

Housekeeping Is Not the Task It Used to Be

MODERN invention has done away with much of the hard work. For instance, the cleaning and polishing of hardwood floors, the dusting of moldings, the tops of high furniture, the stairs, under the radiator, etc. These back-breaking tasks are now made easy with the

O-Cedar Mop Polish

With it you can dust, clean and polish a hardwood floor in the time it formerly took you to get ready to do it.

Besides, you do not have to get down on your hands and knees to dust under the bed or other hard-to-get-at places, or to stand on a chair to dust the top of the high furniture. All of the hard work is now made easy with the O-Cedar Mop Polish. It gathers all the dust or dirt from everywhere and leaves it. The mop is easily cleaned by washing and then renewed by pouring on a few drops of O-Cedar Polish.

The Chain Store Is the Greatest Success

This is conceded to be true by practically all commercial and financial experts. It gives the people an opportunity to trade with an establishment doing an immense volume of business and buying in large quantities, thus enabling them to sell at a much closer margin than the one store merchant. We are the largest Dry Goods chain in the United States operating 175 stores in 23 states. Our buying capacity is unequalled anywhere in our line. This buying power permits us to quote such reasonable prices as you see below.
