RESURRECTION.

Take not from me the thought, the hope,
Of after life continued in
A nobler form; shake not my faith
In endless joys my soul shall win
If faith in this mortal life,
To all the tasks my conscience calls,
To all her mandates bend my will
Where'er my humble labor falls.
See you yon lowly crawling worm
That scarce can rise beyond the sod;
His labored undulating form
Slow winding, homeless?
Think you God neglects to teach this helpless thing
To build its tomb with man's piety,
Of silk, whose opening gates reveal
A joyous golden butterfly.
—Freemont Pollock Livingston

WHERE ALL MAY HELP

THIS is everybody's war and everybody should help win it, by helping at home or in the field. The thrift stamp plan provides a way whereby every man, woman and child, may get into the game of helping finance the war.

People who heretofore felt that they could not afford to invest in Liberty Bonds, even to the amount of \$50, will now have no excuse for remaining on the side lines in the great struggle.

For these war saving stamps are to be offered for sale at 25 cents apiece; so that even the smallest child with a penny savings bank can come to the aid of the government, and at the same time save money in a safer and faster way than at home.

These war stamps will be issued in two denominations, 25 cents and \$5.00. A "Thrift Card" with 16 spaces will be furnished to every applicant, and when these spaces are filled the card can be exchanged for a \$5 saving certificate by paying a few extra cents. The \$5 stamps will cost \$4.12 each up to the end of next month, and will cost one cent additional in every month thereafter up to the end of 1918. On Jan. 1, 1923, they will be redeemed by the government at \$5.00 each.

In effect, this means that everyone will have an opportunity to save money in the safest and most convenient form ever devised, and at the same time receive 4 per cent interest compounded quarterly. By investing \$82.40 in these stamps between now and the end of next month the holder is entitled to receive \$100 five years from now, a profit of \$17.00. Of course, at any time, the stamps may be cashed in for their full face value, plus interest for the period they were held.

IGNORANCE OR DECEPTION?

HINDENBURG is quoted by a Vienna newspaper as saying that while the United States is using the war as a pretext to raise a big army it is not likely we will send many soldiers to Europe because if we did we would expose this country to a Jap invasion. If Hindenburg really believes what he is quoted as saying, all well and good. This country nor the allies will worry over his ignorance and it is possible that the German general is really unaware of what the American purposes are. On many things the German mind has grossly misunderstood the United States, to Germany's loss. However, it is more probable that Hindenburg knows well about the men we are sending to Europe and in his Vienna interview merely resorted to a little camouflage for political effect on his people.

Col. House, head of the American delegation at the inter-allied war council is more than an astute diplomat; a few days ago by way of recreation he gave the Frenchmen some entertainment in the way of plain and fancy shooting, the Colonel being a crack shot; since marksmanship is wanted from this country it is easy to see that our allies will be encouraged to find that even our envoys are familiar with the use of weapons.

Thrift stamps will be better for children than penny savings banks; let the little ones bring out their hoarded money and grown-ups may do likewise with profit.

As a first step towards an armistice the bolsheviks should ask the Germans to get out of Russian Poland, then see how quick they would not do it.

The amount of snow in the mountains gives promise of a white Christmas in the Umatilla valley.

The English should get another ship just like that Halifax steamer and send it to Hamburg.

28 YEARS AGO

(From the Daily East Oregonian, Dec. 8, 1889.)

The majority of the saloons now close on Sunday, but the Sunday times too large to make liquor vending on the Sabbath profitable.

Mr. and Mrs. W. E. Ladow have arrived from Two Harbors, Minn., and will make their home here. Mr. Ladow will take a position on the Hunt line.

Mr. Mose Haruh lately received a message which has come many thousands of miles across land and sea. It was written by his brother in law Leo Friede at the Grand New Hotel, Jerusalem. It made the long journey to Pendleton in just 30 days.

Thirty five members had been secured, at last accounts, for the dancing club and the list is still growing. A number of staid old married folks have been secured to lend tone and respectability to the club.

A gentleman named J. W. Murray will soon open a marble shop in Pendleton.

Funeral Sermons Are Often Preached Too Late Says Marshall

Should be Given While Men Are Alive and Can Hear and Profit Thereby.

(E. R. C.)
Evangelist Marshall is delivering a great series of sermons at the Baptist church. His subject tonight will be "Golden Vessels."
Last night he spoke on "The Immortality of the Soul."
He said we will begin on common ground. Everyone admits that the scripture statement is true that "It is appointed unto man once to die." A great many funeral sermons are preached too late. They should be preached while men are still alive and can hear and profit thereby. Death comes to the palace and the hut. But there are two kinds of death taking place about us. One is in Christ and the other is without him and consequently without hope. Modern science claims to have improved upon the old book. They say that God did not create man out of the dust of the earth. But he says that the component parts of the body are "earth substance." Some would prefer to be made out of monkeys to having God make them out of the dust of the earth.
Now nothing is ever destroyed. A tree takes from the earth earth substances and it takes out of the air other substances. The wood is hurried and the earth substances go down into the ash pit and the other goes up in smoke. That is each returns to its own original place. That is what God says about man. The body shall return to the earth as it was and the spirit to God who gave it. The body changes every seven years, but there is something that remains constant, which holds the knowledge we have gained and adds to it. The body turns back to earth every seven years, but the soul goes on. When death occurs the body goes back quickly but the soul goes on to God to be with Him. The body is merely the instrument of expression for the soul.
Now all have sinned and come short of the glory of God. There is a judgment and there is a mighty Saviour. The soul that sins is lost and Jesus alone can save and bring it back to God in peace.
Remember the meeting tonight and spend the hour with us in the study of God's word.

STUMBLING BLOCK

(Continued from Page 1.)

Umatilla County Senators from Oregon: United States has declared war on "Europe and Germany"; the most important measure now before congress is the question of disbanding the schools to conserve fuel; Pledgers in Bulgaria; "India, Portugal, Egypt and China" are European neutrals; a tank stops for nothing but gas.
The following is the complete list of questions submitted to the students yesterday:
1. What does the term "European neutrals" mean?
2. Who is Col. House?

Give Jewelry for Christmas

This is going to be
A Jewelry Christmas

The unprecedented prosperity of the land is making it possible for people to buy nicer gifts than usual.

This is the year to buy that premier gift for your home. A complete silver service for your table; a fine high grade watch for the husband; a wrist watch for the wife and what is most important and dearer to the hearts of all is the beautiful diamond, in rings, ear rings or pendants.

We hold the distinction of being the largest diamond dealers in Eastern Oregon and a glimpse of our array of sparkling gems will impress you that we have given a great deal of care to collecting a rare collection of diamonds.

China clocks are popular this year.

OVERLAND AND WILLYS-KNIGHT AUTOMOBILES

THE WILLYS-KNIGHT
You will concede the luxuriance and beauty of this car without argument.
Its practical advantages finally determine its purchase.
This motor has no equal—no near approach in any similar cars selling for so moderate a price or for hundreds of dollars more.
It is a Willys-Knight sleeve-valve motor—12,000 produced last year and giving the most remarkable satisfaction.
Everybody knows that nothing has ever seriously challenged the noiselessness of this type of motor.
It has the softer "purr" combined with greatest power for its size.
Its velvet smoothness puts all other motors of like power to shame.
