CASTLE ROCK STAGES TEST OF LOYALTY

EVERY CITIZEN REQUIRED TO PASS BEFORE FLAG AND SALUTE IT.

Effort Made to Identify Those of Pro-German Sympathy and End Talk of a Seditious Nature, Etc.

CASTLE ROCK, Wash., March 15.—As a test of loyalty to the United States and to weed out and identify if possible those of pro-German sympathies in this community, every resident of Castle Rock today was compelled to pass before the flag and salute it. The demonstration was arranged by a committee of citizens.

Not one person refused to pay honor to the Stars and Stripes, and only one or two betrayed reluctance in giving the salute.

As a result of today's patriotic demonstration many upon whom suspicion of disloyalty was fixed vindicated themselves.

This is only the beginning of a move to eradicate pro-German and seditious talk in this community.

At 2 p. m. all business houses were closed and every resident of Castle Rock gathered on Cowll's avenue.

School children carrying flags and banners marched by in parade. Then the band, led by Mayor O. K. Will, played patriotic airs, and "America" was sung by all.

Castle Rock has a population close to 1500 people.

To Get Attendance Awards. PORTLAND, Ore., March 15.—

Awards for percentage of attendance, mileage traveled to attend and standard of excellence will be made at the rally being held today by the Willamette Association of the Baptist Young People's Union. Sessions are being held at the Highland Baptist church, and state and district workers are on the program.

Conference Is Opened. MOSCOW, Idaho, March 15.—A two-day conference was opened at the University of Idaho today by newspaper publishers of Northern Idaho and "The Panhandle."

At this an editorial association is to be formed.

Temporary organization was effected at the opening meeting early today, when committees were named to prepare details for permanent organization. A talk on "Newspaper Problems," by Edgar B. Piper, editor of the Portland Oregonian, was given at the opening session.

Tonight the scribes will be guests at the finals in the Idaho interscholastic basketball tournament, following which they will be tendered a reception and dance in the University gymnasium.

Tomorrow forenoon, the association will be formed and officers elected. At noon, the university faculty will tender the delegates a luncheon, and in the afternoon, newspaper matters will be discussed at a general convocation of editors, university students and Moscow residents.

"American and German Ideals in the War" will be the theme of Mr. Piper's address. University officials will also speak.

The city of Moscow will tender the editors a banquet tomorrow night as the finale of the convention.

BIG FIRE LOSS ON NATIONAL FORESTS

MORE THAN 962,000 ACRES BURNED IN 1917 WITH \$1,358,600 LOSS.

Effort Being Made by Forest Service to Impress Public With Necessity for Greater Precautions.

PORTLAND, March 15.—Forest fires burned over 962,000 acres of national forest lands in 1917 and caused a loss of \$1,358,600 to the government in timber, forage and young growth, according to figures received from Washington by District Forester George H. Cecil.

The loss was larger than for several years past. Forestry officials say that, considering the unusually dangerous conditions, it was remarkably light.

Protracted drought and periods of high winds made the conditions, they declare, virtually the same as in 1916 when many persons were burned to death and 25 million dollars' worth of timber on the national forests was destroyed.

In addition to the actual loss in timber and forage, the fires of last year entailed extra expenditures by the government of \$1,121,451.

This, it is pointed out, means that to hold the fires down large numbers of men have to be withdrawn from productive work and much money spent for supplies. At a time like the present, when it is necessary to practice the utmost economy as a war duty, the forest service officials are emphasizing the criminal wastefulness of forest fires that can be prevented from starting.

Of the 7314 fires which were fought on the national forests, all but 2144 set by lightning were caused by human agencies and could have been prevented. There were 552 incendiary fires, which occurred for the most part in Oregon, California and Arkansas. Careless campers were responsible for 1288. Railroads, partly through failure to comply with the law and use proper spark arresters, set 1093. The remainder were caused by various forms of carelessness.

on the part of settlers and other users of the national forests.

Effort is being made by the forest service to impress upon the public the necessity of keeping fire out of the woods, especially now that the country needs its man-power so badly for other purposes than fighting unnecessary fires.

The campaign of education against carelessness and indifference which has been waged for years, through fire-warnings, posters, talks and lectures, "movies," and in other ways, it is asserted, will therefore be pressed with renewed energy the coming season.

GLAD TO GET DRUGS, TOBACCO, CLOTHES

STOCKHOLM, Sweden, March 9.—A decidedly favorable impression has been made upon the Swedish people by the news that the United States government has raised the embargo upon a long list of commodities greatly needed in this country.

It is regretted that food and other vital necessities are not in this list, but drugs, tobacco, clothing, hats and the like are most acceptable. Swedes take the common sense view that "something is better than nothing," and hope that this relaxation of the embargo may be the beginning of a more liberal American export policy all along the line.

Rapid pro-German papers like the Aftonbladet belittle the concessions as worthless, but other conservative organs, notably the Svenska Dagbladet, despite their pro-German sympathies see some gain to Sweden and agree that "drugs and tobacco are very welcome."

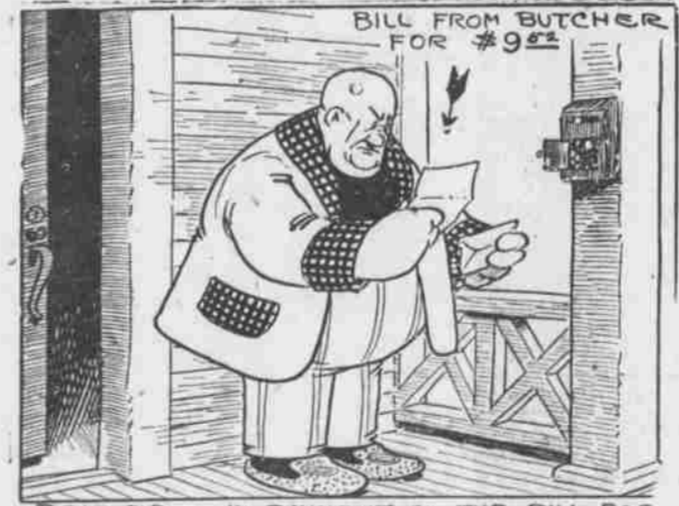

The most important effect of the concessions at this time will be to strengthen the hands of the government and assure its continued backing by the neutral majority of the Swedish public in its efforts to maintain commercial relations with America.

WOMAN'S QUICK DIPLOMACY AVERTS A MOTHER'S ANGER

Mrs. Newscomb—Good morning. Is this Miss Wise's private academy?

Mrs. Binks (hotly)—No, it is not! This is a private house and these are my own children.

Four Wheel Drive

MOTOR TRUCKS

3-Ton Capacity

SPECIFICATIONS

- Load Capacity—3 Ton.
- Chassis Weight in Pounds—6,200 pounds.
- Wheel Base—124 inches.
- Tread—56 inches.
- Turning Radius—24 feet 6 in.
- Speed—14 miles per hour.
- Tires—Make, optional. Front and rear 36x6.
- Wheels—Front and rear interchangeable, 36x6 S. A. E. Standard, Artillery type.
- Number of Cylinders—Four.
- Bore, 4 3/4. Stroke 5 1/2. Offset of Cylinders, 3-4 inch.
- Diameter of Crank Shaft on all Bearings—3 1/2 in. long.
- Front and Center Crank Shaft Bearings—3 1/2 inches long.
- Connecting Rod Bearing—3 1/2 inches.
- Diameter of Wrist Pins—1 3/16 inches.
- Diameter of Cam Shafts—15-16 inch.
- Length of Connecting Rod—12 inches.
- Drop of Motor from Supporting Arms to Center of Crank Shaft—3 inches.
- Length of Pistons—6 inches.
- Engine Governor—On manifold, regulated and set at 1,100 revolutions.
- Number of Piston Rings—3.
- Control—Handthrottle and lever.
- Diameter of all Valves, Intake and Exhaust—2 1/2 inches.
- Weight of Motor—580 pounds.
- Horse Power—A. L. A. M. rating 35.1.
- Cooling System—Centrifugal pump and radiator fan driven from pumpshaft.
- Radiator—Perflex type. Three point suspension.
- Radiator Capacity—8 gallons.
- Ignition—High tension magneto.
- Carburetor—Stromberg.
- Motor Lubrication—Force feed to all bearings and combined splash system.
- Gear Set—Shifting quadrant—own make. Location—on seat frame.
- Number of Speeds—Three speeds forward and one reverse.
- Transmission—Jaw clutch type—selective, gears always in mesh.
- Gear Ratio of the Transmission—1:1 on high, 2:1 on second, 4:1 on low and 4.13:1 on reverse.
- Gears—1-1 1/4 inch wide, 5 to 7 pitch.
- Total Gear Reduction—5.9:1 on high, 17.80:1 second, 55.60:1 low, 36.07:1 reverse.
- Sub-Transmission—Driven by silent chain on differential, which has a locking device.
- Spring—Alloy Steel. Front springs 2 1/2 inches wide, 45 1/2 inches long, semi-elliptic, platform spring in the rear. Side springs, 2 1/2 inches wide and 44 inches long. Cross springs, 2 1/2 inches wide, 40 1/4 inches long, semi-elliptic.
- Shifting Levers—Steering wheel irreversible. Gear shift location—on seat frame. Emergency brake location—on seat frame.
- Clutch and Foot Brake Pedal—Hele-Shaw Multiple Disc Clutch, consisting of steel and copper plates running in oil.
- Gasoline Capacity—20 gallons.
- Universal Joints—Full double universal joint between clutch and transmission and one universal joint on each end of driving shafts.
- Axles—Both axles full floating—front axle having patented ball and socket containing universal running constantly in oil.
- Brakes—External service foot brake on transmission shaft 1 1/2 inches diameter by 3 1/2 inches wide. External emergency brake 1 1/2 inches diameter by 2 3/4 inches wide.
- Bearings—All hub bearings interchangeable for all four wheels. Two bearings used to each wheel.
- Equipment—Complete set of tools. Toolbox, oil cans, horn, Hub-cap, motor and magneto wrenches, two kerosene side lamps, one kerosene tail lamp.
- Painting—Chassis painted in lead color.
