Echo Man Declares 2000 Tons of Alfalfa is Still in Farmers Hands.

Contrary to some previous reports which have been circulated, there is considerable hay in the west end of Umatilla county unsold. This statement is made upon the authority of one west end farmer near Echo, who declares there is still some 2000 tons of alfalfa in the farmers' hands in his immediate neighborhood. On Butter Creek, he states, there is still more. Some of the farmers are still to be

holding for higher prices while others are willing to sell now. The hay crop of the west end was unusually good this year, the growth that affected other parts of the county not having been noticed here because of the irrigation ditches. The hay is of good quality and has found ready sale on the market. Much of the crop has already been sold and some is being held there by the buyers for feeding purposes.

Women Love Babies

It is woman's nature to naturally respond to the charm of a pretty child. Who does not admire babies? The longing to possess a baby is often outweighed by the inherent fear of the period of distress. There is a most wonderful external preparation known as "Mother's Friend". It is a safe external massage which relieves pain and discomfort at the crisis; makes elastic those fibers and muscles which nature is expanding, and wonderfully soothes the inflammation of breast glands. It enables the expectant mother to preserve her health and strength, and she remains a pretty mother by having avoided the suffering and danger which would otherwise accompany such an occasion. Every nerve, muscle and tendon is thoroughly lubricated. Get a bottle today from the druggist, and write to the Bradfield Reg. Latex Co., Dept. Q, 200 Lamar Building, Atlanta, Ga. They will mail you an intensely interesting little book, "Motherhood and the Baby". The book is free. Every woman should herself add nature in her glorious work. "Mother's Friend" makes it possible for you to do so and should be used regularly without fail night and morning.

GIRLS! GIRLS! TRY IT!
STOP DANDRUFF AND BEAUTIFY YOUR HAIR
DRUGGIST SAYS LADIES ARE USING RECIPE OF SAGE TEA AND SULPHUR.

Hair that loses its color and lustre, or when it fades, turns gray, dull and lifeless is caused by a lack of sulphur in the hair. Our grandmother made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value that even color, that beautiful dark shade of hair which is so attractive, use only this old-time recipe. Nowadays we get this famous mixture improved by the addition of other ingredients by asking at any drug store for a 50-cent bottle of "Weyth's Sage and Sulphur Compound," which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears; but what delights the ladies with Weyth's Sage and Sulphur Compound, is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance. Weyth's Sage and Sulphur Compound is a delightful toilet requisite to impart color and a youthful appearance to the hair. It is not intended for the cure, mitigation or prevention of disease.

mill owners have been selling the additional product to the general market rather than to the government at the prices offered, and that certain mills have not been supplying any of the schedules offered.
