Senator Chamberlain Replies.
Replying to the telegram sent him recently by a number of local farmers asking that he confer with other western senators relative to securing a basic wheat price for the Pacific coast, Senator Chamberlain states he would take the matter up at once and do what he can along the lines suggested.

Noted Topper Arrives.
Charley Weir of Monument, N. M., who won second in the steer roping contest at the Round-Up two years ago and who is a brother of George Weir, winner at the Past two Round-Ups, arrived in Pendleton yesterday, and hopes to get into the big money next week. His champion brother will arrive in a few days.

Class of 33 to Go In.
The Woodmen of the World will initiate a class of 33 Thursday on the occasion of the visit of Head Consul I. L. Boak, an extraordinarily large class considering the time of the year. This class will put the membership of the local camp over the 500 mark. A big attendance is expected Thursday.

S. P. Schedule for Round-Up.
S. R. Calderhead, general agent of the Northern Pacific at Walla Walla, has announced the train service from Pasco to Pendleton, will be practically the same as last year. The passenger train will arrive in the morning at the same hour as at present but will not leave on the return trip in the evening until a o'clock on each of the three days.

Board of Equalization Meets.
The board of equalization, consisting of the assessor, clerk and county judge, began annual session yesterday and will continue to sit for 15 days to adjust all complaints made of the assessments made by Assessor Strain. An increase in the valuation of farm lands, sheep, stock and wheat over last year was made in the assessments and the total for the county this year will be \$50,000,000, about two millions more than last year.

Two Buckers Get Falls.
At the bucking tryouts at Round-Up Park last evening, two of the buckers, Hotfoot and Smithy, got falls. Hotfoot dumped a new cowboy to these parts, a good rider who for two years was with the Irwin bunch but who last evening underrated the bucking abilities of the little black cakewalker. Smithy piled John Mar-

get. The rain last night softened up the arena and the tryouts will now proceed more rapidly. Quite a number of horses will be tried out this afternoon.

Lieutenant Is Coming.
J. V. Tallman has received word from Captain Carter, British recruiting officer in Portland, that Lieut. J. R. Burnett and a surgeon will be here Sept. 16 to take up recruiting work among British subjects. Arrangements are being made for their accommodation.

Gets Moving Picture Contract.
J. G. Still of Portland, the intrepid operator who got in the way of the stage coach race two years ago, will take the moving pictures of the Round-Up this year. Mr. Still is considered one of the best operators on the coast. Two years ago a stage coach ran over him and broke his arm. He was in the hospital for a couple of days.

Grand Jury At Scene Of Crime.
The grand jury is spending the day near the state line above Milton investigating the case against Lawrence Cobell, who shot and killed an old man named Short there several months ago. The boy has stoutly held to the story that the old man shot at him at the same time he fired his own shotgun. The boy has been held here ever since and has been assisting Janitor George Simpson.

To Work With Ladies.
Miss Mae Murphy, representing the Woman's League on Conservation was here this morning and is to be back Wednesday evening for a meeting with local ladies. Marsh and Mrs. Charles Hamilton.

Half An Inch of Rain.
Almost one-half an inch of rain fell yesterday afternoon and last night in Pendleton, the official measurement being .48 of an inch. The heaviest rain was last night between 9:30 and 10:30. Foggy, hazy the day, the rain clarified the atmosphere of the dust and smoke with which it had been laden for weeks. So fresh and bright did the world look this morning that the effect was almost the same as if a pair of smoked glasses had been discarded.

Yates of Milton, who received a lieutenant's commission in the reserve corps, has secured a second lieutenant's in the regular army, being one of ten recommended to the war department by President Kerr of O. Mother of Nine Wants Divorce.
After being married to Paul Sailor of Herndon for 21 years, Mrs. Hattie Sailor has brought suit for divorce alleging cruel and inhuman treatment. Nine children were born to their union, of whom still live. Two are minors and she asks the custody of them. The First National Bank of Herndon and the First National Bank of Portland are made defendants in order to prevent Sailor from taking out money he has on deposit. She asks for a half interest in all property, \$300 for her immediate benefit, \$75 suit money, \$20 a month for support of their children, and \$50 a month during the pendency of the suit. She alleges he has \$21 on deposit and personal property amounting to \$1200. She has frequently cursed and abused her and threatened to kill her. J. T. Hinkle and W. M. Peterson are her attorneys.

Nicky and Willy, it now develops, were writing notes in school during the war.

GERMAN LINE 300 MILES FROM PETROGRAD

The capture of Riga by the Germans leaves their army within 300 miles of Petrograd, but it is doubt-

ful if they will ever be able to go much closer now than they are to the Russian capital. Deep and almost impassable marshes cover the ground between the two points. However, the fall of Riga, which was the headquarters of the Russian fleet, was a severe blow to the Russian cause. The arrow indicates the changed battle line after the capture of the city.

Conscripts Clean House. CAMP LEWIS, American Lake, Wash., Sept. 11.—The first contingent of conscripts here today are cleaning house. Barracks are being swept out, mess halls cleaned and the camp put in good order—made ready for the second contingent which will begin to arrive in about a week.
