TROOP D IS NOW ON THE WAY TO NORTH CAROLINA

Troop D of Pendleton is today speeding toward Charlotte, N. C., on its way to the other three troops of the First Separate Squadron of Oregon.

Among the members of the troop there is a strong feeling that they will be sent to France within a few months. They expect to be mounted as soon as they reach Charlotte and believe they will be sent across the water as soon as they have had a little more training.

Members of the troop were given a 24-hour furlough from Tuesday until Wednesday morning and most of them spent the time in Portland. Staff Sergeant Frank Cable is in Pendleton for a couple of days. He will leave Monday in charge of the few horses already belonging to the officers.

The East Oregonian this morning received the following message from the Charlotte Chamber of Commerce: Charlotte, N. C., Sept. 1, 1917. To the people of Oregon:

The United States government has selected Charlotte, North Carolina, as the site of one of the mobilization camps and the war department has decreed that the troops from your state will be stationed here.

The Charlotte Chamber of Commerce, and the Young Men's Christian Association take occasion, therefore, to express their pleasure at the decision and to assure the troops and all those whose interest in them is closest and affectionate of the welcome which awaits them.

We wish the troops who come to us to use the offices and facilities of our organizations freely in whatever way may be of advantage to them. We extend the same invitation to those who visit the soldiers in this camp and we pledge the hospitality and welcome of our entire citizenship both to the troops and to their friends.

Very sincerely, CHARLOTTE CHAMBER OF COMMERCE, by David Owens, President; E. N. Harris, executive secretary.

FEDERAL DUCK SEASON OPENS OCTOBER 15TH

The federal duck season in eastern Oregon will not open this year until October 15, despite the fact that a recent regulation adopted by the federal department makes Sept. 16 the opening date.

An explanation of the state and federal laws affecting the duck season is contained in a letter to H. E. Hill of Hermiston by State Warden Carl D. Shoemaker. The letter reads as follows:

"The confusion which has arisen in eastern Oregon regarding the opening of the duck season is due to the fact that the legislature passed two laws on this subject affecting Eastern Oregon and the Federal Migratory Bureau has published its own regulations covering the same territory. The first law, passed by the legislature, opens the season in eastern Oregon on October 1st and closes on January 15th following. The second law, which affects and applies only to Malheur, Harney, Grant and Lake counties, opens the season on September 15th and closes it on December 31st.

"The federal regulation opens the season in eastern Oregon on September 16th and closes it on December 31st, but due to another regulation of the federal government, this regulation must be published at least three months before they become effective and this regulation opening the season on September 16th in Eastern Oregon was not promulgated in time to permit the season to open as provided in the regulation. Consequently, so far as this year is concerned the federal season for eastern Oregon cannot open until October 15th. In the meantime the state law is in full force and effect in your county and all other counties of eastern Oregon, as well as all other counties in the state, excepting Malheur, Harney, Grant and Lake, is covered by the state law, which opens the season on October 1st and closes it on January 1st, both dates inclusive.

"When Mr. Brown wrote you it was anticipated that the federal season throughout eastern Oregon would open on time, hence the misunderstanding which has arisen."

General Sukhomlinoff, former minister of war, who is on trial at Petrograd for high treason, Sukhomlinoff was one of the czar's war ministers and was arrested at the time of the recent revolution. Many defeats of the Russian armies and the deaths of thousands of Russian soldiers are laid to his failure to provide ammunition for the troops.

CONSTIPATION IS A PENALTY OF AGE

Nothing is so essential to health in advancing age as freedom and normal activity of the bowels. It makes one feel younger and fresher, and forestalls colds, piles, fevers, and other dependent ills. Cathartics and purgatives are violent and drastic in action and should be avoided. A mild, effective laxative, recommended by physicians and thousands who have used it, is far preferable. This is the combination of simple laxative herbs with pepsin sold by druggists under the name of Dr. Caldwell's Syrup Pepsin. It costs only fifty cents a bottle; a trial bottle, free of charge, can be obtained by writing to Dr. W. B. Caldwell, 456 Washington St., Monticello, Illinois.

To The Wheat Farmers

Who understand Dry Farming, and are seeking more land on which to raise more wheat; to the Wheat Farmers who bought Wheat lands a few years ago at from \$25 to \$75 per acre and have since seen the same land increase in value to from \$10 to \$150 per acre. To the Wheat Farmers who do not desire to pay the excessive high prices prevailing in the districts in which they now reside, but who desire for the good of the Nation, their Families and their Bank Accounts, to raise more wheat. To the Wheat Farmers who own no land, but who pay an excessive rental to raise wheat on land owned by others, and who want to break the bondage of Renting and become instead, Free and Independent owners. To the above this price list has a message.

HOW ARE CROPS NOW?

The above is a question I like to answer to a really experienced Dry Farmer. Crops are Wonderful considering the following three points:

1st. That this is the driest season experienced in this section in 25 years. 2nd. Comparing crops with many other well known good Dry Farming sections. 3rd. Considering the very poor class of Dry Farming pursued at Cut Bank, there being practically no summer following done whatsoever. I can show any man field after field of wheat that will make 15 to 20 bushels per acre and flax in plenty that will make 8 to 10 bushels. Again I say crops, considering everything, are wonderful and I believe nothing else could have demonstrated better what an excellent Dry Farming Wheat Country this section is, than the results obtained under the present adverse conditions.
