The word that probably has the most significance of any word in the English language.

CASH is the one big thing we are all working for.

CASH is the one element that shapes our destinies, regulates our state of happiness to a great extent.

The families who look strictly after the expenditures of their CASH are the families that have the little comforts of life. A home that is freer from daily worries.

WE CAN HELP YOU SAVE YOUR CASH if you will but take advantage of our CASH PRICES.

The old saying, "A penny saved, is a penny earned," is a wise one.

To the People of Pendleton and Vicinity

I have just returned from Hingham, Mont., after having sold my customers as usual. Will say that I invite all those who criticize the purchasing of Montana lands as an investment, also the prospective land buyer who is looking for a good investment from a dividend paying standpoint to go and see these lands as they are now. Certain people have censured me and made the statement a few months ago, that I would only show these lands while the grass was green. Naturally the grass is not green at this time and the grain is being harvested and you can see the crops as they stand upon the fields. I invite you to make a trip to Hingham with me, and be convinced that my statements have been absolutely correct.

See this land at its worst, that is all we ask.

Do you not think we are fair?

We are sure, however, that you will be convinced after investigating THAT DELAY MEANS INCREASE IN COST in the price of the lands.

Join us on a trip to Hingham, only a day and a half's journey, it will be a profitable trip and a delightful vacation.

We Own and Control More Lands Than Any Other Company in Montana

BE GOOD TO MESS SERGEANT IS ADVICE GIVEN TO SOLDIERS

BY GEORGE MARTIN. (United Press Staff Correspondent.) WASHINGTON, Aug. 25.—He good to the Mess Sergeant.

When you get to your cantonment camp to be made over into a soldier, be good to him, for he will be Lord High Commissioner of your stomach and everything that goes into it.

He will be the arbiter of your epicurean fate, and when, on entering the mess tent, you see him standing there in all his glory and a fresh white coat, tug the forelock and scrape the foot to him, for he is more absolutely dictator of your food than Herbert Hoover will ever be.

Buy All You Eat. He is the chief cook. He buys every bit of food you eat. He writes the bill of fare and dictates how you shall be fed.

He sees that your vegetables are properly cleaned before they are cooked. He fights your battles with the butcher, to see that you get good meat. He haggles with the bakers to see that you get good green stuff.

He gives the first and second cook, the dining room orderly and the three cook's polles, their orders. He runs the whole shebang for you and ninety-nine other rookies like you. He works hard for you, all day long and sometimes into the night.

And so, if he checks up the plates and spoons and things and finds you've lost a couple, and chases you for them out of your pay, don't grumble. He has to do that.

Don't Get Gay With Him.

Above all, don't get gay with him on any account. He is responsible for your orderly conduct in the mess hall. He's there to see that you arrive in the proper quiet and orderly manner, with your uniform neat and clean. He looks you over, and if your hands are soiled or your face unclean or your hair not properly brushed, he sends you sitting back to fix yourself up, just like mother used to do.

He sees that you sit properly at the table, quiet and orderly, until your food is passed to you. He won't stand for any restaurant rough stuff, if you are in the habit of pulling any. Loud talking and unnecessary noises will bring him down on you stiff-legged and korpunk.

Hold on that you follow Hoover's advice about not wasting your food too. He's an ascetic of the clean plate if there ever was one. If you take more on your plate than you can eat, he'll nab you. You're welcome to all you want to eat, but you're not welcome to see to waste. Food left on plates can never be used again. If it is left in the serving dish, it can be dished up in some other palatable form at another meal.

Leblanc on the last day of July, 1914, before hostilities actually broke out. He began with gathering all the public posters concerning the war measures posted in Paris. MANY SOUTH AMERICAN SOLDIERS DISCHARGED

BUENOS AIRES, Aug. 2 (By Mail).—As a measure of national economy the ministry of war has practically decided to discharge 4,000 army conscripts at the end of only six months' instead of a year's service. This will trim the army to about 14,000 men. The plan is popular among the conscripts but meets with some opposition from people who say it will disorganize the already congested labor market and from families which will have to begin to feed and clothe sons, unless work can be found for them, six months sooner than they had expected.
