PENDLETON MOTOR SALES CO. INC.

Corner Cottonwood and Water Sts. Phone 530

will arrive in Pendleton the last of the month.

Ford Representative Here.

The Ford Motor Co.'s territory representative and service adviser, C. Barrett, Jr., is visiting with the local agents, the Simpson Auto Co. The roads at present throughout the state are as good as they will be at any time during the year. The trip from Waco to Bend was especially good, the rain had scolded the dust and the road was smooth. From Waco to Pendleton the road was good except the stretch from Echo to Pendleton, where road construction has made the going poor.

War Garden Man Here.

M. D. Butler of the extension department of the O. A. C., is in the city today. He is making a tour of eastern Oregon in the interest of the war garden movement. While it is late in the season for the starting of gardens there is yet much to be done in keeping work going. Mr. Butler says that he finds in communities that are well organized this work is going better and much easier than in other places. Canning and drying are things that should receive special attention at this time. These are vital matters in food conservation.

Wheatless Cook Book.

"Potatoes for Wheat or it may mean defeat." This is the slogan at the head of the Wheatless Cook Book

received from the food administration at Patriotic Service League headquarters with instructions that they be distributed in the homes of Unsuballa county. The book contains many tried and proved recipes for cooking without wheat. W. B. Ayer, state food administrator, makes the statement that the next three months, until harvest, will be the most critical in our food history. Every family in Oregon owes it to the nation to make this sacrifice and do it willingly.

Excavating for Elevators.

Excavations are being made for three new bulk grain elevators, one each at Patton, McCormick and Myrick. The two at Fulton and Myrick are for the Farmers' Union grain agency, while that at McCormick will be owned by J. W. McCormick.

Sergeant Geissel Writes Sister.

Mrs. Stella Miller of 1499 West Railroad street has just received a letter from her brother Sergeant Fred H. Geissel, of Company E, 116th engineers, in France. It was written on May 11, the day before Mother's Day, and Sergeant Geissel stated that all the boys had been asked to write to their mothers on the following day. He says there is nothing he needs very badly, but is sorry they can't receive packages any more, when a fellow receives a package from home, no matter what it contains, it surely makes him feel good." He writes that the town where they are at present

can get almost anything they want if they have the money, and there is no reason why they can't have a little of the labor, as they get paid every month. He says he draws about 250 Francs or \$51 now, and that they are always paid in French money.

Miss Lusted Going East.

Miss Florence Lusted, supervisor of drawing in the Pendleton schools, left on the Northern Pacific train at 1:35 this afternoon for Chicago and other eastern points. Miss Lusted will visit at her home at Cedar Falls, Iowa, and will go from there to Chicago to attend a school of industrial and applied art. She will return here in August.

Stop Itching Eczema

Never mind how often you have tried and failed, you can stop itching, itching eczema quickly by applying a little zemo furnished by any druggist for 35c. Extra large bottle, \$1.00. Healing begins the moment zemo is applied. In a short time usually every trace of eczema, tetter, pimples, rash, blotchheads and similar skin diseases will be removed. For clearing the skin and making it vigorously healthy, always use zemo, the penetrating, antiseptic liquid. It is not a greasy salve and it does not stain. When others fail it is the one dependable treatment.
