### FIRE FIGHTING AEROPLANE IS THE LATEST

AERIAL FIRE DEPT. San Diego, Cal., is laying claim to being one of the most progressive communities on the map. San Diego has everything any other city in the country has, and in addition has the first and only aerial municipal fire brigade in the United States, and, it is believed, in the whole world. The picture shows the aerial fire patrol with the chief and his chauffeur, beardon, aviator.

### AN OLD RECEIPT TO DARKEN HAIR

SAGE TEA AND SULPHUR TURNS GRAY, FADED HAIR DARK AND GLOSSY.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome.

Nowadays we simply ask at any drug store for "Wyeth's Sage and Sulphur Compound." You will get a large bottle of this old time recipe improved by the addition of other ingredients for about 50 cents. Everybody uses this preparation now, because no one can possibly tell that you darkened your hair as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two your hair becomes beautifully dark, thick and glossy and you look years younger. Wyeth's Sage and Sulphur Compound is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.

### EXPECTS AMERICA TO END WAR SOON

Gen. Sir Francis Lloyd Reviews 103 British Recruits From United States.

LONDON, July 12.—A contingent of 103 British residents of the United States who have just arrived in Great Britain to join the British army was reviewed by Gen. Sir Francis Lloyd on the Horse Guards parade this morning. The ceremony attracted a large crowd from the neighboring streets.

Although the throng was unaware of exactly what was going on it hailed the contingent as "Yankees," and cheered the men lustily in the belief that they were the vanguard of the American army.

"You are the first contingent to come here from America to join in the war in which the whole Anglo-Saxon race is now engaged," said Gen. Lloyd in his address. "I am absolutely certain that the advent of America will put the final touch to the war and finish it quickly."

"We have fought side by side before, but never in so great an undertaking. No words can convey the feelings of the British nation at this reunion."

In a real democracy culture will not begin with a capital K.

### TAKE A GLASS OF SALTS TO FLUSH THE KIDNEYS IF YOUR BACK HURTS

ADVISES FOLKS TO OVERCOME KIDNEY AND BLADDER TROUBLE WHILE IT IS ONLY TROUBLE.

Eating meat regularly eventually produces kidney trouble in some form or other, says a well-known authority, because the uric acid in meat excites the kidneys, they become overworked, get sluggish, clog up and cause all sorts of distress particularly backache and misery in the kidney region; rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts, or kidneys aren't acting right, or if bladder bothers you, get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts cannot injure anyone; makes a delightful effervescent lithia-water drink which millions of men and women take now and then to keep the kidneys and urinary organs clean, thus avoiding serious kidney disease.

Grade for size, color, and degree of ripeness. Wash thoroughly, use vegetable brush. Scald or blanch in hot water sufficiently to loosen the skin. Dip quickly into cold water. Scrape or pare to remove skin. Pack whole vegetables, slices, or cross-section pieces in hot glass jars or tin cans. Add boiling hot water until full. Add level teaspoonful salt to quart. Place rubbers and tops of jars in position; partially seal, but not tight. Cap and tin in cans completely. Place on false bottom in a vessel of hot water which just covers the containers. Sterilize at boiling temperature in hot water bath canners for 90 minutes.

Drying beets.

If the early crop of beets is abundant but jars or cans are not available the surplus young beets may be dried for winter use.

Select young, quickly grown, tender beets. Wash, peel raw, slice about 1-5 inch thick, and dry over

#### SAVE BABY BEETS FOR WINTER USE.

WASHINGTON, July 11.—Now is a good time for garden owners in many sections who have more beets of the early crop than they can eat in the fresh form and an abundance of glass jars and tin cans, to can baby beets, says the United States department of agriculture.

How to Can Baby Beets.

Grade for size, color, and degree of ripeness. Wash thoroughly, use vegetable brush. Scald or blanch in hot water sufficiently to loosen the skin. Dip quickly into cold water. Scrape or pare to remove skin. Pack whole vegetables, slices, or cross-section pieces in hot glass jars or tin cans. Add boiling hot water until full. Add level teaspoonful salt to quart. Place rubbers and tops of jars in position; partially seal, but not tight. Cap and tin in cans completely. Place on false bottom in a vessel of hot water which just covers the containers. Select young, quickly grown, tender beets. Wash, peel raw, slice about 1-5 inch thick, and dry over

stove, before an electric fan, or in the sun. The dried product may be packed in paper cartons, in paraffined paper bags, baking-powder or coffee cans, or other containers which will exclude moisture and insects.

Clean and Reuse Old Paraffin.

WASHINGTON, July 11.—Paraffin that has become unclean through usage in canning and preserving may be cleaned and reused. Don't throw it away because dirt and trash have become mixed with it. Many times paraffin can be cleaned with a brush in cold water. If this does not remove all the dirt, says a specialist of the United States department of agriculture, heat the paraffin to boiling and strain it through two or three thicknesses of cheesecloth placed over a funnel. Or a thin layer of absorbent cotton over one thickness of cheesecloth may be used as the strainer. One straining should be sufficient ordinarily but if the paraffin still is unclean, heat and strain again. Any paraffin lodging in the strainer may be recovered by heating the cloth and pouring off the liquid to another strainer.

### Women Love Babies

It is woman's nature to naturally respond to the charm of a pretty child. Who does not admire babies? The longing to possess a baby is often outweighed by the inherent fear of the period of distress. There is a most wonderful external preparation known as "Mother's Friend".

It is a safe external massage which relieves pain and discomfort at the crisis; makes elastic those fibers and muscles which nature is expanding, and wonderfully soothes the inflammation of breast glands.

It enables the expectant mother to preserve her health and strength, and she remains a pretty mother by having avoided the suffering and danger which would otherwise accompany such an occasion. Every nerve, muscle and tendon is thoroughly lubricated. Get a bottle today from the drugist, and write to the Bradford Reg. Latex Co., Dept. G, 200 Lamar Building, Atlanta, Ga. They will mail you an intensely interesting little book, "Motherhood and the Baby". The book is free. Every woman should herself add nature in her glorious work. "Mother's Friend" makes it possible for you to do so and should be used regularly without fail night and morning.
