**Glass of Hot Water Before Breakfast a Splendid Habit**

Open sluices of the system each morning and wash away the poisonous, stagnant matter.

Those of us who are accustomed to feel dull and heavy when we arise splitting headaches, stuffy from a cold, foul tongue, nasty breath, acid stomach, lame back, can, instead, both look and feel as fresh as a daisy always by washing the poisons and toxins from the body with phosphated hot water each morning.

We should drink before breakfast a glass of real hot water with a teaspoonful of limestone phosphate in it to flush from the stomach, liver, kidneys and ten yards of bowels the previous days indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary tract before putting more food into the stomach.

This action of limestone phosphate and hot water on an empty stomach is wonderfully invigorating. It cleanses out all the sour fermentations, gases, waste and mummy and gives one a splendid appetite for breakfast and it is said to be but a little while until the roads begin to appear in the cheeks. A quarter pound of limestone phosphate will cost very little at the drug store, but is sufficient to make anyone who is bothered with indigestion, constipation, stomach trouble or rheumatism a real sensation on the subject of internal sanitation. Try it and you are assured that you will look better and feel better in every way shortly.

### Grass Cattle Will Come to Market in Rather Good Shape

PORTLAND, May 25.—Livestock conditions in the interior are rather good, according to William H. Dougherty, president of the Portland Union Stockyards company, who has just returned from a trip to his Umatilla county ranch.  
"Stock is doing fine in that section," says Mr. Dougherty, "and there is every indication that we are going to have early croppers of rather good quality. The cattle situation in the country is not nearly as bad as some interests would have us believe."  
"There is practically no sheep movement from the interior at this time. I attribute this generally to the fact that speculative conditions are such that speculative activity is impossible, sheep men are going to market their own supplies generally this season and this stock will go direct to the various markets, whenever the supplies are ready."  
Quite a few hogs are being produced in Umatilla county this season. While there are not big individual lots all the farmers—even the small fellows—are producing a few. If they have good crops this season, and I believe they will have, the hog production is sure to grow.  
"It was rather dry in Umatilla county while I was there, but the crops

### STOCKS

Stocks here from South. Stocker cattle are being brought forward from California by leading Northwestern interest, a number of loads having been received recently. O. E. Gordin, the prominent shipper from Joseph, brought in a load of 45 scolding heifers from California during the day and will ship the stock to his section.  
In general the cattle trade was quiet for the day, with only limited offerings on the open market, and prices practically ununchanged.  
General cattle range:  
Prime steers ..... \$12.00@14.00  
Good to choice steers ..... 11.50@12.50

Swine: Slightly easier.  
Week-end business was indicated in the wheat trade at North Portland, and \$1.40 appears to be the top for anything now in sight. It is generally believed, however, that loads of really good east of the mountain stuff would again bring \$1.70, but the easier tone and lower prices in the east are having their effect.

### HOW MUCH IS BACKYARD HUNTING GLICENSSE WORTH?

ALBANY, N. Y., May 22.—The Thomas cat with the Caruso voice had better stay indoors in New York from now on.  
Any doubting Thomas may be convinced, either by going out for a solo number of nights in succession, or by reading a law just signed by Gov. Whitman.  
The new law is designed for protection of birds, but easily may be made to work for protection of human also. It provides that anyone over 21, holding a hunting license, may kill a cat found at large "hunting or killing any bird protected by law."
