The Franklin Touring Car

A Family Car that Fits the Times

YOU may have noticed lately how many cars are making their appeal on "light-weight" —

And implying "efficiency" as a result —

With a paragraph or two about "economy" —

All of which recalls to the experienced motorist that *Scientific Light Weight, Efficiency and Thrift* have been basic principles of the Franklin for fifteen years.

And the call to National Thrift makes the Franklin Touring Car more conspicuous than ever.

The comfort and reliability of the Franklin, you probably know about as well as we do.

So the Franklin remains, during times of Thrift, as in other times, the one fine car you can afford to use as much as you wish.

A Touring Model is now in our show room. Immediate delivery.

FRANKLIN LIGHT WEIGHT Scientifically constructed. Weighs 2280 lbs. — from 700 to 1000 lbs. less than the average fine car. Air-cooled, and therefore not burdened with 177 troublesome water cooling parts.

FRANKLIN EFFICIENCY The first Franklins built are still maintaining that ability to give the best service at the least expense. Look up the used-car value of Franklin cars, to get an idea of how the public esteems this efficient serviceability.

FRANKLIN THRIFT Owners' records show an average of 23 miles to the gallon of gasoline, and 10,000 miles to the set of tires, a regular occurrence.

DISLOYALTY LANDS] TWO MEN IN JAIL

MEN REFUSE TO STAND WHEN STAR SPANGLED BANNER IS PLAYED.

One is American and Other a Russian; Fines of \$250 Are Also Imposed on Spectators at Theatre.

PORTLAND, March 29.—With a fine of \$250 and a jail sentence of 15 days each, H. C. Bishop, who says he is an American, and Victor Sault, a Russian, were punished yesterday by Judge Rossman, of the municipal court, for a disloyal act Thursday night, when they refused to rise to their feet when "The Star Spangled Banner" was played at the Helix Theater.

Evidence was presented showing that the two men refused to rise when the anthem was played, after repeated requests by others in the audience. A. E. Wellington and J. B. Rhoades, both of Portland, and Dr. H. C. Coe, of Bend, were the complaining witnesses.

Bishop offered the excuse that he was not aware that "The Star Spangled Banner" was the National anthem, and besides, he said, he was too tired to stand up.

Sault said he had been in the United States about 11 years and intended to return to Russia as soon as he could. Deputy City Attorney Lansing failed to draw out information as to whether Sault was a "Bolshevik."

SOCIETY WOMAN ON TRIAL CHARGED WITH MURDER

Mrs. O. B. Howe, wife of a salesman of the National Cash Register Company, once prominent in society of Oakland and San Francisco, has been on trial for her life on the charge of murdering W. H. Brooks in a hotel in Porterville, Cal. She declared that he had persecuted her and had been the cause of the separation of herself and her husband.

Oregonians Should Use More Green Vegetables

Lillian Tingle Says State is Plentiful in Garden Truck Wich Should Be Used.

UNIVERSITY OF OREGON, EUGENE, March 16.—Saint Patrick's day has just passed and in honor of the patron saint of the Emerald Isle, Miss Lillian Tingle, of the household arts department, has concocted a new soup which she has named "St. Patrick's soup." And best of all this soup is intensely Hooverish. The first and original soup made by Miss Tingle herself, was entirely of common greens which she picked by the wayside, from a garden that belonged to —well, everyone. Chick-weed, mustard plant, carrot tops in fact anything green can go into this soup, and the result is always savory and delicious.

In speaking to her class in Villard hall last week Miss Tingle said: "There is no time like now for the need of greens in our diet, there is no country where greens are so plentiful as in the United States, and yet there is no place on the face of the earth where they are so neglected, so poorly cooked and so disliked."

Oregon was spoken of by Miss Tingle as one of the most resourceful of the states. It should realize the advantages placed here. Oregon is full of fresh vegetables the year round, and, according to Miss Tingle, if we do not have a garden of our own, we seldom have to go as far to find plenty of fresh greens growing.

"It was several days ago," she said, "that I just stepped out into the back yard and in a minute I came in with a good meal in my hands. If I had a husband, I am sure I would have been able to feed myself and a very small man on what I picked in that short time."

Miss Tingle gave several rules on the conservation of meat and wheat and also gave several practical suggestions for substitutes.

"We are surrounded," she said in closing, "with good foods. We who

IRRITABLE NERVOUS

Was Condition of Indiana Lady Before Beginning to Take Card-u-i, the Woman's Tonic.

Kokomo, Ind.—Mrs. H. Hankemeyer, of this town, says: "I look so well, and am so well, that it does not seem as if I ever needed Cardui. But I was not always this way... I think I have taken a dozen bottles... before my little girl came."

I was feeling dreadfully bad, had headache, backache, sick at my stomach, no energy... I was very irritable, too, and nervous.

I began taking Cardui about 6 months before my baby came. As a result all those bad feelings left me, and I just felt grand, just as if nothing at all was the matter, and when the end came I was hardly sick at all.

Since that I have never taken Cardui at all... It has done me good, and I know it will help others, if they will only try it."

Many women have written grateful letters like the above, telling of the good that Cardui has done them. Why should it not help you, too? If you suffer from any of the ailments so common to women, and feel the need of a safe, reliable, strengthening tonic, we urge you to begin today and give Cardui a fair trial. Your dealer sells Card-u-i. EB-10

live in this blessed country have no right to over-look the good things that are placed at our very door-steps. There is no getting around the fact that food is going to win this war, so every day put the question up to yourself: Have I a right to this? and as the good book said 'Let your conscience be your guide.'

Country Calls to Town For Help to Sow Crops

Retired Farmers and Business Men With Farm Experience Are Asked to Help for 30 Days.

CORVALLIS, Ore., March 28.—Farmers are looking to the city for help to sow their spring crops. Many of them have the land, the teams and the seed for increasing the acreage as called for by the food administration program, but lack men.

Retired farmers and young men with farm experience now working in business establishments are asked to give up four weeks to helping the farmer put in his spring crops. Men capable of handling big teams and running machinery are the kind most needed.

Merchants and manufacturers who have men that can be spared are urged to consider it a patriotic duty to send these men out.

The only way this help can be reached is by voluntary enlistment. Concerning the need for help J. W.

HIGH CLASS VULCANIZING and REPAIRING

Is assured when you have your work done here. Expert workmen, latest equipment and prompt service are at your command.

SEE US BEFORE THE BLOW-OUT
"A stitch in time saves nine," are words well spoken and can be very justly applied to tire trouble. Don't wait to have your repairing done, but see to it now.
