HAMPTON NAMED VICE-PRESIDENT

A. C. Hampton, city superintendent of the La Grande schools and for ten years principal and superintendent in Pendleton, was Saturday elected vice president of the Oregon Teachers' Association at the close of the annual convention in Portland. In electing him, the convention upset the slope bucket and shattered all previous precedents. The election is the important one each year for the reason that the vice president is always elevated to the presidency the following year.

The following story of the election is from the Oregonian.

Educators of the state did politics yesterday, smashed a slate and placed in the office of vice president of the Oregon Teachers' Association a man not on the list submitted by the nominating committee.

This all took place at the final session of the seventeenth annual meeting of the state association at Langdon high school yesterday afternoon. F. A. Tiedgen of Marshfield, was on the list submitted by the nominating committee for vice president, but A. C. Hampton of La Grande, was elected to that position instead.

All other officers were chosen as per program. There was no rotation to Mr. Tiedgen personally, as he is popular in the state organization, and is, in fact, very much liked. It was felt, however, that, geographically, his election would be a mistake, as it is the fixed custom to elevate the vice president to the position of president in the succeeding year, and a man more centrally situated was desired for the post.

Opposition Develops Rapidly. It is the custom to adopt the report of the nominating committee without question. However, when it was heard yesterday afternoon, opposition was organized as regards the vice presidential nomination, and the report was adopted with the exception of this office.

Other officers filled without question were H. D. Sheldon, Eugene, president; E. D. Resnier, Corvallis, secretary-treasurer, and J. W. Todd, Salem, and E. H. Whitney, Portland, members of the executive committee.

Then nominations for vice president were asked. H. M. Sherwood, principal of the Stephens School, Portland, named A. C. Hampton of La Grande. He said he felt that the selection he recommended would be more representative of the state at large.

Mr. Hampton himself arose and said he was of the opinion that it would be better in every way if the report of the nominating committee were followed without change. He said he did not at all covet the office. The nomination was seconded by William Parker of Portland, who said Eastern Oregon should be recognized. W. R. Rutherford of Eugene, on the other hand, stood by the recommendation of the committee in favor of the election of Mr. Tiedgen.

Precedent Lacking for Action. Upon the ballot being taken, Mr. Hampton was elected, the vote being 74 to 58 in his favor. This is the first time in the history of the association such a step has been taken, recommendation of the nominating committee always being equivalent to an election heretofore.
