SHELDON ULRICH LIKES FRANCE BUT PREFERS AERIAL TRAVEL

Sheldon Ulrich, former young Pendleton athlete and high school runner on the East Oregonian, who recently enlisted in the Marines and who is now in France with the American Expeditionary Forces, writes the following letter which has just been received by his people here:
On Active Service with the American Expeditionary Forces, March 12, 1918.
Dear Folks:
I am sending my second letter since arriving, hoping you received my first. You probably wonder why I don't write more consistently but I'll have to say you mustn't expect too much for my time is pretty well taken up and conditions prevent me from writing often.
I am feeling fine, this climate seeming to agree with me. For a few days the mud and rain made my bones ache a little but the weather we're having now would make a new man of any one. We are comfortably billeted and everything else is as good as could be expected.
As yet I have received no mail but if you received my address which I sent in my last letter, your first letter should come pretty quick. There also should be some mail arriving that came to San Antonio for me. If any one asks why I haven't written to them, say that on account of conditions, letters may be few and far between. Be sure though to say to write. A package of E. O.'s every once in a while would come in fine, just so I could keep a little in touch with happenings. Also candy would be great, for sweets aren't very plentiful here.
I haven't seen Cliff (Cliff Brown) for some time, in fact only once to talk to him since arriving. Speak of the devil and he surely will appear for here he is now. He says that he received a box from home already so I guess I'll get mail pretty quick. It sure has been fine the way we've stuck together.
I guess it wouldn't go well to say much about my sea voyage, but will admit that I'm not much of a seagoer. I never felt real healthy all the way. I was never so glad before that I never joined the navy. Those big waves sure do rock the poor ship and my, what a funny feeling with every pitch of the boat! I think, going back to me for an aeroplane instead of a ship.
I am writing this letter from a tent, Y. M. C. A. erected here, and, believe me, this is an oasis in the midst of a desert. We have our own chaplain and hold services every Sunday in our billet. You would be surprised to see how many stay for the services. Anything breaking the routine seems to be welcomed by everyone. The French are awfully hospitable but the lingo keeps us from enjoying it as much as if we could talk to them.
Well, it's getting late and I must close for this time but will write more next time. Be sure and write lots and also don't forget the papers and candy.
Affectionately yours,
FRANK SHELDON ULRICH,
First Replacement Battalion, U. S. M. C., 12th Co., A. E. F.

NO MORE FRENCH PASTRY
WASHINGTON, April 18.—What is war without French pastry? And nice creamy coffee?
French pastry is no more in Paris. The afternoon tea, according to Mrs. Ida Clyde Clarke, novelist, consists of tea and "war bread." Mrs. Clarke says there are no beautiful gowns to be seen in Paris and everyone seems to be in mourning.

There were lots of people in the north who wanted to stop the American civil war before it was half done. This continent would have been in a fine position to withstand the strain of today if the pacifists of Lincoln's time had had their way.
