Students Edit Paper.
The first edition of the High School paper, The Lantern, is to be put out exclusively by the students, made its appearance today in the form of a Junior edition, put out by members of that class, who will have charge of the paper next year. It was thought by many of the students that the paper would not be a success after the absence of Mr. Young, who formerly had charge of it, but this shows that the students have profited by his teachings.

Save James Bowler.
In the following paragraph in his letter to the Portland Journal from "Somewhere in France" Fred Lockley tells of meeting James Bowler of this city.

A few nights ago I sat in a canteen in a small place near the coast. I was there just to spend one evening, and I met many Oregon boys. One of the boys I saw was Corporal Sam L. Chernie, who worked at the Bischoff Printing company prior to enlisting. Jim Bowler of Pendleton was in his

tent with a bunch of other westerners when I visited his camp. They were expecting to leave their quarters for an inland post. I have met George Denker of Yoncosser, W. C. Gardner, who lives in Rose City Park, and David Thompson of Mizpha church, who is greatly devoted to his work of visiting the sick in the hospitals.

LINCOLN SCHOOL HAS SOLD \$1400 THRIFT STAMPS

The Lincoln school up to Thursday sold over \$1400 worth of Thrift Stamps. They expect to do a business of perhaps \$200 or \$300 Friday as things promise. The children of Lincoln school have worked hard and have done more than to stand on corners selling Thrift Stamps. Most of these stamps were bought by the children themselves by taking their own money out of the bank or "working" their fathers. One little girl, Martha Hogue of the seventh grade has sold over \$200 herself and this was done by good hard work. Up to Friday Heldon Cheshire has sold \$116.53, Wolfred Holmgren \$42.65, Layton Mann \$28.96, George Rigby \$21.56, Marton Durkheimer \$50.51, Rupert Graham \$5.89, Martha Hogue \$195.09, Haroldine Horton \$28.76, Adelbert Park \$3.09, Leota Johnson \$29.59, Morris Temple \$3.73, Garnet Jack \$5.47, Francis Ross \$52.18, Morris Grohau

McAlexander Commanded First American Regiment That Went Over the Top

PORTLAND, Ore., March 22.—That Colonel H. G. McAlexander for several years military instructor at Oregon Agricultural College, was in command of the first regiment of American troops to "go over the top" in France, and that he carried the first American flag into action, alongside the French tricolor, was information received yesterday by Dr. Harry F. McKay.

Colonel McAlexander was called to his command from the Oregon Agricultural College at the time of the Mexican border mobilization. Since then the family home has been at Santa Monica, Cal., where Mrs. McAlexander resides.

Photographs of the battle banner have been received by Mrs. McAlexander, and the record of his memorable entrance into the fray is attested by the signature of Colonel E. M. Hallard, commander of the 77th French Infantry, who fought by the side of Colonel McAlexander's command. The date of the engagement is given as November 19, 1917.

Colonel McAlexander is a graduate of West Point, 1887, and saw active service in the Spanish-American War and in various Indian outbreaks. His regiment was one of the first of the American expeditionary forces to be sent overseas when war with Germany was declared. He has many friends and acquaintances in Portland and throughout the Pacific Northwest.

CONSERVATION of CREDIT

ELIMINATION OF NON-ESSENTIAL CREDIT REQUIRED DURING THE WAR.

The Twelfth Federal Reserve Bank has just a circular notice to all banks in the district, announcing that it will look with disfavor on all non-essential credit paper during the progress of the war. Non-essential means of course non-war essential.

"Preparations are being made for government regulation of credit for corporate financing, intended to restrict or discriminate against credit for non-essential purposes," reads the letter. "The restriction or limitation of credit for other non-essential purposes is quite as necessary and may, at any time, be placed under government regulation, but this discrimination should be immediately initiated and voluntarily applied by banks whose opportunity for such discrimination is immediate. In order to meet the requirements of the government we must have conservation of credit as well as conservation of food. When this war crisis is past bankers may again properly say, 'It is my first duty' to care for my customers."
