### The Most Beautiful Car in America

Paige cars have long since demonstrated their independence of all "price fields."

American men and women now buy a Paige—not because of the price tag which is attached to it—but because of its well established reputation as a fine mechanical product.

On this basis, the Paige will always represent a "preferred investment" among motor cars. Its actual cost in dollars and cents will always be an important, but an altogether secondary consideration.

## THE VERDICT

ONCE more the MAJESTIC RANGE has been awarded a world-verdict over all competitors. This time it comes in the shape of the gold medal given by the Panama-Pacific Exhibition.

This is the very highest award the exposition can give. It comes to the MAJESTIC RANGE with a peculiar value, for this decision keeps the proud record of MAJESTIC RANGES unbroken. For nearly a quarter of a century—ever since MAJESTIC RANGES have been on the market—it has swept from all competitors the highest prizes offered at World's Fairs and similar exhibitions. There has not been one single break or exception.

It is evident to the most prejudiced mind that this betokens an article of extraordinary and unquestionable merit. It is admitted to mean much when such a prize is won even once; but when the winning is repeated year after year, and when the judges are chosen from the most proficient men in their line from all the four quarters of the globe, we are justified in our contention that THE MAJESTIC is the very best range on earth.
