

# PAIGE

The Most Beautiful Car in America

## For the Protection of Paige Purchasers

### A PROPHECY OF PARTICULAR INTEREST TO PROSPECTIVE MOTOR CAR BUYERS

The Paige is practically the last to raise prices. We have stood the material raises patiently. At last we confront the inevitable.

However, you will observe in reading Paige prices below that in no instance has the increase been more than \$100—although some cars in the same relative price class as the Paige now cost \$200 more than heretofore.

We are able to give Paige purchasers this discrimination because they are getting the benefit of the prices at which we bought large quantities of materials on contract months ago.

This advance in the prices now asked for Paige cars by no means covers the actual increase in the cost of materials. The Paige-Detroit Motor Car Company is still making a substantial sacrifice in offering Paige cars at these prices.

These Paige cars are therefore more remarkable values than ever before—and the Paige, you know, has always led the field in values.

There has been no compromise in Paige quality, no juggling of the factors, little or big, that have won Paige leadership. Not one iota has the Paige standard been lowered.

In view of these facts, Paige cars remain at the present prices the greatest dollar for dollar value the market affords.

However, the market for materials is rising steadily. The cost of producing a car of Paige quality continues to soar. We estimate that we have enough materials contracted for and on hand to permit us to maintain present prices for approximately 60 to 90 days. When this supply of materials is exhausted, it will then, obviously, be necessary for us to raise prices, and even then Paige prices will be raised only in proportion to the increased prices of materials on new contracts.

Our one anxiety, as has always been our policy, is to give Paige purchasers every protection and consideration. We desire to be frank and give fair warning.

The price problem, however, is never a determining factor in the progress of the Paige in winning the preference and confidence of the public. The Paige has always won its way independent of price tags and the artificial labels of price class.

We have always refused and will always refuse to raise Paige prices beyond the actual increased cost of materials.

Therefore, now, as before, you will select the Paige because of its mechanical excellence, its beauty and its supreme quality.
