WHAT BILLY SUNDAY SAYS

In one of his meetings at Boston the noted evangelist said, "I believe that every disease can be cured by some weed if we can only discover it. There is not an ailment that God hasn't somewhere an herb growing that will cure that ailment."

The choice medicinal herbs which will cure the women's ailments were discovered more than forty years ago and have been doing their beneficent work for half a century. Lydia E. Pinkham combined them in convenient form in her famous Vegetable Compound, which is to be found in the drug stores where every ailing woman may conveniently get it at small cost. It does the work!

COTTONSEED CAKES SEIZED.

HOUSTON, Tex., Nov. 12.—Twenty thousand cars of cottonseed cakes stored at Galveston and Port Arthur, owned by neutrals were seized by the government if it is learned.

Tammany will not be quite as rough this time as it might be if civic decency had not been giving a personal demonstration in New York these several years.

 Fort Fairfield, Maine.—"For many months I suffered from backache caused by female troubles so I was unable to do my house work. I took treatments for it but received no help whatever. Then some of my friends asked why I did not try Lydia E. Pinkham's Vegetable Compound. I did so and my backache soon disappeared and I felt like a different woman, and now have a healthy little baby girl and do all my house work. I will always praise Lydia E.
