Use of Barley Saves Wheat

Barley has always been used in making the famous food

Grape-Nuts

There's a Reason—Barley is richer in protein (meat value) than wheat. Barley has an element that changes its own starch and wheat starch into sugar. Barley has a rich individual flavor—you've heard of barley-sugar? If you haven't tried this world-famed food, now is the time. Eat Grape-Nuts—Help Save Wheat

Safeguards Health of The Children

Constipation, or inaction of the bowels, is a great menace to health. Cathartic or purgative remedies should never be given to children as the violence of their action tends to upset the entire digestive system. A mild laxative is far preferable, and the combination of simple laxative herbs with pepsin known as Dr. Caldwell's Syrup Pepsin, and sold in drug stores for fifty cents a bottle, is highly recommended. This preparation contains no opiate, narcotic, or habit-forming drug of any description, is mild and gentle in its action, and brings relief in an easy, natural manner. Its pleasant taste appeals to children and they take it readily. Thousands of mothers have testified to the merit of Dr. Caldwell's Syrup Pepsin, and in countless homes it is the standard family remedy. A trial bottle, free of charge, can be obtained by writing to Dr. W. B. Caldwell, 456 Washington St., Monticello, Ill.
