CANADIANS MAKE BRILLIANT GAINS EAST OF AVION

German Lines Penetrated to Depth of 500 Yards on a 700 Yard Front; Enemy Suffers Heavily; Crown Prince Unable to Make Even Slight Headway at Chemin Des Dames.

BRITISH HEADQUARTERS, July 22.—Wearing gas masks and moving like specters, the Canadians this morning penetrated the German lines to a depth of 500 yards on a 700 yard front east of Avion. It was a spectacular local attack of the kind which the British forces have been keeping the Hooches nervous for the past few weeks.

The battle extended further and further back until they swarmed the enhancement. The Germans stopped to reform their lines and prepare for counter attacks. This breathing space gave the Canadians time to blow in numerous dugouts with which the slope was honeycombed. There wasn't time to call the Germans from the caves and dugouts and make them prisoners, because the enemy was starting attacks. Most of the Germans perished in the storms of grenades hurled down on the dugouts.

GERMANY FINDS CHEMIN DES DAMES ANOTHER VERDUN

FRENCH HEADQUARTERS, July 22.—Germany found the Chemin Des Dames another Verdun. After five days of continuous Herculean assault, the crown prince's troops have nothing but losses unequalled since the attack on Vesuis in April, 1916. Every indication is the enemy staged the assault on Craonne and Calonne Casemates, Hurtheise, Cerny and Fray with the idea the crown prince would be able to telegraph the Reichstag the news of a great victory on the western front. German military figures the victory report would strengthen the power with the German parliament and cause immediately a vote on the war credit bill.

When the first waves of German melted there were always fresh waves to dash forward. Regiment after regiment was sent to slaughter all day. Then came the artillery preparation, succeeded in the darkness by a new gigantic attack. Daily and nightly the attacks continue.

By a vote of 252 to 37 the soldiers and workmen's council granted unlimited power to the provisional government to reestablish organization, discipline the army and take steps against revolution and anarchy.

MEN IN FIRST DRAFT CANNOT ENLIST AFTER BEING CALLED FOR PHYSICAL EXAMINATION

WASHINGTON, July 22.—Adjutant General McCain has ordered recruiting officers to refuse to enlist drafted men in any branch of the service after they are summoned for physical examinations. Telegraphic orders have been sent every recruiting officer in the United States.

This means the men on the top of the draft list have only a few days to volunteer in any branch of service in which they wish to serve. The moment the names of the men called for examination are posted, they are shut off from volunteering. Proofs of the master lists went to the printing office today. Before nightfall Crowder expects to mail the first lists to the conscription states. Some delay was forced by finding several duplicate numbers which had to be corrected. The master list consists of ten sheets, containing 1,000 numbers each, and one sheet containing 500 numbers in the exact order as drawn from the glass globe. Crowder's office force was hit hard by the draft. His personal stenographer was among the first. Many expert accountants are near the top.

WASHINGTON, July 22.—Congressional courses began their final drive to draft the food control bill. Arguments are expected to continue at least a week, Saturday being the earliest day set by optimistic congressmen for disposition of the measure. CHAIRMAN RED CROSS WAR COUNCIL THANKS LOCAL ORGANIZATION

The chairman of the Umatilla County Red Cross Chapter has received the following letter from H. P. Davison, chairman of the Red Cross War Council: Umatilla County Chapter, American Red Cross, Pendleton, Oregon. At the close of the wonderfully successful campaign for the Red Cross War Fund I intended, in behalf of the War Council, to send you and your associates a telegram of thanks and congratulation for your splendidly effective work. On reflection, however, I decided in view of the nation wide extent of your organization that it would be more economical, and equally satisfactory, to write to you instead of telegraphing.

We of the War Council are deeply grateful to you, to your colleagues, to the devoted men and women of local Red Cross Chapters and Auxiliaries, and to every element and individual in your community who aided by service and contribution. There is no method by which we can reach the legion of individuals, organizations, churches, newspapers, societies, banks, companies and firms whose united effort has provided this great fund for humanity, and if through your press and by other means you can make public expression of our gratitude we shall deeply appreciate the courtesy. The joint accomplishment has stirred the pride of every American. I wish to add my personal thanks to the chapter and through it to all who contributed to the splendid result. Very sincerely yours, H. P. Davison, Chairman, Red Cross War Council.

DISTRICT BOARDS WILL HEAR CERTAIN EXEMPTION CLAIMS

PORTLAND, Ore., July 22.—Men intending to claim exemption or discharge from the draft by reason of their employment in certain necessary industries, including agriculture, must bear in mind that such claims cannot be made to the local county exemption boards.

These local boards are strictly forbidden, under the war department regulations, from considering or even receiving such claims. Instead, claims for exemption or discharge on industrial grounds must be presented to one of the district boards in the state. In Oregon there are three district boards, one at Portland, one at Eugene and one at La Grande.

Moreover, these claims cannot be presented to the district board until the man drafted has been called before the local exemption board, has passed his physical examination and has been certified by the local board as one who has been called for service and not exempted or discharged.

It is very important to remember this procedure, if you plan to ask for discharge on industrial grounds. To sum up: Remember, first, you cannot make such a claim until you have actually been called up for draft.

And second, you cannot make it then until the local board has finished with you, has certified you and posted your name as called for service and not exempted or discharged.

Third, and very important, you must then file your claim, not with the local board, but with the district board of the district in which you are situated. You must file this claim on a blank form you may obtain by application from the local board, within five days of the certifying and posting of your name by the local board.

File your name with the one of the following three district boards under whose jurisdiction you are registered: District Board No. 1, at Portland, comprises these counties: Multnomah (outside of Portland), City of Portland, Clatsop, Tillamook, Yamhill, Washington, Marion, Jefferson, Deschutes, Wasco, Hood River, Clackamas and Columbia.

District Board No. 2, at Eugene, comprises these counties: Benton, Coos, Curry, Douglas, Josephine, Jackson, Lincoln, Linn, Lake, Polk and Klamath.

District Board No. 3, at La Grande, comprises these counties: Harney, Malheur, Grant, Baker, Wallowa, Union, Umatilla, Morrow, Gilliam, Sherman, Wheeler and Crook.

Finally, remember the seven penalties provided by law for false statements made for the purpose of seeking exemption or discharge.
