**Will Produce More Honey**—Knapton Bros., living three and a half miles east of Hornum, will help relieve the sugar shortage by doubling the capacity of their honey raising establishment this summer. They have 130 stands of bees and by artificial swarming will double the number during the season. Last year these people raised eight tons of honey and expect to produce 20 tons this year. They were able to sell their honey at eight cents a pound last season. They make all their own stands, boxes, etc., being fully equipped for all work of this kind. They have a new honey extractor which they operate by power, thus extracting honey from the comb in a short time.

**Strawberries in Two Weeks.**—George L. Briggs, former hotel man at Hornum, is now the proud and practical farmer on a 30 acre place three and a half miles east of the project town. He has 22 1/2 acres under cultivation and will have strawberries ready for the market within two weeks. Mr. Briggs' ranch is called the Four Sisters' Ranch and is used for diversions and family purposes. He raises some chickens, hogs and most everything else from which profits may be secured. Last year Dorothy Briggs won out in the Industrial club pie contest with her Durso Red pies.
