Mrs. J. E. Blago and small daughter, Mildred, are guests of Mrs. H. H. Wilcox.

A meeting of the Pendleton Dolphin Club will be held tomorrow afternoon at 2:30 o'clock in the club room of the library. It is a called meeting for the consideration of urgent business and every member is asked to be present.

Mr. and Mrs. Newt Newton, Sr. were hosts to a number of friends at a farewell surprise party given at their home on Franklin street last evening in honor of their son, Elmer, who left on the morning train for American Lake. A delightful time was enjoyed by those present, music being furnished by the Misses Sophie and Helen Anderson. A dainty supper rounded out the evening. Those present were Mr. and Mrs. Terjeson, Mr. and Mrs. Oabe Jensen, Mr. and Mrs. Barrett, Mrs. Newt Newton, Jr., Mrs. Charles Williams, Misses Ida, Helen and Sophie Anderson, Seena Olson, Gunda Newton, Hilda Wilson, Gudrun Wilson, Vesta Barrett, Nellie McDonald, Jenn Terjeson, Tom Terjeson, Lynn Barrett, Otto Newton, Willie Newton and Gannell Newton, Willie Newton and Ralph and La Verne Terjeson.

Mrs. W. P. Dutton of Portland, formerly a prominent Heppner matron arrived today to be the guest of her niece, Mrs. James E. Welch and Mrs. Kenneth Warner.

A shining success from every standpoint was the recent Red Cross Market conducted by nine young Pendleton women, the final returns from which have just been compiled. The sum of \$212 was realized, all of which has been turned over to the Red Cross. The idea of the clever and original affair was brought back from the East by Miss Mildred Berkeley and Miss Beth Smith, who saw a similar sale during a visit in Baltimore.

Anxious to add their quota to war service they enlisted the aid of a those who had part in the affair number of friends and the thoroughly successful market was the result were Miss Mildred Berkeley, Miss Beth Smith, Miss Mary Johns, Miss Olive Gwinn, Miss Helen Johns, Miss Laura Jerard, Miss Claire Haley, Mrs. Guy L. Boyden (Miss Zella Thompson) and Mrs. Claud Hampton.

On Friday evening at 7:30 Miss Helen Crissman, the field secretary of The World Wide Guild, will speak at the Baptist church. The young people are especially urged to be in attendance and hear her on the work of young people in the field of missions.

A large company of friends of Miss Malen Burnett were guests yesterday afternoon, at her home, 228 Marcus street, at a tea honoring Miss Hanna. The living room had effective decorations of zinnias, roses and asparagus ferns. A large bouquet of flame colored gladiolus and ocean spray formed a beautiful centerpiece for the table. Mrs. Augusta Rees served and Mrs. W. P. Whinnan poured coffee the

first hour and Mrs. Emmett Evans and Mrs. Sarah Bowles, the second, Miss Julia Ayres and Miss Lulu Paul presided in the dining room and were assisted by Miss Camille Moore, Miss Alice Rhodes, Miss Ethel Jamison and Miss Thelma Lanster. Mrs. H. H. Turner, Mrs. Charles Retzer, Mrs. Howard Keylor, Miss Myra Ballou and Miss Laura Bowles assisted the hostess in the living room. Little Gladys Hill and Lelah Sato met the guests at the door—Walla Walla Walla Union.

St. Mary's choir had its weekly practice Wednesday evening at 7:30. Miss Alma Seher is organist and Mr. Eugene Mollitor the director. The members then were invited to a social tea in the rectory parlors. Father Breach, the pastor, Father Storey and Mr. Mollitor said a few words of encouragement. It was decided to have two weekly practices Wednesday and Friday evenings at 7:30.

"United States History After the Civil War Period" is the subject which Current Literature Club members will study this winter and at the meeting held yesterday afternoon in the club room of the library the subject was exemplified in two interesting papers, one by Mrs. G. M. Rice, "Factors of Reconstruction," and another by Mrs. James Johns Sr., "Conditions in the United States After the War, Both Politically and Economically." Mrs. Roy Haley was hostess for the meeting and after the brief but enjoyable program the time was devoted to Red Cross sewing. Bright autumn flowers made the room very attractive and at the sewing hour the frothy tea table was presided over by Mrs. J. H. Haley and Mrs. H. D. Jones.

A charming home wedding, quiet but exceedingly pretty, united in marriage last evening Miss Stella Lee Marple and Edward W. Brown, the Rev. W. H. Blackney of Walla Walla, performing the ceremony at 7:30 o'clock at the home of the bride's father, James H. Marple, 1615 West Railroad. Only members of the family and a number of friends witnessed the service. The young couple were unattended. An artistic arrangement of roses and ferns formed the decorations and made a lovely foil for the bridal party. Following the ceremony a buffet supper was served. Both Mr. and Mrs. Brown are well known in Pendleton and have a host of friends who regret that Mr. Brown's departure will take them to Tacoma to live by having a position with the Diverse Powder Co. in that city. This is the third wedding in the Marple family this year. Among the guests was Mrs. Lulu Weltonhieler of Minnesota, who came west to attend the marriage.

A lovely farewell attention to Mrs. McKiernan, who leaves shortly to make her home in Iowa, was the tea yesterday afternoon for which the ladies of the Baptist church were hostesses at the attractive home of Mrs. Will Wyrick. Assisting Mrs. Wyrick as hostess were Mrs. Mary Harvey and Mrs. J. Elmer Miller. The afternoon was delightfully spent with

## A Letter From Washington

The Food Administrator Writes Us:

"The use of baking powder breads made of corn and other coarse flours instead of patent wheat flour is recommended by the Conservation Division of the Food Administration. The wheat needed for export is thus conserved, and at the same time healthful food for our own people is provided. The circulation of recipes providing for these uses would be of assistance in carrying out our plans."

The following recipes for Corn Bread and Rye Rolls save wheat flour and make attractive and wholesome food for every day when made with

### NEW ARMY OFFICERS ARE HIGHLY PRAISED

AMERICAN LAKE COMMANDERS HAVE WONDERFUL ABILITY, SAYS FRANK CRONAN.

In Enthusiastic in Praise of Army Life and Affairs at Camp Lewis; Non-Commissioned Officers to Be Taken Out of Ranks.

That the men who are officering the new army gathering at Camp Lewis, American Lake, are men of wide understanding and wonderful ability and that they command the respect and admiration of the new soldiers, is the statement of Frank E. Cronan, young tone banker whose wife was formerly Miss Muriel Ralme of this city and who was among those sent from Morrow county on September 19. In a letter to a local friend he sends enthusiastic praise of conditions in the big army camp.

"At present there are about 30,000 men here and we will have almost 50,000 next month. It is a real city in itself, long streets of barracks, all very orderly and well kept. We are very well taken care of and are very pleasantly surprised as we did not expect very much."

On arriving at the camp all of the new soldiers go through a receiving station and are then assigned to a company. They then get the ground-work of infantry drill and are very busy from 5:45 a. m. until 5:30 p. m. The non-commissioned officers are to be taken out of the ranks, he states, which means there is an opportunity for every man who enters the camp. Mr. Cronan is a member of Co. C, No. 347 Machine Gun Battery.

### LIBERTY AIR MOTOR STANDS EVERY TEST

WASHINGTON, Oct. 4.—Further experiments with the new American "Liberty motor" confirm the belief of army and navy experts that it will play a good part in the war.

The Bureau of Standards has perfected a vacuum chamber for testing airplane motors which will enable them to simulate atmospheric conditions at elevations up to 20,000 feet.

The vacuum chamber will give the same results as if the motors under test actually were operating at any desired altitude.

Motors tested here can begin to "fly" at sea level and rise 20,000 feet. At that height the air pressure is one half or less than half that at ordinary levels. Under such conditions the motor generates only half as much power. It was to meet this condition that the vacuum chamber was devised.

All airplane engines will be tested for use at extreme altitudes so it will be known in advance what can be expected of them.

When the American airplane manufacturers meet here Sunday and Monday to confer on the standardization of machine and motor parts they will find much progress has been made by the Aircraft Production Board, by the army and navy and by the Advisory Committee on Aeronautics.

Chamberlain's Cough Remedy the Most Reliable. After many years' experience in the use of it and other cough medicines, there are many who prefer Chamberlain's to any other. Mrs. A. C. Kirstein, Greenville, Ill., writes "Chamberlain's Cough Remedy has been used in my mother's home and mine for years and we always found it a quick cure for colds and bronchial troubles. We find it to be the most reliable cough medicine we have used."—Adv.
