## Backache of Women

How this Woman Suffered and Was Relieved.

Fort Fairfield, Maine.—"For many months I suffered from backache caused by female troubles so I was unable to do my house work. I took treatments for it but received no help whatever. Then some of my friends asked why I did not try Lydia E. Pinkham's Vegetable Compound. I did so and my backache soon disappeared and I felt like a different woman, and now have a healthy little baby girl and do all my house work. I will always praise Lydia E. Pinkham's Vegetable Compound to women who suffer as I did."—Mrs. ALTON D. OAKES, Fort Fairfield, Maine.

# MAZOLA

—the pure oil from corn for better cooking

WHEN housewives first adopted Mazola they found the deep frying, sautéing and shortening medium which they have been seeking for years.

Mazola browns food quickly, preventing any penetration of oil—and gives crisp, delicious dishes free from sogginess, easy to digest. The results are so much better than with lard or compounds that Mazola is used in thousands of American homes.

And now when Food Administrator Hoover asks us to save butter, lard and suet, the housewife knows that she has a really good vegetable oil.

With Mazola she can help save the country's resources and at the same time give her family the best of food at a notable saving in cost.

Unlike other mediums Mazola does not transmit taste or odor from one food to another—can be used over and over again—a great factor in economy.

And when you want an especially delicious salad dressing, use Mazola. There is no need to give up salads because of the uncertain supply or high prices of olive oil.

Mazola can be had from your grocer in pint, quart, half-gallon and gallon tins. Ask him for the free Mazola Book of Recipes, or write us direct.

Your money refunded if Mazola does not give entire satisfaction.

**FORTY YEARS' SUCCESS**

For a business to be successful for forty years means a great deal. Among other things, it means remarkable excellence in the products it sells. No inferior article can be sold on a large scale for so many years, and it must not only be good at the outset, but so good that the progress of forty years shall not develop any better article to supersede it.

So women can, with confidence, depend upon that old, tried and tested remedy for women's ailments, Lydia E. Pinkham's Vegetable Compound, still as popular as ever, though it was placed on the market before the centennial year, 1876.
