SHOE FOR FRENCH CITIZEN TO COST \$5, BUT WON'T BE STYLISH

PARIS, Aug. 9.—France has abandoned her proposed civil mobilization. The new move is taken to mean in many quarters that the Ribot government has the war situation so well in hand that it will not be necessary to draft French citizenry between the ages of 18 and sixty for war work. War work will remain voluntary in France.

The dark economic cloud accompanied by sinister rumors of a bad winter to come following the fuel shortage of 1916-17 has also been shunted to an inconspicuous place on the horizon. Paris has the word of the Prefect of the Department of the Seine that the great metropolis will not feel the pinch of either hunger or cold during the coming winter. This official announces that the coal supply is assured and that food supplies will be plentiful. The conditions which caused Parisians to stand in line before food emporiums and coal yards will be forestalled he declares and thereby emphasizing that France is suffering no great amount of worry over the ravages of German submarines.

Another piece of good news emanates today from the ministry of commerce to the effect that Parisians will soon be supplied with "National Footgear" and "National Cloth" for cloth. This promises to be a real boon for modest purses as shoe leather has finally availed to prohibitive prices. The average price for re-soling a pair of shoes is now ten francs—\$2—which is more than double pre-war tax. Men pay about \$10 for a good pair of shoes and ladies must pay about \$15 if they want the mode. The French national shoe will cost about 25 francs or \$5, wear and comfort will be guaranteed but style will not. It will be the national style. Fancy footwear will however continue on sale for those who want to pay the price.

The "National shoe will envelop the "National Cloth" will be guaranteed by the government of good quality in various shades at a nominal price. There will also probably be some check on greedy tailors who will attempt to charge too much for tailoring the national product.

IDLE HOMESTEAD NOW WORTH FORTUNE

STERLING, Colo., Aug. 7.—By stopping off in Sterling for a brief visit en route to the mountains in Colorado for a vacation, Mr. and Mrs. George Keller of Ashland, Neb., discovered that they were rich in land beyond their knowledge.

Some years ago Mrs. Keller came to Stoneham neighborhood, just across the line in Weld county. Then unmarried and seeking adventure, she homesteaded a piece of land. It was a lonesome life, but she stuck to it until she proved up. Then she went to Nebraska and as the years passed she gave little thought to the land beyond paying the taxes each year. When Mr. and Mrs. Keller visited Stoneham yesterday they saw marvels. All about the idle and neglected 160 acres which they owned were farms flourishing and laden with crops. Some time after she left this country Mrs. Keller offered to sell her land for \$2 an acre. Today she says it is worth \$40. She has decided to make it productive.

TELL WOMEN THEY ARE NEEDED IN WAR

Gen. Petain and Pershing Assure Vigilantes of Their Appreciation.

NEW YORK, Aug. 7.—The Vigilantes have received from Ruth W. Wright Kauffman, his correspondent in France, the following message to the women of America from Gen. Petain and Pershing, commanding the French and American forces, respectively:

From Gen. Petain—Before even the United States became our ally the American women had shown in their healing of our wounded soldiers an admirable activity and interest. They are giving us their most precious possessions—their sons, their husbands, their brothers. I promise them that these brave and fine soldiers will be welcomed upon our soil and treated with a brotherly solicitude. France, which loves them, will watch over them.

From Gen. Pershing—The co-operation of American women in America is necessary to win this war, and I have the same confidence in them that I have in our troops.

GERMANS EXECUTE BELGIAN, HIS WIFE AND 2 DAUGHTERS

LONDON, Aug. 7.—A despatch received today by the Wireless Press from Amsterdam says:

"The German authorities at Liege, Belgium, arrested, tried and sentenced to death within three days an influential Liege merchant named Groneret, his wife and their two daughters, aged twenty and fourteen years, on the unproved charge of espionage."

"The father and mother were both shot to death in the presence of their daughters. The latter were offered their freedom if they revealed the names of their parents' accomplices. The girls refused, the elder stating: 'If we speak we might cause fifty people to be killed. We would rather die alone.'"

"She was immediately shot. The youngest girl then was tortured, outwared and also shot."

FLANDERS FLANK IN VULNERABLE SPOT

Washington Sees a Chance There for Decisive Single Campaign.

WASHINGTON, Aug. 7.—The British-French assault on the German right flank has made a profound impression here because, in the judgment of many American Army officers, it is directed at the most vulnerable point on the entire German front.

Complete success for the Allies, sweeping the German line back from the sea along the entire Belgian coast, would be an immediate answer to the U boat warfare. The main North Sea bases for U boat operations would be stamped out. Behind that achievement then would stand the possibility that the entire German line in France could be endangered by a flank attack.

Reports from London or the front were still to meagre tonight to disclose the full scope of the new operations. Some observers here were inclined to believe, however that unless the drive were supplemented by naval co-operation with a landing behind the present German front, complete success could not be expected.

The discussion here brought out strongly the fact that many American officers who have studied the situation believe the German right flank offers the only real opportunity to bring the struggle to a decisive issue in a single campaign.

The possibilities of the new offensive produce the suggestion to-day that if the Allied front could be extended to the Dutch frontier the Netherlands might join the Allies. Recent reports from neutral sources have indicated that the Germans feared some such action by their little neighbor.

There are officers who believe that with the Allies' greater forces and more powerful artillery, they now could be certain of fairly quick success if trench fighting could be abandoned for the shift and strategy of field operation. The Germans, these officers say, also know this, and have no intention, if they can help it, of permitting any change in the battle scheme they have forced.

\$100,000 DAMAGE FROM LUMBER FIRE

WEISER, Idaho, Aug. 7.—A fire, believed to be incendiary and started

Ladies! Keep It on The Dresser

Few drops on corn or callus stops pain, then they lift off.

Your high heels have put corns on your toes and calluses on your feet, but why care now?

This tiny bottle holds an almost magic fluid. A genius in Cincinnati discovered this ether compound and named it Frezzone. Small bottles of Frezzone can be had at any drug store for a few cents. Never limp or twist your face in pain again, but get a bottle of Frezzone and apply a few drops on your tender, aching corn or callus. Instantly the soreness disappears and shortly you will find the corn or callus so shriveled and loose that you lift it off with fingers.

Just think! You get rid of a hard corn, soft corn or a corn between the toes, as well as hardened calluses, without suffering one particle, without the slightest irritation of the surrounding skin. Just a touch of Frezzone on a sore corn gives instant relief.
