EAST OREGONIAN SPECIAL NEWS OF UMATILLA CO.

Cutting Alfalfa at Umapine Light Crop Will Be Result

(East Oregonian Special.) UMAPINE, May 30.—Last evening in the Presbyterian valley church, Rev. P. S. Shimlan was given a farewell reception by the congregation. Mr. Shimlan preached his farewell sermon Sunday and will leave shortly for California where he will join Mrs. Shimlan and baby. During his year here Mr. Shimlan has made many warm friends and his leaving is regretted by all. After the social part of the evening ice cream and cake were served and Mr. Shimlan presented with a purse.

On Monday morning Mrs. Edgar Holm left her youngest daughter for Rochester, Minn., where the famous Mayo Brothers, doctors of international repute, will be consulted. Some time during her babyhood Mrs. Holm's little girl fractured her jaw bone, but it was not discovered until she began to get older. It is regarding this they are making the trip east. Miss Della Philipp also accompanied Mrs. Holm and will consult the doctors about an affection of the knees.

Mrs. Dee Piper of Baker, arrived here this Thursday and will visit her father, H. K. Brady of Umapine. Mr. and Mrs. Nelson Manela and son Dorian, were guests this last week with Mr. and Mrs. Craig Toll. They are from Halfway, Ore. and at one time lived in Milton.

Mrs. Nettie Wellman returned to her home here after a vacation of two weeks spent with her brother in Montana. Mrs. Robert Lawson is quite ill this week suffering from gall stones. Her friends are hoping for a speedy recovery.

Mrs. Roberts from Hay, Wash., is visiting her parents, Mr. and Mrs. Gus Sprague.

While driving a team to a wagon with no bed on it, Fred Hinbender of the State Line neighborhood narrowly escaped death this last week when in some way he slipped from the running gear and fell directly under the wheels. One wheel passed over his chest and he was unconscious for a few hours. He was taken to Walla Walla, but is now able to be at home again, recovering from broken ribs.

Mr. and Mrs. Dan Kirk and Mr. and Mrs. Will Records have returned from attending grand lodge of the I. O. O. F. in session at Seaside, Ore., last week. Mrs. Kirk remained in Portland.

Homer Yeck, who has been working with J. H. Goodnight during the winter months, is back again at Umapine after a visit with his people at Baker, Ore. One sister came from California to see him as Mr. Yeck expects to enlist in the marines within a very short time.

Friday night Hudson Bay Grange held a extra session and gave a farewell party in honor of Mr. and Mrs. Gene Labadie who leave this section for their old home in Walla Walla. A big crowd of Grangers turned out and enjoyed an evening's fun. Games were played by the grown ups and children and a jolly time was spent. During the evening Mrs. Labadie was given a handkerchief shower by the ladies and a box of cigars to Mr. Labadie. Ice cream and cake were served at the close of the evening.

Haying has begun in this section among the alfalfa growers and only a light crop will be the result. Owing to cold weather, the alfalfa throughout the valley is of short growth and not luxuriant like other years. Another reason for shortage of alfalfa is the fact that many farmers who had but light stands seeded their acreage to barley this year. Those who have alfalfa are looking for good prices this fall and in view of the fact that wages will have to be paid on a much higher scale this year, this ought to be so.

Mrs. James Kirk is confined to her bed this week suffering from neuralgia. Mr. Charles Wellman leaves this

Friday for her new home in Alberta, Canada, where Mr. Wellman has bought a wheat ranch.

Mr. and Mrs. Jons Thirkildsen and family visited Sunday at Dayton, Wash., where they were the guests of Mr. and Mrs. Hansen.

Viola LeRoux is assisting at the Holm grocery during the absence of Mrs. Holm in the east. The Labadie sale was attended by about 350 people yesterday and all livestock and machinery, etc., brought good prices. The calf which was auctioned off for the Red Cross benefit sold for \$40 while other donations which were thrown in a ring brought the amount to \$87. This sum was turned into the Pendleton headquarters today at the monthly meeting along with \$145 raised by this auxiliary during the past month.

A baby girl was born to Mr. and Mrs. E. L. Broyles at the Lawler Maternity home at Freewater last week. The Broyles are well known alfalfa ranchers living in the State Line neighborhood.

While cranking the Ford auto truck of the Hudson Bay creamery at Umapine the driver, John Allen, received a severe hand wound which necessitated a doctor's care.

Saw Mill at Ukiah Will Be Rebuilt Near Future

(East Oregonian Special.) UKIAH, May 30.—Unless more rain falls soon, Camas Prairie will suffer another short crop, as there was not enough rain fall three weeks ago to insure enough moisture, while other places got so much. High north winds and dust storms continue to blow each day, and ice freezes almost every night which is damaging both grain and gardens. The grass on the range is shorted at this time of the year than has ever been known here, and farmers are becoming considerably worried as to what the outcome will be.

Mr. and Mrs. Krebhiel of Pendleton who have been visiting with Mr. and Mrs. George Ness for some time returned home last Friday.

J. D. Kirk made a business trip to Bridge Creek Friday returning Sunday. Arthur Cardwell of Long Creek, who has been visiting at Milton for a week, returned Friday on his way home.

Mrs. Maggie Walker who has been at the agency during the winter and- ingher children to school, returned Monday to her home on the John Day river below Dale.

Grace Gibbs who went to Pendleton the first of the week to attend the graduating exercises, returned Saturday.

Roy Smith was in Ukiah Monday from the sheep camp after supplies.

A farewell dance was given at Alba Saturday in honor of Frank Rheburg and Ray Rheburg of Alba and Fayette Mettis of Ukiah, who left Sunday to report as they were in the draft. A large crowd attended. A basket supper was served and a good time was had by all those attending from here were Mrs. Caldwell, Mrs. Peterson and children, Virgil, Lyman and Grace, Mrs. Gibbs, Mr. and Mrs. Frank Chamberlin, Marie Mettis, Fayette Mettis, Gordon Mettis, Ray Martin, Cecil Martin, Willie McKenick and Mr. and Mrs. Hugo Lenz.

John Ewing was in town Saturday from the Hynd ranch.

The burning of the mill was not the loss that was thought to be at the first, as the engine and boiler were damaged very little, and Mr. Gibbs intends to rebuild the mill in the near future. Repair work is being done on the Ukiah church. The church is being raised and a cement foundation, but under it, a coat of paint will be added, to both the inside and outside, which will greatly improve the appearance of the building.

Ed Ledgerwood of Butter Creek was in town Tuesday on business. Mr. and Mrs. J. W. Moore were in town Monday trading.

Oliver Dickenson of Athena is visiting his brother Roscoe Dickenson for a while.

Mr. and Mrs. Ed Thrasher, Mrs. Clyde Helmick and daughters Fonda

two-year course for students within two years of draft age.

There are thousands of young Americans who will be unable to complete their full four years at college between the time they graduate from high school and the time they are called to the colors. Under the Amherst plan, they will be permitted to select their studies in the two-year course, to a certain extent.

Amherst is devoting its whole resources to the war. The entire student body drills on the campus every day, under direction of Col. Richard H. Wilson and Major Frank C. Damon.

Old Tin Cans in Milady's Costume

For women who are proud of the fact that they wear hostelry, underwear and dresses made of silk realize that old tin cans contribute from twenty to three hundred per cent in

weight to the glossy silks worn by them, remarks the Popular Science Monthly. The price of silk has increased enormously and to enable them to sell heavy silks at a price that will yield a reasonable profit and yet be within the means of the average purchaser, the manufacturers resort to the practice of weighing the silk with tin tetra-chloride, derived from old tin cans. Five thousand tons of tin were used for that purpose in 1917. Don't throw away the empty tomato cans!
