

Mitchell the car of features

IN the latest MITCHELLS there are 31 features which nearly all cars omit.

These include a power tire pump, a dashboard engine primer, reversible headlights, a ball-bearing steering gear, Bate shock absorbing springs, etc.

In luxury and beauty these cars excel most rivals by some 24 per cent.

The finish is wondrously enduring. The leather is extra-grade. The upholstery is plaited, the cushion springs are deep. These are handles for entering, a light in the tonneau, a locked compartment for valuables, etc. We examined 257 models to combine in these Mitchells all the known attractions.

The present Mitchell standard for all important parts is 100 per cent over-strength.

All safety parts are vastly over-size. Over 440 parts are built of toughened steel. Parts which get a major strain are built of Chrome-Vanadium. Gears are tested for 50,000 pounds per tooth. And in two years not one rear spring has broken. Yet Mitchell owners never buy shock absorbers to assist the riding qualities.

FOR LIFETIME CARS

Our chiefest extra, and most costly, is this 100 per cent over-strength. Nobody asked for that. But three years ago, of our own volition, we started to double our margins of safety. The trend toward lightness, in our opinion, had sacrificed endurance.

The result, we believe, is a lifetime car. And experts agree with us. Many famous engineers have purchased the Mitchell since this standard was adopted. Our dealer will show you a list of them.

SOCIAL AND PERSONAL

Mrs. John E. Montgomery and two sons left today for Portland for a visit.

Mrs. Byron N. Hawks has been a guest of Athena friends the past week, having come up from Portland Sunday with Dr. Fred Lieualen and family by automobile. Mr. and Mrs. Hawks had come up to the metropolis from their home in Astoria on a short business trip. Mr. Hawks has recovered from a protracted and painful illness occasioned by blood poisoning from an ulcerated tooth—Athena Press.

Mrs. B. Parlett and son Segal will leave tomorrow for an extended eastern trip which will keep them away until September.

A number of Pendleton friends are receiving cards announcing the graduation from the Terre Haute, Ind., high school of Miss Mary Elizabeth Laatz, daughter of Mr. and Mrs. Henry Laatz, formerly prominent Pendleton residents, but who now make their home in the eastern city. Miss Laatz who is only 16 years old, is also a clever musician.

Interesting reports from the delegates who attended the grand lodge assembly at Eugene featured the meeting of Pauline Siebekah Lodge No. 12 in Odd Fellows hall last evening. Following the regular session, a jolly social hour was enjoyed with refreshments of ice cream and cake. There was a large attendance.

The various club presidents of the city have been chosen as patronesses of the Jiney dance which will be given in Happy Canyon on June 6 by the club room furnishing committee. The affair has for its object the raising of funds to buy furniture for the club room of the county library and it is hoped that a goodly sum will be realized. The public is cordially invited.

Mrs. C. J. Smith of Portland is here as a guest of her sister, Mrs. R. E. Ringo, and is assisting at the tea being given by Mrs. Ringo this afternoon.

M. R. Cummings, of Harmon & Cummings, general agents for the Penn Mutual, and C. A. Laughridge, eastern Oregon agent for the same company, are here today.

D. E. Clark, livestock man of the O-W-R & N, is a visitor in the city. Mr. and Mrs. R. K. Lewis of Echo are spending the day in Pendleton.

G. F. Metcalf was here yesterday from his ranch on South Cold Springs.
