And when, in sadness, there shall come the hour, That I must go and mingle with the dead, Let no one stop to pick a fragrant flower To sanctify the stillness of my bed.

For they who cull a fragrance such as this Make die a breath of sweetness on the air And rob some gentle soul of all the bliss It needs would gather as its earthly wear.

I should not want a honey-suckle spoiled For me, when gone to answer for my task; If there be those who thus would show I've toiled, Go tell them wish me well— 'tis all I ask.

—John J. Daily in Farm Life.

sufficient quantities for her needs. That Germany suffers a serious copper shortage is evident by the way she has stripped all her dependent territory of every speck of copper to be had. Even cooking utensils and church bells have been melted up to make copper for shells.

It has not escaped the attention of war experts that Germany no longer seeks the initiative in large gunfire. The much advertised western offensive has not been started. Is it not possible that the copper shortage makes Hindenburg wary of using his guns as freely as he would like? If this supposition is correct it is not hard to foresee what will happen to the German lines when the time for big action arrives. The side with the big guns and the ability to use them will win. That side can win even if the enemy be superior in manpower.

If Germany runs short of material to such an extent she cannot conduct adequate artillery fighting the boche is doomed.

4500 IDEAS

EVERYBODY with an idea for beating the submarine, unless he be a modest violet—rare in these days of vast riches for ideas—hastens to put his scheme on paper and send it to Washington.

If his panacea for the ills of the merchantman happens to involve methods for concealing a ship, or making it unsinkable, or warding off a torpedo, or nullifying the effect of an explosion, or a thousand and one other plans for thwarting the Hun, it eventually finds its way to the Committee on Ship Protection of the United States shipping Board. There it is

dealt with according to its merits. To date there have been about four thousand five hundred persons in this country who have solved the problem of beating the submarine and had confidence enough in their solutions to send in a draft for the enlightenment of this committee.

After separating the grain from the chaff, the committee has worked out a number of highly feasible schemes from these suggestions. Some of them already are at work and some have served their purpose by saving ships. But the vast majority either have been impractical on their face, or have been tried out and found wanting. The non-technical man who has an idea does not let little things like impossibilities interfere with his dream. It has been the unpleasant duty of the Committee on Ship Protection at different times to shatter dreams and awaken the dreamers.

Yet there is another side to this avalanche of ideas that reflects a patriotic eagerness to help and a sincere and unselfish desire to aid in the solution of the world's most pressing and terrifying problem. With that in mind, the committee feels that appreciation is due the public for it is interested and that it would be unwise to discourage the activity of pseudo inventors.

Some very loyal people who through neglect or over prudence have failed to purchase liberty bonds in the past are now coming to the front with early subscriptions for the third loan. Let the good work go on; take no chances on a yellow card.

Victory is to be largely a matter of manufacturing and that is one reason why an allied victory is certain if we but hold a firm and steady gait.

It will soon be April 1 and Hindenburg has not even got started toward Paris.

28 YEARS AGO

(From the Daily East Oregonian March 20 1890)

A few days ago an offer of \$15,000 was made for a corner lot on Main street in Pendleton and refused. Property values are steadily climbing in Pendleton.

A lady clairvoyant and corn doctor is persisting her calling in Pendleton.

J. B. Purdy is in the city. Mr. Purdy says it is quite probable that he will reopen his warm springs resort this summer.

Honorable T. J. Kirk was in the city this morning on his way to the south.

F. H. Kemper has lost a pug dog and offers a reward for its recovery.

Mrs. W. G. Wilson is on a visit to her parents at Lone, Morrow county. She was accompanied by Master Bert Campbell who will remain with his grand parents all summer.

You can't think clearly when your head is "stopped up" from cold in the head, or nasal catarrh.

Try Kondon's to clear your head (at no cost to you)

\$500,000 have used this 25-year-old remedy. For chronic catarrh, sore nose, coughs, colds, sneezing, nose-bleeds, etc. Write us for complimentary card or buy tube at drug-gists. It will benefit you four times more than if you pay money back. For trial, can free write to KONDON MFG. CO., MINNEAPOLIS, MINN.

KONDON'S CATARRHAL JELLY

22 Million Families in the United States

4 CUPS OF WHEAT FLOUR TO THE POUND

If each family used 4 cups of flour less per week, the saving would be 22 million pounds or 112,244 barrels every week.

The greatest help housekeepers can give to win the war is to make this saving and it can be done by using this recipe in place of white flour bread.

Corn Meal Biscuits

1/2 cup scalded milk	1/2 teaspoon salt
1 cup corn meal	1 cup white flour
2 tablespoons shortening	4 teaspoons Royal Baking Powder

Save 1/2 cup of the measured flour for board. Pour milk over corn meal, add shortening and salt. When cold, add sifted flour and baking powder. Roll out lightly on floured board. Cut with biscuit cutter and bake in greased pan fifteen to twenty minutes.

Our new Red, White and Blue booklet, "Best War Time Recipes," containing many other recipes for making delicious and wholesome wheat saving foods, mailed free—address

AMERICAN GAS MASK WORN BY SOLDIERS OF PERSHING

This is the type of gas mask worn by General Pershing's men in France the kind one contingent of his troops had when they were assailed by bursting German gas shells. Many of the men under attack were unable to adjust the masks in time to save themselves. As a result five died and many more seriously injured.

HOUSEHOLD

ONE DISH VICTORY MEALS.

One-dish meals will please the whole family. They will please mother because they are easy to prepare, they will please brother because they "fill him up," they will please sister because it will not take so long to do the dishes, they will please father because they go lightly on the pocket book, and they will please the U. S. Food Administration because they are food conservation meals.

Potted Hominy and Beef.

Hominy is excellent to use as part of a one-dish dinner, if you have a fire in your stove so that you can cook it for a long time, or if you use a fireless cooker. Heat 1 1/2 quarts of water to boiling, add 1 teaspoon of salt and 2 cups of hominy which has been soaked overnight. Cook in a double boiler for four hours or in the fireless cooker overnight. This makes 5 cups. This recipe may be increased and enough cooked in different ways for several meals. Hominy is excellent combined with dried, canned or fresh fish, or meat and vegetable left-overs may be used. Here is one combination.

2 tablespoons fat.
2 tablespoons flour.
2 cups milk
4 potatoes.
2 cups carrots.
5 cups cooked hominy.
1 teaspoon salt.
1-4 pound dried beef.

Melt the fat, stir in the flour, add the cold milk and mix well. Cook until it thickens. Cut the potatoes and carrots in dice, mix all the materials in a baking dish and bake for one hour.

Potato Bread Rolls.

The following proportions will yield one dozen small rolls:
3 ounces (about 3-4 cup) mashed potatoes.
1 1/2 cups of sifted flour.
1-2 cake of compressed yeast.
2 tablespoons of fat.
3-4 level teaspoonful of salt.

2 tablespoonfuls of lukewarm water.
2 tablespoonfuls of sugar.

Boil, peel and mash the potatoes. Add the salt, the yeast rubbed smooth and mixed with the water, and lastly two tablespoonfuls of flour. Let this mixture stand at a temperature of about 80 degrees F., until a touch will cause it to fall. Add to this sponge the fat, the sugar and the remainder of the flour, and, if necessary, enough more flour to make a very stiff dough. Knead thoroughly until a smooth dough, which is no longer sticky, has been formed. Set back to rise again, and when the dough has tripled in volume, knead lightly, form into small balls, and place, not too close together, in greased pans. Allow to rise until double in volume, and bake 20 minutes in a moderately hot oven (about 400 degrees F.).

Nobody asks now what we are fighting for, the ruthless enemy having been unmasked.

ART ACORD HELPS THEDA BARA VAMP

Many Pendleton people went yesterday afternoon and evening to see Theda Bara vamp through several reels of Cleopatra. They saw her alright, for there wasn't very much of her concealed from view, but they saw also an old friend they had not expected to see, none other than Art Acord, famous 'Round-Up' star. Art was there in all his muscular bigness in the role of Konheren, slave and bodyguard to the siren of the Nile and he was present at almost every scene in the last act, figuring conspicuously in several of them.

The picture shows Theda Bara at her best as an alluring seductress. It follows in the main the well known story of the Egyptian queen who changed the history of the world through her womanly arts and wiles.

WHY PAY THE PEDDLER TWICE THESE PRICES?

You can save money by buying your stock tonic at this store, instead of paying the peddler fancy prices for goods of unknown quality. Look at this price for this old reliable and guaranteed stock conditioner and worm expeller.

of delicious, nourishing, perfectly blended VEGETABLE SOUP prepared from a single package of

KING'S

PATENTED PROCESS

Soup Vegetables

A marvel of economy, these wonderful dehydrated products—economy of labor for the housewife—no tiresome marketing for soup vegetables—no work of preparing them and no waste. You "refresh" them by simply adding water in place of the moisture we take out. They can't spoil—if you wish to use only a part of a package, close up the remainder in the carton and they'll be just as good in a month or more. Fine for flavoring soups, gravies, sauces or Lora Meatless Loaf, an excellent conservation dish.
