ARMY BILL NOW READY TO SIGN

Senate Adopts Conference Report as to S. Roosevelt Plan is Carried; President Will Probably Sign Today

WASHINGTON, May 18.—Speaker Clark and Vice President Marshall have signed the conscription bill. The measure was then taken to Secretary of War Baker. Baker with the military chiefs went over the bill carefully, delaying it reaching the president. As soon as the president signs it he will issue his proclamation, long prepared, calling upon youths to register.

WASHINGTON, May 18.—Final action was taken by congress yesterday on the war army bill, the second of the major measures of the war. The senate by a vote of 65 to 8, adopted the conference report, accepted Wednesday by the house. Vice President Marshall and Speaker Clark will sign the bill today and send it to the White House. It probably will be law before tonight.

As finally approved, the bill provides for raising by selective conscription a war army in increments of 10,000 men from 21 to 30 years of age. It also authorizes, without directing, the president to raise volunteer forces which Colonel Roosevelt desires to take to France and greatly increases the pay of all enlisted men.

CORN MOST EFFECTIVE SUBSTITUTE FOR WHEAT

WASHINGTON, May 18.—The most effective way to remedy the probable shortage in the wheat crop is to plant corn, says the United States department of agriculture.

Ordinarily the quantity of corn produced in the United States is from three to four times the quantity of wheat, but only a very small portion of the crop—from 5 to 10 per cent—has been used for human food. This amount may be estimated in normal times at about 200,000,000 bushels a year. Not over 5 per cent has been exported in peace-times. A relatively slight increase in the corn acreage, therefore, will place many millions of bushels more of human food at the disposal of the world without interfering in any way with the feed needed for the support of livestock.

In the past, with an abundance of grain of other kinds, corn has not been in great demand for human consumption. But with other grains no longer abundant, circumstances will compel more general recognition of the value of corn as human food. The department is urging strongly the wider use of corn in the diet. It is the best substitute for wheat that we have and can be utilized in breads, mushes and a variety of other ways. We should make every effort to avail ourselves of it.

"Plant corn," then should be the motto of every farmer in a section suited to the crop. **Passbook for Beer Drinkers.** STOCKHOLM, May 18.—Sweden has taken a further step in the restriction of the sale of alcoholic beverages. Under a law adopted by the Riksdag, effective January 1, 1918, the present system of selling distilled liquors is extended to cover wine and beer. This means that every consumer will have to be equipped with a passbook in which his purchases will be entered. Private saloons will also be abolished and all private trade in beer and wine and the importation of wine by individuals are forbidden. **DRUNKARDS DISCHARGED.** SAN FRANCISCO, May 18.—Rigid enforcement of the order against having liquor on the grounds in the reserve officers' training camp is announced. Two were dishonorably discharged for drunkenness. Now is the time for all those abandoned farms to lead a better life.

LIVE NEWS OF THE NORTHWEST

SEATTLE, Wash., May 18.—Electric locomotives will be pulling Chicago, Milwaukee and St. Paul trains out of Seattle by October 1, 1918, according to C. A. Goodnow, assistant to the president, in charge of electrification. Increased prices in fuel oil is the reason for the new plan which will cost the company \$4,000,000. The original plan was to electrify the Columbia division, east of the mountains, before starting the work on the Cascade division which reaches to the coast.

TAUOMA, Wash., May 18.—Taking the places left vacant by men, women today are working in the south Tacoma tax shops of the Northern Pacific. Most of the women employed now are sorting bolts and spikes, but as fast as men quit women are tried out in their places. If practical, shop officials said today that all the women employed up to the present time are proving themselves capable and will continue to be employed until the war is over and the men return from war. The women wear big aprons and white cotton gloves.

PORTLAND, Ore., May 18.—A hand with three black spots waved before Martin Matson eighteen months ago. He rubbed his eyes and spoke. A few months later the same black hand appeared. Last Friday night he had other dreams, and the other day while talking to a minister he had a vision. Today he figured out what it is all about. Oregon, Washington and Idaho are going to be visited by an earthquake. Flames will follow the quake and the big cities of the northwest will be threatened with destruction. "When the disaster will come," he said today, "I do not know, but I believe it will be delayed long enough for the public to be warned in a general way."

He asks that all northwest papers print an account of his vision, so that the public may be warned. Having thus given his message, Matson assumes no further responsibility in the matter. **TACOMA, Wash., May 18.**—Fifteen-cent bread is considered likely here within a short time unless the price of flour stops in its flight toward high heaven. Restaurant proprietors say they must either raise the price of meals or go out of business. **SALEM, Ore., May 18.**—Oregon has a new bank president today. She is Marie A. Barnett of Wasco, president of the W. M. Barnett bank which was recently granted a charter by the state banking department. The only other woman bank president in the state so far as the state banking department can recall, is Eva Coolidge, of Silverton, president of Coolidge and McClaine, bankers.

PORTLAND, Ore., May 18.—"Have a drink" said the happy man, waving an almost empty bottle in front of a kind faced stranger on a street corner. "I'm a cop," said the stranger, grabbing the bottle in one hand and Jacob Lewis, the happy youth, in the other. "I know one cop, and he's a good fellow," explained Lewis the next morning in court. "He would not pinch a guy for offering him a drink. He takes a shot himself." "Where did you get the whiskey?" asked Deputy District Attorney Delech. "I'll not be a stoopid pig for anybody," replied Lewis. "Ninety days," said the court.

HELENA, Mont., May 18.—A mule and a Ford have equal rights on a county road. So the district court has decided and now the supreme court of the state of Montana to which the case was appealed. "When a mule and Ford auto meet on a public highway and the Ford uses its horn and give half the road, the resulting damage should not be split, but should be charged up against the owner of the automobile," is the supreme court's decision, written into the court records today by Chief Justice Brantley. This decision ends the Savage-Boyle mule controversy which attracted wide attention. E. R. Savage, driving Maude, his mule, was badly hurt when R. F. Boyle ran into the rig. Savage brought suit for damages and Boyle filed a counter claim. The jury found for Savage and Boyle appealed.

ROSEBURG, Ore., May 18.—The pride of many a Douglas county home gathered here this morning at the scenic contest of the annual strawberry festival. Several scores of children were entered. Portland physicians acted as judges. This afternoon's program includes a school children parade, community sing and races on the business streets. A reception for Queen Vere, who rules over the city during the festival, and a dance have been arranged for the evening. The festival ends tomorrow night.

PORTLAND, Ore., May 18.—Conscription of laborers to work on the farms and not the importation of coolies from China will solve the labor problem on the Pacific coast, Thomas McCusker, secretary of the Employers' association, said today. "I don't believe there is any labor shortage except on the farms," McCusker declared today. "You can go down on Second and Burrows streets any day in the week and find from 200 to 500 men standing around, notwithstanding the signs of employment offices, offering as high as \$2.50 and \$3 a day. The government must draft men for work as well as for war. These men should be compelled to work." He added that he had written

JACK PICKFORD in "THE DUMMY" - FAMOUS PLAYERS-PARAMOUNT - ALTA FRIDAY AND SATURDAY.

Congressman McArthur, urging him to use his influence for the introduction in congress of a labor draft law.

SALEM, Ore., May 18.—The time for filing referendum measures and petitions will expire at 5 o'clock tomorrow afternoon, according to a statement made by Secretary of State Olcott, rather than 5 o'clock on May 20. Laws passed at the last legislature without an emergency clause become effective at midnight May 20, but as May 20 falls on Sunday, the filings must be made on or before May 19. Any petition, Olcott declared today, which is filed Monday, May 21, will be too late for referring such measure to the people.

"GET A NEW WORLD," SAYS LLOYD GEORGE

Labor is Told "The Reader We Are to Cut Away From Past the Better."

LONDON, May 18.—"Don't be always thinking of getting back to where you were before the war," said Prime Minister Lloyd George today to a deputation of the Labor Party, who transmitted to him the resolutions adopted at a conference regarding labor after the war. "Get a really new world," he urged. "I firmly believe that what is known as the after-the-war settlement will be a settlement that will direct the destinies of all classes for generations to come. Therefore, you are doing well in giving your time and thought to considering—and considering deeply and considering on a bold scale, on a daring scale, what you are going to do after the war."

"I am not afraid of the audacity of these proposals. I believe the settlement after the war will succeed in proportion to its audacity. The reader we are to cut away from the past the better are we likely to succeed."

"I hope every class will not be harking back to the pre-war conditions, because if every class insists on getting back to the pre-war conditions then God help this country! I may so in all solemnity. "If audacity is the thing for you, think out new ways, think out new methods, think out new ways of dealing with old problems."

Being questioned in the house of commons today regarding strikes and labor agitation in Lancashire and elsewhere, which have diminished the output of munitions urgently needed on the British front, Chancellor Bonar Law answered that the government is satisfied this unrest is due mainly to men who appear to be as much interested in upsetting the authority of established trades unions as in causing trouble to the nation in time of war, the agitation, he said, is disowned and reprobated by the trades unions.

If Nicholas Romanoff is trying to come back he might take a correspondence course from Manuel Braganza, recently of Portugal, who has had experience at-trying to epine back.
