## COUNTY AGENTS TO AID FOOD OUTPUT

WASHINGTON, Aug. 17. The task. of maintaining during the war an ample supply of food will be attacked on a still larger scale by the United States Department of Agriculture through a score or more of projects. inder the provisions of the food production bill just enacted by congress

While most of the projects will be extensions of present activities, some of them wil irepresent new undertak-ings. The task will be to find just where the country standing in so far as the adequacy of the present food supply is concerned to speed up the production of food crops wherever this can be done, and to stop as many as possible of the leaks through which hundreds of millions of dollars' worth of edible products annually is wasted Eleven million, three hundred and forty-six thousand, four hundred dol lars are made available for the worl in the food production bill. This money is for emergency use in addi-tion to the funds appropriated in the regular agricultural bill for the usual activities of the de-partment. The bill also is distinct from the food control bill, a measure having to do chiefly with the regula tion of the distribution of food To Increase County Agent Force,

One of the most important stops to be taken in emergency agricultural work will be the extension of the ex-lating force of county agents—the loint field employees of the Department and the States who come into most direct contact with farmers With the addition of the new county agents an agent will be situated it practically every agricultural county in the United States, that will ec-operate to advise and assist farmers operate to havine and assist farmers in every way possible on mafters of production conservation and marketing.
