### FEW CENTS DESTROYS YOUR DANDRUFF AND STOPS FALLING HAIR

SAVE YOUR HAIR! MAKE IT THICK WAVY AND BEAUTIFUL—TRY THIS!

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—that awful scurf. There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Danderine tonight—now—any time—will surely save your hair.

Get a small bottle of Knowlton's Danderine from any drug store of toilet counter, and after the first application your hair will take on that life, lustre and luxuriance which is so beautiful. It will become wavy and fluffy and have the appearance of abundance, an incomparable gloss and softness; but what will please you most will be after just a few weeks' use, when you will actually see a lot of firm, downy hair—new hair—growing all over the scalp.

While autocracy persists in caste ridden Prussia the cafeteria, where every man waits on himself, will not flourish there.
