terday. "We will run right together and whoever gets the breaks will win." However, Sleepy Armstron, who was in neither of the other races, is not conceding that either will win. He has some fast animals himself, belonging to Ed McCarty, he can ride and change with the best of them and besides his horses are in fine shape after a long rest.

Scoop Martin, who won the pony express at Walla Walla, is counting on making the other contestants go some for the big money at the Round-Up despite the fact that he will have more competition than last week.

More Steers Secured. So many are the entries in the bulldogging contest that the carload of long horns received recently from Mexico will not suffice. Therefore Director Thompson secured the carload used at Walla Walla last week. They are of the same variety and will insure all cowboys having fresh steers in the bulldogging and steer roping contests.

The array of bucking horses gathered for the eighth Round-Up is the greatest ever assembled in the west. So many broncho busters are after the big purse in the bucking event that the directors have secured, in addition to the great string of their own, the Drumheller string of Walla Walla, part of the McCarty string of Cheyenne, the Spain string of Union and a number of outlaw horses from various individuals.
