Naming ships of the navy, after colleges may now be revived, owing to the number of ships and the scarcity of desirable names. Hence there is a chance that Admiral Dewey's sarcastic recommendation that some cruiser be called "The Massachusetts Institute of Technology" will yet be carried out.

SMALL RUN OF CATTLE IN PORTLAND SATURDAY

Portland, Ore., May 14.—It was a small run all around at North Portland over Sunday and it was a most unsatisfactory market to start the week with. The big people did their usual stunt by buying a bunch of fat cattle through the yards to show the shippers that they were at their mercy and therefore wanted cattle only at their own price.

There was nothing at all doing in the trade at the start of the day; the trend being slow and the market reflected further weakness.

Everyone Should Drink Hot Water in the Morning

Wash away all the stomach, liver, and bowel poisons before breakfast.

To feel your best day in and day out, to feel clean inside, no sour bile to coat your tongue and sicken your breath or dull your head, no constipation, bilious attacks, sick headache, colds, rheumatism or gassy, acid stomach, you must bathe on the inside like you bathe outside. This is vastly more important, because the skin pores do not absorb impurities into the blood while the bowel pores do, says a well-known physician.

To keep these poisons and toxins well flushed from the stomach, liver, kidneys and bowels, drink before breakfast each day, a glass of hot water with a teaspoonful of limestone phosphate in it. This will cleanse, purify and freshen the entire alimentary tract before putting more food into the stomach.

Get a quarter pound of limestone phosphate from your pharmacist. It is inexpensive and almost tasteless, except a sourish tinge which is not unpleasant. Drink phosphated hot water every morning to rid your system of these vile poisons and toxins; also to prevent their formation.

To feel like young folks feel, like you felt before your blood, nerves and muscles became saturated with an accumulation of body poisons, begin this treatment and above all, keep it up. As soap and hot water act on the skin cleansing, sweetening and purifying, so limestone phosphate and hot water before breakfast, act on the stomach, liver, kidneys and bowels.
