LIVE NEWS OF THE NORTHWEST

MISSOULA, Mont., July 20.—The University of Montana has 131 men in the services of the government, according to totals compiled here today. Every branch of the service, from the aviation school to special semi-military work in which the forest fire bureau is engaged, is represented. Some of the University of Montana's men are already in France.

PORTLAND, Ore., July 20.—A soldier's uniform is a ticket to the Pacific Coast league baseball park here today. Manager McCrede announced that all men wearing uniform would be admitted free, and this afternoon the bleachers are packed with soldiers.

PORTLAND, Ore., July 20.—In considering a complaint filed by Astoria's shippers, the Interstate Commerce commission has ruled that shipments from Astoria to Denver may properly be routed over the Hill lines by way of Spokane, even if such shipments may take from 24 to 36 hours longer than by way of Portland and the O.-W. R. & N. and the Oregon Short Line, according to word received here from Washington.

The commission holds that wherever "no unreasonable delay results" the road on which business originated is entitled to the long haul so that it may get larger freight revenues. In the cases under discussion lumber and salmon, shipped from Astoria over the S. P. & S. has been hauled over to Spokane on that road and then transferred to the Burlington for hauling to Denver, giving the entire haul to the Hill interests. Astoria shippers contended that the freight should have been transferred at Portland to the O.-W. R. & N., thereby giving a shorter route to Denver.

PORTLAND, Ore., July 20.—The state highway commission today will open sealed bids on the following work: grading and hard surfacing the west side portion of the Pacific highway from the Multnomah county line to Newberg, approximately 15 miles; grading and hard surfacing on the Columbia river highway from Astoria to Svensen, a distance of approximately nine miles; grading and hard surfacing on the Pacific highway five miles each side of the Clarkamas-McLoughlin county line; hard surfacing approximately 4 1/2 miles on the Pacific highway in the Steacyou mountains; hard surfacing one mile of the Yamhill-Nestovva highway near Sheridan.

PORT ANGELES, Wash., July 20.—Port Angeles today is voting on a \$20,000 bond issue to pay outstanding debts against the lighting fund and to finance improvements in the municipal system. The municipal plant is paying a profit now, but by the expenditure of \$6,926 the city hopes to greatly increase the annual surplus. The municipal lighting system paid a profit of \$8,925 last year.

AMERICAN LAKE, Wash., July 20.—To hasten construction of the army cantonment camp here, the work-day has been lengthened to 10 hours, each worker working two hours overtime. The speed demanded by the government in the construction of the camp is taken to indicate the decision of the government to start training the new national army at the earliest possible date.

INFORMATION FOR THE DRAFTED MAN

PORTLAND, Ore., July 19.—Every man in Oregon registered under the selective conscription act should know just what to do. If his number is drawn and he is called for service on the first draft, soon to be made—First, he should learn at once, if he has not already done so, the new red ink serial number of his registration card. He can learn this by applying to his local county exemption board.

As soon as the names of the men to be called from Oregon on the first draft are known, the local exemption board in each county will post a list of the men drawn from that county. Only in counties that have already supplied their full quotas through volunteers in the regular army and National Guard, will this not be done. The county exemption boards will also send notification, at the address on his registration card, to each man called. This letter will direct the man drafted to appear before the board for physical examination on a specified date.

Whether or not the man called intends to file a claim for exemption or discharge, he must appear without fail on the date named. If he desires to file a claim for exemption or discharge, he has seven days in which to do so from the day the call to him was mailed and posted. The procedure is more simple than is generally supposed. First, if you come under the exempted class, go to your exemption board and ask for Form 116 for exemption, or Form 121 for discharge (men having dependents apply for discharge instead of for exemption). Second, fill out the proper form and file it with the board. Third, do this within seven days of the posting of the call to you to present yourself before the board. After having filed your claim, however, you will still have ten days in

The Real American Beauty

How glorious and wonderful is the advent of another life. When baby is born there comes into the world a new soul, the real American Beauty. When the hour arrives it should be the dawn of a new and perfect future. The joy of motherhood should be as free from fear and danger as it is possible to make it. Thousands of women have used the safe and reliable application, "Mother's Friend". It is a wonderful help to nature in relieving strain and distress brought about by expanding muscles. The nerves, too, will be calm, making the period one of cheerful days and restful nights. The breasts are kept in good condition and the abdominal muscles relax with ease when baby is born. "Mother's Friend" makes it possible for the expectant mother herself to actually aid nature in the glorious work to be performed, and no woman should neglect or fail to give nature a helping hand. It will mean infinitely less pain at the crisis.

Do not fall under any circumstances to get this greatest remedy, ever compounded for expectant mothers. Write to the Bradford Regulator Co., Dept. J, 200 Lamar Building, Atlanta, Ga., for their book, "Motherhood and the Baby". They will send it free. It is not only very useful, but will make you helpful to others. Remember to ask your druggist for a bottle of "Mother's Friend" today.

which to file proof. All proofs must be in the form of affidavits. Upon application the board will give you the official blank forms for these affidavits. Have the affidavits properly made out and return them to the board within the 10 day time limit.

Another important fact to remember is that county exemption boards cannot consider claims for industrial exemption. Such claims must be made to one of the three district boards that will sit at Portland, at La Grande and at Eugene.

Moreover, claims for industrial exemption cannot be filed with the district boards until the county exemption board has certified and posted your name as one who has been called for service and not exempted or discharged.

BATTLEFIELD FIELD IS ALL RECLAIMED

WITH THE BRITISH ARMIES IN THE FIELD, July 20.—Did you ever think what becomes of worn-out equipment of an army composed of millions of men? At the outset of the present war much of this was pure loss. Now in the British army there is an "old clothes man" and the profit he reports back to his boss, John Bull, might make Moran, Rockefeller, or Carnegie envious. The old clothes man saves the scraps. He makes new things out of old. He clears up the battle fields and camps and very little is wasted nowadays. His job is to collect everything from a horsehoe nail to a discarded sledge-gun and put it back into the commission. Brass objects which have lost their usefulness are melted into ingots; cast iron junk becomes pig-iron again; bronze, tin, steel, nickel and everything of the kind which has irretrievably lost its shape is put into melting pots to be born again in another guise keeping up an eternal transmigration but serving all the while.

I recently visited one of those scrap-saving and repair shops. About 12,000 people are employed, mostly French women and girls. Here great howitzers are repaired and government chronometers have their hair-springs readjusted; tents are patched and mended and covers are made for steel helmets; artillery wheels are repaired and micrometers put into shape. There is a wood-working shop, a foundry for running brasses, bronze, steel and iron; a boot repair department and many others.

In one room there were hundreds and hundreds of rifles. "This is one day's arrivals," the commanding officer explained. "By tonight the room must be cleared to make room for tomorrow's arrivals."

Many of the rifles were muddy and rusty as though picked out of the mud on the battlefield. Women were cleaning them. In one corner a soldier was rhythmically swiveling the rifles up, one by one, to a rest and squinting through the barrels at a light to see if they were bent or if the rifling was damaged. The officer explained this was obviously the first bit of inspection because it would be a waste of time to repair rotten guns and iron; a boot repair department and many others.

These rifles pass on down the line. When they reach the end they are as good as new and after being oiled are packed in boxes and shipped back to the front.

SOP CONTRACTS CONTAIN A PROHIBITION CLAUSE

NORTH YAKIMA, Wash., July 18. Sop contracts filed here today contain a prohibition clause which cancels them in case national prohibition is declared on or before September 1. In one case the contract specifies

Quick-Acting

The speediest remedy for sick headache, biliousness and indigestion is a dose or two of

BEECHAM'S PILLS

For FORD Cars

We recommend the Moss Gasoline Control

The greatest gasoline saving device ever invented. Gives you as high as 35 miles per gallon. Prevents carbon and keeps spark plugs clean. Gives you more power. Causes motor to run more smoothly. Makes motor "pick up" quicker. Permits you to descend steep grades with little aid from brakes. WE GUARANTEE IT. CALL AND SEE IT.

R-K Socket for Fords

Can not wear out. No coils nor rheostats to sap your magneto. Cut no wires. Change no globes. Installed in two minutes. Over 25,000 in use. Gives bright light at low speed. Makes lights independent of each other. It prevents bulbs from burning out, but should one burn out it will not affect the other. This feature alone has prevented many accidents.

We sell all the practical accessories for FORD cars

Simpson Auto Co.
Water and Johnson Sts. Telephone 408

For the boys in khaki

Bevo is a great favorite in the Army Canteens, where none but pure, soft drinks may be sold. After drill or march, you are sure to see a long line of hot and dusty-throated soldier boys making a bee line for Bevo. They know that there lies complete satisfaction, full refreshment and pure wholesomeness. At home or abroad—at work or play—between meals or with meals, you will appreciate what we have done for you in making this triumph in soft drinks. You will find Bevo at inns, restaurants, groceries, department and drug stores, picnic grounds, baseball parks, soda fountains, dining cars, in the navy at cantines, at mobilization camps and other places where refreshing beverages are sold.

Bevo—the all-year-round soft drink. Guard against substitutes. Have the bottle opened in front of you, first seeing that the seal is unbroken and that the crown top bears the Fox. Sold in bottles only, and bottled exclusively by ANHEUSER-BUSCH, ST. LOUIS

QUIT MEAT IF YOUR BACK HURTS, FLUSH YOUR KIDNEYS WITH SALTS

MEAT FORMS URIC ACID, WHICH CLOGS KIDNEYS, IRRITATES BLADDER OR CAUSES RHEUMATISM.

When you wake up with backache and dull misery in the kidney region it generally means you have been eating too much meat, says a well-known authority. Meat forms uric acid which overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and loggy. When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels; removing all the body's urinous waste, else you have backache, sick headache, dizzy spells, your stomach sour, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water acids and you are obliged to seek relief two or three times during the night. Either consult a good, reliable physician at once or get from your pharmacy about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys, also to neutralize acids in the urine so it no longer irritates, thus ending bladder weakness. Jad Salts is a life saver for regular meat eaters. It is inexpensive, cannot injure and makes a delightful, effervescent lithia-water drink.
