### New Spring Suits

Simplicity the Keynote of the New Season's Showing.

A suit season—so say all fashion authorities, and every woman will rejoice at the edict, especially when they see the charming models brought forth by the designers of the time.

Lines are extremely smart but very simple. Navy blue is a strong factor, yet sand, mist grey and poilu blue are very popular, while bright shades of green, honey tan and rose are shown in sporty types of wool jersey suits. The jackets are in eton, pony and long pointed styles in addition to severe man-tailored effects, some featuring the new vestees.

Braid trimming and buttons are the trimming on both jacket and skirt which are cut appreciably narrow.

You will like these suits we are sure.
