### HIGH HEART.

The sea that I watch from my window  
Is gray and white;  
I see it toss in the darkness  
All the night.  
My soul swoops down to sorrow  
As the sea-gulls dip.  
And all my love flies after  
Your lonely ship.  
Yet I am not despairing;  
Though we must part,  
Nothing can be too bitter  
For my high heart;  
All in the dreary midnight,  
Watching the flying foam,  
I wait for a golden morning  
When you come home.  
—By Aline Kilmer in Good Housekeeping.

### EXORBITANT FISH PRICES

HERE is something strange about the fish business in Oregon. Reports from Newport are that fishermen get but five cents a pound for halibut. Yet halibut is selling today in Pendleton for 28 cents. The price of salmon is 30 cents a pound here. Smelt are being caught in such heavy quantities that much fish is being dumped back into the river. Yet the price of smelt here today is eight and a third cents per pound.

When people are asked to economize so as to save money

for liberty bonds and thrift stamps it is an injustice that they be forced to pay unreasonable prices for food. When they are urged to eat fish so as to save beef it is wrong that they should be forced to pay for halibut a price approximately six times what the fisherman gets for his catch. It is wrong that they should have to pay a stiff price for smelt when smelt are being dumped back into the river.

Where the blame rests the East Oregonian does not know but it suspects that the so-called fish trust in Portland and Seattle is in need of attention. This paper knows of no retailers who are growing very rich out of the business. But wherever the fault may be it should be checked. We have a food administration that is supposed to be possessed of very broad powers. The Oregon representative of that organization is overlooking something with reference to fish prices and this neglect is accomplishing harm.

### "DIRTY PIGS"

THE above is the choice and complimentary term applied by a Berlin official newspaper to Germans who live in America and have taken up with the League for a German Democracy, the son of General Franz Sigel being prominent in the number. In other words the epithet expresses the official view of the

present German government towards those of German birth or parentage who in their hearts prefer a democratic form of government to the military despotism that now has the Fatherland in its grasp and seeks to enslave the world. It means that nine tenths of the Germans in America are regarded by the kaiser as dirty swine because nine tenths of the Germans in this country do prefer democracy to autocracy. If they did not they would not be in this republic. They would have remained in Germany.

Will your loyalty, Mr. German, be to the kaiser with his insulting tongue, or to the stars and stripes under which you have had protection, prosperity and recognition of the elementary rights of manhood and womanhood?

The pope's good remarks about President Wilson's war aims statements are alright but it would help more if the vatican would frankly advise Austrian and German folk to revolt against their governments and thus aid in bringing about peace based on decency and democracy.

General Pershing says: "Germany must be beaten; Germany can be beaten; Germany will be beaten." Julius Caesar never said anything better than that or anything truer. It is merely a matter of time and we will take the time, whatever it may be.

Portland is going to weed out any disloyal teachers in the schools of that city; let it be done and send their names abroad so no other town will get them without knowing it.

You cannot afford to have yourself listed as a disloyalist or a slacker.

### One American Always First Over the Top

WITH THE AMERICAN EXPEDITIONARY ARMY, France, Jan. 29. (By Mail).—If they ever invent a new way of going over the top there's one American officer who will probably be on hand to try the new wrinkle.

The French government has decorated him with the Croix de Guerre for going over the top in every way known to date.

First he went over with the French infantry in an attack last spring. Though detailed as an observer and not required to take too many chances the American officer was one of the

IN offering this new Oakland Sensible Six to the American public, its builders do so with what they believe is a clear understanding of the needs of the progressive automobile buyer of today.

Accordingly they have embodied in this car that desirable union of high ABILITY, LIGHT WEIGHT, SURE COMFORT and LOW MAINTENANCE COST which is the sum of true automobile value, and toward which the sensible motorist inevitably is turning.

Oakland is frankly proud of this new car. It is a fine car as it stands, and it has behind it a record of performance and service soundly fortifying such a pride.

It is a good car to look upon, better to drive, and best of all to own. It is such a car as properly can be offered as the product of the eighth largest producer of automobiles in the world.

In three seasons of service, the Oakland Sensible Six by its practical design and the high character of its performance has established itself as the pre-eminent SENSIBLE automobile of the day.

### YOU'RE BILIOUS! LET "CASCARETS" LIVE LIVER AND BOWELS

DON'T STAY HEADACHY, CONSTIPATED, SICK, WITH BREATH BAD AND STOMACH SOUR.

Get a 10-cent box now. You men and women who can't get feeling right—who have headaches, coated tongue, bad taste and foul breath, dizziness, can't sleep, are bilious, nervous and upset, bothered with a sick, gassy, disordered stomach, or have a bad cold.

Are you keeping your bowels clean with Cascares, or merely forcing a passage every few days with salts, cathartic pills or castor oil? Cascares work while you sleep; cleanse the stomach, remove the sour, undigested, fermenting food and foul gases; take the excess bile from the liver and carry out of the system all the constipated waste matter and poison in the bowels.

A Cascares tonight will straighten you out by morning—a 10-cent box from any drug store will keep your stomach sweet, liver and bowels regular, and head clear for months. Don't forget the children. They love Cascares because they taste good—never gripe or sicken.

first wave to cross No Man's Land. He stayed with his unit until the objective was gained and when they had to fall back before a heavy counter attack he fell back fighting with them.

Some weeks later he went over the top in a tank and followed that trip a few days later by an airplane observation flight. For the greater part of an afternoon the plane cruised up and down a German sector watching the effect of big French shells on concrete defenses. The Boche anti-aircraft guns made it warm for the American flyer but he was still an enthusiastic aviator when the plane came to a successful landing on its own field at dusk.

### HALF SICK, HALF WELL

A Condition That Will Not Improve Upon Itself.

In the Spring the depressing condition that many call Spring fever often runs through families and neighborhoods.

This indefinite, hard-to-describe state of poor health probably means that you are thin-blooded and anemic; exhausted thin blood gets thinner, low vitality falls lower, poor appetite becomes poorer. Then the thoroughly exhausted system can no longer resist, and on comes the prostrating illness or serious disease.

Treat the half-sick, Spring-tired condition with that splendid course of medicine—Hood's Sarsaparilla, to fortify the whole body; Pepsin, to ironize and make rich red blood; Hood's Pills to rouse the liver to its regular daily duties—and the half-well receives a perfect health. Each medicine is valuable in itself but is truly so when used in this combination.
