## ALL EXEMPTION APPEALS TO PRESIDENT MUST BE MADE THROUGH DISTRICT BOARD

PORTLAND, Sept. 14.—It is only a waste of postage, letter paper and time for a man whose claim for exemption from the draft on industrial grounds has been denied by his district exemption board, or for any of his relatives or friends, to write to his senator, or his congressman, or the provost marshal general, or the president of the United States, trying to have the ruling of the board reversed. Strange as it may seem, a great many such letters have been written. They have poured in by the hundreds of thousands to officials at Washington. Some of them have come from Oregon.

No claim for exemption on the ground of dependency can be appealed to the President under any circumstances. The decision of the district board in such cases, on which it sits as an appellate board, is final. There is no further appeal.

**Summary of Regulations.** The following summary of regulations made by the President to govern procedure in all cases appealed to him, has been issued by the provost marshal general at Washington with the request that it be given the fullest publicity:

"1. By the regulations of the President governing appeals from the action of district boards, the claim of appeal must be filed with the district board and cannot be received if sent direct to the President, the Provost Marshal General, members of congress, or to any other place than to the district board itself.

"2. Papers, evidence and affidavits not considered by the district board cannot be considered on appeal from the district board.

"3. The only cases in which there is an appeal to the President are cases in which a claim for discharge on the ground of engagement in agriculture or industry has been made in the district board. There is no appeal to the president from the action of the local board in dependency or other cases whose determination is within the jurisdiction of the local board.

"4. All attempts to appeal cases other than those involving the decision of the district board on agricultural or industrial exemptions from whatever source received: all affidavits, letters, arguments, evidence, papers or other matter not considered by the district board; all appeals made to the President direct, or sent to any other official or person in Washington, will have to be returned to the sender."

The letters will do no good whatsoever. They will not even be considered, but will be returned to the sender. If a man having real grounds for appeal wishes to prejudice his case beforehand, the surest way for him to do it is to write to his senator, or representative or to some official in Washington to use his "influence" toward fixing up the exemption.

**Must Go Through Board.** There is just one procedure whereby an appeal may be taken to the president from the ruling of a district board. That is through the district board itself, in the manner prescribed by official regulations.

It must be remembered, however, that only one class of cases can be appealed to the President from the district board. These are cases over which the district board has original jurisdiction; that is to say, cases that originate before the district board, and not with one of the local county exemption boards.

The only cases over which district boards have original jurisdiction are those involving claims for exemption on the ground of employment in a necessary industry, including agriculture.

## Now Is a Good Time To Treat Your Catarrh

**Mild weather aid treatment.** Don't be misled into thinking that your Catarrh is gone. The first touch of winter weather will bring it back with all its discomforts. But this is an excellent time to thoroughly cleanse the blood of the germs of Catarrh, and be forever rid of the troublesome sprays and douches that can never cure you. S. S. S., the great blood purifier, searches out the germs of Catarrh

which infest your blood, and chases them entirely out of your system. It is by far the most satisfactory treatment for the disease, because it reaches down to its very roots and gets at the cause. Write to-day for full information, and expert medical advice regarding the treatment of your own case. Take advantage of this chance to-day. Address Swift Specific Co., Dept. G Atlanta, Ga.

## TEUTON ANSWER REACHES POPE

BERLIN, Sept. 14.—Germany holds the American revelations of the Luxburg message make the matter Sweden's affair exclusively. The authorities point out the fact the German government did not follow Luxburg's advice. The official attitude is that the telegrams cited by the American state department as to the Argentine matter show the messages were not inspired by the German government but were merely private proposals indicating the initiative of a single diplomat.

BERLIN, Sept. 14.—Germany's reply to the pope's peace offer especially declares that Germany has no desire to interfere in the internal affairs of other nations, according to the Berlin Lokal Anzeiger. The leaders of a special Reichstag committee approved the text of the note today. The anzeiger emphasized that the German note does not resemble the American message, holding flatly that one nation should not interfere in the internal policies of another.
