The charge is indignantly denied by some railroad executives and is dismissed as ridiculous by others. This, however is not sufficient. Mr. Lee should be required by the federal authorities to produce the evidence upon which he bases his sweeping indictment. Such talk as he has indulged in on this vital subject is detrimental not only to the railroads but to the government and the nation. If there is such a conspiracy as Mr. Lee charges the conspirators ought to be imprisoned for the crime. If Mr. Lee is talking idly or maliciously he should be called to account.—Chicago Daily News.

The kaiser says he will force peace upon those nations who refuse to accept it when offered. A case of talking loud to keep up courage.

A "bawl 'em out" club for the public exposure of those who fail to give time, money or service to their country is not a bad idea.

Anybody heard anything of LaFollette lately? He may be still kicking, but, if so, he is being serenely ignored.

28 YEARS AGO

(From the Daily East Oregonian Feb. 13 1890)
A 35 car freight train came in yesterday from the west, probably the longest ever hauled over this line.

This forenoon's westbound train was well filled with immigrants who inquiry developed were bound for Willamette valley and sound points.

Mr. Robert Barber who organized a degree staff of Odd Fellows in Pendleton returned this morning from a trip across the mountains.

A large deal in cattle was made today, Beals Bros. purchasing O. W. Hartness' band of 176 head, now ranging on Cold Springs.

The Pendleton band is on the point of disbanding, a dearth of encouragement offered in assigned as the cause.

LETTERS HOME.

Soldier he was—and a good one, too—
Though you may wonder just how I knew
That his was a heart well steeled to test
The enemy's bravest, truest, best.
'Twas this that made me know his worth
As one of the sturdy sons of earth.
He was tired today when drill was done
For he had been up before the sun.
Yet still was turned to a new delight—
There were letters home he had to write.
Letters to prove—as they only can—
The tender side of a martial man.
He wrote and wrote—and his heart grew glad!
Well, after all, war wasn't so bad!
It had brought to him good comrades new
To cherish with friends he was writing to.
So he grinned and pledged The Flag new might
And grinders are hell when they start to fight!

THE JUNIOR RED CROSS

THE work of the Junior Red Cross, just now being organized in Umatilla county, is not to be taken lightly. It is taken seriously by the nation's biggest men who regard it as something of much importance.

The activities of the junior organization are divided into three branches, namely, learn about the Red Cross, making supplies and serving the city, community and nation. If every child in America should make just one article, the Red Cross would gain 22,000,000 articles. That in itself would be considerable of an achievement.

But the most important phase of the Junior Red Cross is that it brings into the schools the idea of service and impresses it upon the youthful mind, not alone the service of the hands but the service of the heart. It teaches thrift, encourages usefulness and efficiency, discourages wastefulness, extravagance, idleness and disloyalty. It emphasizes the lesson of co-operation. In short it develops good citizenship in young Americans.

After all it is these children that we are fighting for. They will be the men and women of tomorrow who are to derive the benefits which a victorious war must bring. It will be their task to rebuild the world upon broader, safer, more enduring foundations. They should have some conscious part then in the war, should do something to achieve that victory which is to mean so much to them.

Judge Phelps was right when he told the teachers of the Pendleton schools that the pupil who fails to heed the call to check extravagance, who refuses to save, conserve and economize is a slacker just as much as the man who shrinks from taking up arms when his country calls.

The Junior Red Cross opens an opportunity for every boy and girl in the nation to enroll for service in the war, and most of them we think will be grateful for the chance to do their bit.

THE TWO-BIT CLUB
THE high school students have organized a "Two-Bit Club." The members pledge themselves to save 25 cents each week for investment in thrift stamps. The men of the city might emulate their example and pledge themselves to save a quarter daily from their expenditures on such things as tobacco, cards, pool, gasoline and other things on the borderland of luxury. A saving of 25 cents a day means nearly \$100 in a year for investment in government war stamps. The habit of saving and investing is a good one in itself but, when it helps the government at the same time, it is something more than a habit. It is a duty done.

IS THERE A RAILROAD CONSPIRACY?

W. G. LEE, president of the Brotherhood of Railway Trainmen, asserted before the interstate commerce commission a few days ago that the country is suffering from "rotten railroading" and that this serious affliction is the direct result of a conspiracy of New York financiers and railroad managers to create public sentiment against government operation and government ownership of the great land transportation lines.

WOULD HELP BOYS IN TRENCHES

Charles M. Frey of Los Angeles, who became the most famous rat-catcher in the world when the late Mayor Gaynor of New York City wrote him a letter filled with philosophy, wants to go to the front to help the boys in the trenches fight rats. He has learned the pest makes trench life more miserable than do the German attacks. He thinks he could rid the trenches of rats. This photograph shows one of his methods of catching a rat.

GIRLS! HAVE A MASS OF BEAUTIFUL HAIR, SOFT, GLOSSY, WAVY

A SMALL BOTTLE DESTROYS DANDRUFF AND DOUBLES BEAUTY OF YOUR HAIR

Within ten minutes after an application of Danderine you can not find a single trace of dandruff or falling hair and your scalp will not itch, but what will please you most will be after a few weeks' use, when you see new hair, fine and downy at first—yes— but really new hair—growing all over the scalp.

A little Danderine immediately doubles the beauty of your hair. No difference how dull, faded, brittle and scraggy; just moisten a cloth with Danderine and carefully draw it three your hair, taking one small strand at a time. The effect is amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance, an incomparable lustre, softness and luxuriance.

Get a small bottle of Knowlton's Danderine from any drug store or toilet counter for a few cents and prove that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment—that all you surely can have beautiful hair and lots of it if you will just try a little Danderine.

BRITISH DROP 10 TONS BOMBS

Airmen Make Raid on German Railway Junction.
LONDON, Feb. 12.—"A successful bombing raid into Germany was carried out Saturday night," says an official statement on British aerial operations. "Nearly 10 tons of bombs were dropped on an important railway junction and on sidings at Courcelles-les-Metz, southeast of Metz. One of our bombing machines is missing."

NEW ACTING HEAD OF THE GENERAL ARMY STAFF

GEN. PEYTON MARCH.
General Peyton C. March, new acting chief of the general staff of the United States army, probably has had more experience of European

warfare than any other man who has ever held the place. The general has been with the American troops in France because General Bliss, chief of staff, is to remain permanently in France. It became necessary to name an acting head to attend to affairs here. He is said to be a man of quick decision, who is not afraid to do what he wants to do.
