

DEAD TEETH
Wide-awake dentists are doing a lot of things today that, in the light of a generation ago, one would have said were impossible. They are showing us, for instance, that the retention of certain "dead teeth" menace of pyorrhea, "blind" abscesses may mean serious illness. High grade dentistry reasonable prices.

GIRLS! GIRLS! TRY IT!
STOP DANDRUFF AND BEAUTIFY YOUR HAIR

HAIR STOPS FALLING OUT AND GETS THICK, WAVY, STRONG AND BEAUTIFUL.

Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a "Danderine" hair cleanse. Just try this—moisten a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt and excessive oil and in just a few moments you have doubled the beauty of your hair.

Besides beautifying the hair at once, Danderine dissolves every particle of dandruff, cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair. But what will please you most will be after a few week's use when you will actually see new hair—fine and downy at first—yes—but really new hair growing all over the scalp. If you care for pretty, soft hair and lots of it, surely get a small bottle of Knowlton's Danderine from any druggist or toilet counter for a few cents.

The advice concerning the liberty loan to "Give, give until it hurts" must set a billionaire wondering how he is to do it.

THE BEE HIVE

Attention Land Buyers!

No doubt you have heard of the Eight Mile territory near Heppner, Oregon, in Morrow county, which is conceded by all, to be the very best wheat producing districts in Morrow county.

We have just listed a few of the very best wheat ranches in the Eight Mile district.

1120 acres, all tillable except 50 acres, ordinary buildings, fenced and cross fenced, well watered, lays fine, all can be combined, church near by and school house on the ranch. Price, \$30.00 per acre, half cash.

800 acres, about 700 acres tillable, good buildings, well watered, fenced and cross fenced; all lays fine and can be combined, near church and school house, running water in house and barn lot, 200 acres in summer fallow, all goes. Price, \$30.00 per acre, one half cash.

This is just a part of our listings and will bear the closest kind of inspection. The prices are right and the soil is good and should interest any good wheat raiser.

You know the climatic conditions in Eastern Oregon, and all we ask you to do is to go with us and take a look at the land.

WOOD SUBSTITUTES INCREASE RAPIDLY

Enactment of building codes and development of new forms of construction held largely responsible.

Twenty-five years ago lumber was regarded as almost as much of a necessity as wheat, while today it is steadily being replaced by various substitutes, says a report by the forest service on "The Substitution of Other Materials for Wood," just off the press. Disregarding the temporary effect of the war, with its sudden demand for lumber and its great enhancement of prices of many substitute materials, the report points out the tendency in the long run. Each year more steel, concrete, brick or tile is being used in places where lumber was formerly employed. This is particularly true in cities where enactment of building codes and the development of new forms of construction have created a demand for more durable building material. Shingles have given way largely to composition and tile roofing, wooden sidewalks have been almost wholly replaced by cement, while the modern skyscraper with its steel framework and stone, brick or tile walls occupies the site of some former frame structure. Railroad crossties and mine props are about the only forms of wood which are not effected.

Lumber Business Hit Hard.

How hard this substitution has hit the lumber business is shown by the government estimate that the total replacement of lumber in all forms of use is 8,696,000,000 board feet, or 21 per cent of the lumber consumption of the United States in 1915. The rate of substitution seems to be increasing and is now in excess of

not unstable. This in turn has resulted to the disadvantage not only of the persons whose money is invested in timber and sawmills but to the many hundred thousands who are dependent upon the lumber industry for their living.

Had No Information.

Lumbermen have felt, it is said, the effect of the replacement of their product by other materials, but have not realized the extent to which it had taken place. They have failed to adopt aggressive selling methods and have been unable to supply the consumer with reliable information regarding lumber because they did not have it. A complicated system of grades is in use which is not intelligible to the average consumer and is even the subject of considerable dispute among lumbermen.

Manufacturers of other building material have spent large sums of money to obtain reliable information about their products. They have had to advertise extensively to make a "place in the sun" for themselves. Substitutes for lumber are guaranteed to meet specifications which are easily understood by the consumer.

These facts, the report states, have combined to make the substitutes increasingly popular.

For lumbermen to hold their markets against competing materials, it will be necessary for them to learn more about the fundamental properties of wood, the author of the report says. They can do this either by self-entire research for themselves or by cooperating with agencies already established. Better manufacturing and selling methods, and the development of by-products should enable them to make a profit in spite of the limitations on the prices of lumber which may be imposed by competitive substitutes.

Even with the increasing substitution for wood, the report points out, there will be need for all the wood in the United States, and more. The total consumption of the country for

The Real American Beauty

How glorious and wonderful is the advent of another life. When baby is born there comes into the world a new soul, the real American Beauty. When the hour arrives it should be the dawn of a new and perfect future. The joy of motherhood should be as free from fear and danger as it is possible to make it. Thousands of women have used the safe and reliable application, "Mother's Friend". It is a wonderful help to nature in relieving strain and distress brought about by expanding muscles. The nerves, too, will be calm, making the period one of cheerful days and restful nights. The breasts are kept in good condition and the abdominal muscles relax, with ease when baby is born. "Mother's Friend" makes it possible for the expectant mother herself to actually aid nature in the glorious work to be performed, and no woman should neglect or fail to give nature a helping hand. It will mean infinitely less pain at the crisis.

Do not fall under any circumstances to get this greatest remedy, ever compounded for expectant mothers. Write to the Bradford Regulator Co., Dept. J, 520 Lombard Building, Chicago, Ill., for their book, "Motherhood and the Baby". They will send it free. It is not only very useful, but will make you helpful to others. Remember to ask your druggist for a bottle of "Mother's Friend" today.

Don't ask for Crackers say SNOW FLAKES

USE "GASCARETS" FOR LIVER AND BOWELS WHEN CONSTIPATED

WHEN BILIOUS, HEADACHY, SICK FOR SORE STOMACH, BAD BREATH, BAD COLIC.

Get a 10-cent box. Take a Cascaret to-night to cleanse your Liver, Stomach and Bowels, and you will surely feel great by morning. You men and women who have headache, coated tongue, a bad cold, are bilious, nervous, upset, bothered with a sick, gassy, disordered stomach, or have headache and feel all worn out. Are you keeping your bowels clean with Cascarets—or merely forcing a passage every few days with salt, cathartic pills or castor oil?

Cascarets immediately cleanse and regulate the stomach, remove the sour indigestion and fermenting food, and foul gases take the excess bile from the liver and carry off the constipated waste.

Remember, a Cascaret to-night will straighten you out by morning. A 10-cent box from your druggist means healthy bowel action, a clear head and cheerfulness for months. Don't forget the children.

PASTIME SUNDAY AND MONDAY.

500,000,000 board feet a year. Approximately 70 per cent of the lumber cut goes into forms of use whose demands appear to be decreasing. Twenty per cent more goes into strongly competitive fields. In the remaining ten per cent of wood uses, there seems to be a much better opportunity for a larger consumption.

Prices Not Lowered.

Increasing substitution has not, however, lowered lumber prices to the consumer, the report points out, on the contrary they have steadily advanced, while the cost of many substitutes has decreased. Exhaustion of the stands of local timber and discovery of new sources for the manufacture of other building materials are given as some of the reasons for these changes. More than 75 per cent of the replacement of wood, however, is made in spite of higher initial cost of the substitute.

The effect of the growing use of other materials has been to accentuate competition and decrease profits in the lumber business. As a result of this and other reasons, alternate periods of surpluses and over-production have made the lumber mar-

COAL MINES ARE DOING THEIR BIT

Daily Output of Coal Breaks all Records to Meet This Year's Demands.

So much is being said about the shortage of bituminous coal, and the general public realizes so little the important gains in output made by the operators under trying conditions, last summer, over all previous records that the statement just issued by the United States Geological Survey, department of the Interior, on production in 1917 compared with 1916 is particularly timely. In commenting on this report, prepared by the statisticians of the Geological Survey, Director Geo. Otis Smith points out that the shortage is not due to the failure of the soft-coal mines to produce more coal than in the past, for the country on September 1 was about a month ahead of last year in output and is expected to finish the year with an increase of 10 per cent over 1916, the banner year, and 85 per cent over 1915.

The tremendous increase in manufacturing and transportation activity this year has created a demand for soft coal in excess of any in the past, an increase in demand that is difficult to measure in terms of tons but that is certainly more than the 10 per cent by which production has increased. To meet this demand the mines have been producing soft coal at a rate never before equaled. In the second week of July, 1917, the average daily production was more than 1,500,000 tons, the highest point yet attained; in the middle of August the lowest rate for the summer, 1,425,000 tons, was recorded; and in the last week of September the daily rate was 1,823,000 tons. In the first months of 1917 the output of soft coal was 282,500,000 tons or 21,000,000 tons more than in the first eight months of 1916. In the same period shipments of anthracite increased 16 per cent over those of 1916.

In the bulletin just issued by the Geological Survey the figures of comparative shipments regularly collected and shown in part in the monthly and weekly reports are converted into tons of total production. In order to satisfy the demand for information on the part of those not familiar with the coal industry, the diagram of average daily production will hereafter be reproduced in the weekly reports issued each Saturday and the diagram showing total production to date will appear with the bulletins sent out the 15th of each month.

WOMAN SICK TWO YEARS

Could Do No Work. Now Strong as a Man.

Chicago, Ill.—"For about two years I suffered from a female trouble so I was unable to walk or do any of my own work. I read about Lydia E. Pinkham's Vegetable Compound in the newspapers and determined to try it. It brought almost immediate relief. My weakness has entirely disappeared and I never had better health. I weigh 165 pounds and am as strong as a man. I think money is well spent which purchases Lydia E. Pinkham's Vegetable Compound."—Mrs. Jos. O'BRYAN, 1756 Newport Ave., Chicago, Ill.

The success of Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, is unparalleled. It may be used with perfect confidence by women who suffer from displacements, inflammation, ulceration, irregularities, periodic pains, backache, bearing-down feelings, flatulency, indigestion, dizziness, nervous prostration, Lydia E. Pinkham's Vegetable Compound is the standard remedy for female ills.

A CLEAR COMPLEXION

Ruddy Cheeks—Sparkling Eyes—Most Women Can Have

Says Dr. Edwards, a Well-Known Ohio Physician

Dr. F. M. Edwards for 17 years treated scores of women for liver and bowel ailments. During these years he gave to his patients a prescription made of a few well-known vegetable ingredients mixed with olive oil, naming them Dr. Edwards' Olive Tablets. You will know them by their olive color.

These tablets are wonder-workers on the liver and bowels, which cause a normal action, carrying off the waste and poisonous matter in one's system.

If you have a pale face, yellow look, dull eyes, pimples, coated tongue, headaches, a listless, no-good feeling, all out of sorts, inactive bowels, you take one of Dr. Edwards' Olive Tablets nightly for a time and note the pleasing results.

Thousands of women as well as men take Dr. Edwards' Olive Tablets—the successful substitute for calomel—now and then just to keep in the pink of condition. 10c and 25c per box. All druggists.
