MEACHAM HAS FIRST SNOWLESS CHRISTMAS

MOUNTAIN TOWN IS EXPERIENCING MILDTEST WINTER IN YEARS.

Grass is Green, Creeks High and Roads in Poor Condition; Other News Notes of Interest.

(Lead Oregonian Special.)
MEACHAM, Dec. 31.—Indications were during the first part of the week that we would have snow on the ground on Christmas Day and by that morning all the snow was entirely melted by warm, heavy rains. We had the first whiteless Christmas in years. No snow has fallen since, and old timers here say it has been the coldest winter in years. Heavy rains have fallen all week, except on Sat-

urday when the sun shone, and it was like spring here. The grass is green. The creek is high, and roads are very poor. Wood haulers can not haul at all lately.

Membership bands for the Red Cross were sent up here on last week and in a few days there were 25 members, being fairly well for so small a place.

Plenty of War Work In U. S. For Patriotic Women to Accomplish

WASHINGTON, Dec. 29.—Too many American women are racing off to Europe or wearing up and down the land looking for "something patriotic" to do while children at home are becoming delinquents and young girls are indefinitely unprotected. There's plenty of war work at home they might be doing, too.

That in brief was the opinion expressed to the United Press today by Mrs. Anna Howard Shaw, chairman of the women's committee of the council of national defense.

And borrowing a phrase from her ancient suffrage rivals, the anti-the former president of the National American Woman Suffrage Association added:

"Women's place, unless she can give expert assistance abroad as a nurse or doctor, is at home.

"Children are not so well cared for,

as they should be. The increase of juvenile delinquency proves that. Girls need more protection. Factory and office work workers, some women can save food. Others, who cannot go to work outside the home may be able to offer a place to live, rooms or food to those who work.

"The woman's committee has put out a card for the women of the nation, listing one hundred and fifty-four occupations, most of which can be followed right in a woman's home town, that will help America win the war," Dr. Shaw said.

"Her own country needs the patriotic American woman right now," said Dr. Shaw, "and has only to look around from her front door to see necessary work which is going on."

"Today we know that we have a great force that has scarcely been in use at all. Registration is helping many women in the thirty-five states where it has been taken or is being prepared for, to see their own possibilities of service.

"A study of the registration cards will show many ways in which each

one may give service, whether she is trained or untrained. Many trades and professions enumerated are essential to the war. Others are necessary to maintain life in town or country to release men for active war service."

Every little premature peace rumor has a meaning of its own.
