# U. S. DESTROYER RAMS SUBMARINE

## GERMAN BORN SAILOR FIRST TO SPY DIVER

### Periscope Sighted While American Craft is Cruising Through Calm Sea; U-Boat so Close Destroyer Can't Use Guns.

## IS THE FIRST AMERICAN DESTROYER TO SINK U-BOAT

PENDLETON, June 21.—An American destroyer rammed a submarine after a German-born sailor on the American craft spied the submarine, according to the belief of the crew of a certain destroyer returning to port today. This is the first American destroyer reported as sinking a submarine.

The destroyer was cruising through a calm sea. Directly ahead the forward lookout sighted a periscope. The submarine almost immediately submerged. The destroyer was so close to the spot where the periscope was seen that it was impossible to depress the guns and fire. Every member of the destroyer's crew crowded to the rails, eagerly scanning the water for a shadow revealing the submarine.

German Born Sailor Locates. In the midst of the excitement, a German-born sailor shouted "There she is," pointing directly alongside the destroyer. The American commander instantly swung around the ship. Those aboard say they felt the impact of the collision. Even if the submarine was not rammed, members of the crew say another anti-submarine device immediately used finished the job.

Destroyers Are Kept Busy. American destroyers are busy. A submarine torpedoed a British ship at the entrance to the American destroyers' base when two American destroyers were conveying a British ship. The American destroyers were swimming in a circle about the vessel when the submarine suddenly fired a torpedo. The American ship saved all aboard the ship, except one member of the crew who was killed by the explosion.

## GRAIN STANDARD MEN MEET HERE

For the purpose of securing testimony to be used in prescribing and fixing the standards for grain, hay and other agricultural products, the public service commissions of Oregon and Washington assisted by federal grain inspectors are conducting a hearing today in the courthouse in this city. Farmers, grain buyers and millers are the principal witnesses.

Similar hearings have been held in Portland, Seattle and other places over the northwest. Besides fixing standards, rules and regulations governing the handling, weighing, inspecting and storage of grain will be drawn when all evidence is in.

There is only a limited attendance at the hearing which will probably be concluded this afternoon.

## ANGRY CROWDS AGAIN ATTACK SUFFRAGETTES

### Pickets Attempt to Display Banners in Front of White House But are Beaten Back by Patriotic Citizens.

WASHINGTON, June 21.—A banner denouncing the President and Root was ripped down five minutes after the suffragettes erected it. The sign was identical in wording with the one destroyed yesterday.

Screaming traitors an angry mob led by Mrs. D. E. Richardson, attacked the suffrage pickets on both the east and west gates of the White House this afternoon, flipping down the yellow banners and tramping them in the street.

Miss Hazel Hunkins, picket, climbed upon the railings of the White House fence, in endeavoring vainly to save it. Mrs. Richardson followed and after a bitter struggle, wrenched the banner from Miss Hunkins and tossed it to the howling crowd.

Police reserves were called to quell the rioting. Ten thousand women witnessed the riot.

Immediately after the first flag was destroyed, a duplicate denunciatory banner was erected on the west gate. The crowd rushed it and the sign was instantly destroyed. The cheering was heard for blocks.

## MORE STREET PAVING WORK IS OUTLINED

Petition Asking for Paving of Wilson from Madison to Bush is Approved and First Resolution Passed.

More street paving work was outlined at the council meeting last evening, proceedings having been started for the improvement of four different streets.

A petition asking for the paving of Wilson street from Madison to Bush, a distance of one block, was approved and the first resolution passed. The first resolutions declaring the intention to pave Seacock street from Alta to Court, Ash street from Ak to Court and Colgate street from Court to Water were also adopted.

No reconnoissance having been filed to the proposal to pave Perkins avenue, the council last evening passed the ordinance authorizing the work.

The Warren Construction Co was granted leave to take gravel from the river near Round-Up Park.

It was reported that the grading for the paving of Madison street was uncovering several sewer laterals and the city attorney was instructed to give an opinion as to whether the city or property owners should pay the cost of lowering them.

## HOLD COMMERCIAL CONVENTION

WASHINGTON, June 20.—Every means of stimulating business should be used now, said President Wilson in a letter to E. P. R. Ritter of the Merchants and Manufacturers' exchange of New York city, made public today. Mr. Ritter wrote the president concerning the advisability of holding commercial conventions during the war.

"I not only see no reason why commercial conventions should be omitted during the war," said the president, "but should regret to see any instrumentality neglected which has proved serviceable in stimulating business and facilitating its processes. This is a time when every sensible process of stimulation should be used."

## PEACE DELEGATES PLAY INTO HANDS OF GERMANS

STOCKHOLM, June 21.—The so-called peace delegates to the German-called peace conference have played into the hands of the Germans. They notified the Dutch-Scandinavian committee they would recommend that the present conference be made permanent throughout the period of the war. This fits with the German plan. The Prussians are exceedingly anxious to have the meetings drag along so the peace negotiations may

# AGITATION IN AUSTRIA NEAR A REVOLUTION

### Three Formidable Movements for Secession by Poles; Czechs and Slavs Joining in One Powerful Anti-Government Plan.

## POLES DEMAND UNITED INDEPENDENT COUNTRY

BERNE, June 21.—The movement resulting in the downfall of the Austrian cabinet bears the earmarks of a revolution in impetuosity, according to private advice.

The Reichsrat proceedings report several very frank speeches by the Poles and Czechs. The Poles declared their demand for a united independent Poland, not the farcical kingdom which Germany and Austria proposed to create.

While the primary cause of Count Czernin's resignation was the opposition of Polish nationalists, it is pointed out this party is supporting the Czechs in their demand for a separate kingdom of Bohemia, and those of Slavs who demand a separate principality created from Austria's dominions. The three formidable movements for secession have joined in one powerful anti-government plan.

## JAPANESE CONSUL VISITS IN CITY

SUKEYUKI ARAMATU, STATIONED AT PORTLAND, IS EN ROUTE TO DENVER.

Sukeyuki Aramatu, consul of Japan at Portland, is paying Pendleton a visit today while en route on a trip which will take him through Yellowstone Park to Cheyenne and Denver. This western country is new to him, having arrived only a few months ago from New York, and he desires to acquaint himself with it.

The consul was highly pleased to find Japanese goods in local stores. He states that much of the goods formerly manufactured in Germany and imported to America are now made in Japan.

He has been more interested in the Indians here than any other one thing, having never seen any before. He has spent a good part of the day at the office of Major Moorhouse looking at the latter's collection of Indian pictures and curios.

Mr. Aramatu finds much to marvel at in America. Japan has been making great strides in development, he says, but cannot keep pace with the tremendous strides of America. He declares America has a great influence on the life in Japan, citing the fact that American history is taught in all Japanese schools and the learning of the English language is compulsory. The great trend in Japan is toward democracy, he states.

The consul will go on to Baker this evening.

## HOUSE LIMITS DEBATE

WASHINGTON, June 21.—The house limited the debate to five minutes on the Lever food control bill. Sherman in the senate denounced organized labor for forcing the administration to have the bill passed. He pictured a gloomy future for the nation if the measure is enacted. He declared it was unconstitutional and unnecessary.

## OREGON RED CROSS FUND NOW \$395,486

WASHINGTON, June 21.—Red Cross contributions have passed the fifty million mark.

PORTLAND, June 21.—Oregon's Red Cross contributions totaled \$395,486. Portland has raised to date \$158,718, the state excluding Portland, \$237,167.

It is expected two days more will bring the total up to the full amount sought. H. L. Corbett, heading the campaign, declared today there was no question but Oregon would easily raise all her allotment.

Sherman and Wacker committees asked to raise \$18,000, reported this morning they have secured \$52,000. The showing made by Umatilla, Wasco and Sherman and a few other counties is considered remarkable at campaign headquarters.

# All Russia Congress Votes Immediate War

### Petrograd Council Which Has Hitherto Strongly Favored Peace is at Last Won Over to An Immediate Offensive; Women Volunteers Aid.

PETROGRAD, June 21.—The all Russia congress of workmen and soldiers has unanimously resolved on an immediate Russian offensive.

The vote indicated that even the Petrograd council heretofore strongly favoring peace has been won over to war.

Another evidence of the crystallization of sentiment that Russia should fight immediately was given in the manifesto by the military union of women volunteers, declaring:

"The workers are appealing for an unrelenting struggle against the enemy solely by imperialistic and slaving tendencies. We ask our allies to charitably consider Russia's difficulties and excuse our over-absorption in the task of consolidating our newly won liberties."

## BRITISH HEADQUARTERS

BRITISH HEADQUARTERS, June 21.—Sometime within the last 24 hours the Germans retreated from the territory west of the river Lys from Warneton southward, about eight square miles.

British patrols reported they had not encountered a single enemy. The enemy evidently failed to realize the important positions they occupied and retreated.

Fighting continues on the northern part of the front. Late Tuesday the Canadians took the remainder of the trenches before Reservoir Hill on the outskirts of Lens. Three violent German counter attacks were repulsed.

Fighting Mosby at Night. The days are torrid hot, but relieved by tropical thunderstorms. Most of the fighting occurs at night. ## PEACE MUST BRING A COMPLETE NATIONAL FREEDOM

ROME, June 21.—Peace without the victory of civilization, without a complete national freedom is impossible. It would be merely a forerunner of a new, more inhuman scourge of war declared Premier Bosselli before the chamber of deputies.

Foreign Minister Sonnino said the Italian peace terms were the restoration of Belgium, Serbia and Montenegro, the independence of Poland, full security of Italian frontiers and all other previously announced allied aims.
