon the conduct of voluntary censorship during the next few weeks. It is explained by administration officials that the original purpose of the Gregory bill was to curb a few isolated papers ignoring the censorship self imposed by other newspapers. The house and senate conferees on the espionage bill begin work tomorrow.
